*Agent ‘Jackson’ assigns Chips to a new post ‘The Commander of Asymmetric Defense’ - a parallel assignment to a temporary Command of Domestic Stability in period 2 Oct 2008 to 1 April, 2009. Chips accepts the 5 star assignment contingent upon the Command of Domestic Stability being filled by General David Petraeus or his designee. He reminds Mother Moose he has to brief the new team before they take on their new assignments. Chips tells Moose that he’s switching ADUC to a counter-insurgency role with her as the lead character in a new book ‘Mother Moose and ACORN 8(a) Genocides. ADUC has finished the “Hunters’ Wingmen” and “Sister Abel, Brother Cain” stories and placed its agents in the key command centers of what Osama bin Laden described when he boasted a few weeks after the 9/11 attack, “We [ACORN] have three independent networks to move al-Qaeda [8(a)] assets around the world and all the resources of the British and Americans cannot stop us”. ACORNs \$\$INT Command Center uses Queen Hornet’s 8(a) loan network to finance global murder-for-hire out of virtual war rooms at the K-Street 1301 Sex Club. ACORN’s HUMINT Command Center recruits community organizers for the ACORN Insurgency through its Little Rock HQ, the 1970 base for what would later be associated with Hillary Clinton as the up-to-now baffling crimes of ‘Arkancide’. ACORN’s ELINT Command Center the net-centric genocidal communications and coordination needs of the Obomba contract killers, is*

*run out of Macdonald Dettwiler and Associates offices near the Foggy Dew pub in Richmond, British Columbia where MDA operates in a joint venture with Gordon Campbell, an apparently unwitting or terrified premier of a province which boasts the highest concentration of organized crime groups in the world. The Foggy Dew Pub – where our stories began – is a few minutes drive from what the team has now identified as the ‘ACORN Pig Farm’ where ACORN lesbian agents arranged the contract slaughtering of a hundred innocent mothers for the crimes of ‘useless eating and mindless breeding’ and laundered dead-mother life insurance money back through the Piggy’s Palace Good Times Society to a worldwide network of Francophonie banks. While the ADUC team prepared to move out, Chips noted that Moose has texted an order to his sister to stay under cover for a few more crucial days ‘Amelia, continue to ‘bristle at the mention of my name’ and refer to heterosexual women married to strong, faithful husbands as ‘useless eaters and mindless breeders’. The ACORN Sisterhood is starting to ‘doubt’ your loyalties. SWAN-E says he can help after 23 October. Moose out.’*

.....

As Chips finished off Grolsch #10 he realized something had to be done fairly soon as the supply of Grolsch Wide Bodies was below his personal comfort level. While he was considering the Grolsch situation and the safety of the Sovereignty of the United States of America, he saw a DHL van approach the RC135. The only occupants of the RC were the crew chief supervising refueling and Chips, and the only occupants of the DHL van were a 50 something man and a German Shepherd Wolf hybrid; or so it seemed. As Chips watched the DHL driver open the rear doors his Clipper Squirt Gun took a priority TM from Dancer:

'Chips, get ready to travel, Homi has a BDD11 rolloff and soon I will be out and you will be in, capeche?' As Chips read the TM he noticed a Kazak man leave the passenger side of the DHL van, not a Ford E350 like normal but some foreign van, and the Kazak man came up the porta-steps to the cargo bay of the RC135. As Mr. Kazak approached, Chips recognized some blue eyes, more accurately some 64 year old Jewish blue eyes which are very rare in Kazak men. As Dancer started to take off her disguise she urged Chips to put the outer garments and wig on, as well as the fuel drenched work jacket indicating the wearer was a fuel truck driver for the Almaty airport. As Chips finished redressing both Chip's Clipper and Dancer's Clipper took immediate calls from 'Jackson'.

'Chips, Almaty, Fargo, Buffalo Wild Wings, secure'

'Chips/Dancer; Jackson/Moose with a 'real world'. Chips, you are to return immediately to the DC area, you are now on active duty and you are being reassigned commensurate with your commission of February, 1967 and the ongoing financial attack on America being foisted by the Francophonie and Chinese Banks as well as the Polish Heart Attack being prosecuted by ACORN. Your assignment is Command of Asymmetric Defense and it is a parallel assignment to a newly formed Command of Domestic Stability in the period 2 Oct 2008 to 1 April, 2009. These two new positions are 5 star assignments in recognition of the true identity of the enemies waging war with America; financial, cyberbased, political and treason based war by some entities well

known to you in your long held position with DNIF. DHL will ship you in a BDD11 with AQFB27I suite to Aktau, Kazakhstan where the warming oil pipeline creates an eastern alternative to the Sarah Palin Pipeline in Alaska. It is no coincidence that the Ventures continue to play Pipeline at live concerts  
<http://www.youtube.com/watch?v=z7AnvVRUH64> An EITAM will transport you from Aktau to Istanbul. You know the drill from Istanbul west. DHL departs in 15 minutes, any questions Chips?'

'Jackson and Moose, I accept the 5 star assignment contingent upon the Command of Domestic Stability being filled by General David Patraeus or his designee. I see that you have called for a meeting for 2 October at the Rams Head in Crownsville, Maryland. I can be at that meeting by 7pm as I will be arriving that day in Washington DC Dulles International Airport. For Mother Moose I wish to remind her that I will be briefing the team on:

- 1) Banker's Manifesto of 1892
- 2) School Prayer and Pledge of Allegiance removal
- 3) Roe v. Wade in 1973 created need for entry level aliens to be available to staff blue collar jobs by 1993
- 4) The empowerment, arming and agitation of SBA 'HUBZoner' militia coincidental to removal of Army National Guard weapons from Armories
- 5) Privatization of Intel services during period 1993-2001
- 6) Extortion, entrapment and enucleation of FBI, DOJ, CIA, Congress and Judiciary through Son of BOSS, Lizard, and similar complex financial handcuffs
- 7) 9-11-01 was a demonstration that any government official could be removed via illegally modified Boeing airliners as were the 'Raytheon 5'
- 8) ACORN attack on US Elections to delay election. FBI sweeps more states in a probe to parallel ADUC new book "Mother Moose and ACORN 8(a)" Crime scene by crime scene study of 8(a) murders since 1970 starting with the M.O. at the B.C. Pig farm killings of victims dismissed as 'useless eaters, mindless breeders'
- 9) How ACORN ran 9/11 by MDA and Premier Gordon Campbell in British Columbia
- 10) How ACORN controlled witnesses and workers at the Pig Farm and Fresh Kills

Chips then relayed three sets of images with the texted pre-briefs, prepared with Hamish

*“Moose Pre-brief 1 -- They’ve scared Gordon Campbell witless. On a flight to Kelowna May 2002, ACORN’s goons in the hospital employee union jeered at Gordie, sang protest songs and blocked his vehicle after the flight to Vancouver. On April Fool’s Day, 2001, 400 people paraded outside his home, protesting cuts and slashes to the minimum wage. They firebombed his constituency office and his wife’s office. ACORN has the videos from the pig farm with the breeders being snuffed. In January 2003, they got Campbell drunk in Hawaii near the Obombas’ Iridium naval command center, tossed him in jail and put his [mugshot](#) online. May 2001, ACORN investors did a reverse takeover to get Orbital Sciences Corporation to cough up MacDonalD, Dettwiler and Associates, Ltd. B.C. Premier Gordon Campbell and the British Columbia Investment Management Corporation (BCIMC) took unwitting (?) custody of a company structured for net-centric genocide.. ACORN got access through Macdonald Dettwiler to Orbital 8(a) protégé firms which staged 9/11 attacks. ACORN used MDA’s satellite-based networks with wireless data communications and high-resolution Earth imagery for the bogus war games on 9/11. ACORN is now operating inside the presidential chain of command in preparation for a genocidal coup d’etat if Obama isn’t elected. Problem for ACORN commanders is that we operate inside their chain of command. Hamish over.”*

The second pre-brief was equally terse, beginning with an image to remind everyone that Motorola radios were sabotaged on 9/11 by ACORN’s 8(a) sabotage testers for AMEC.

Motorola radios sabotaged, FDNY ambushed by ACORN’s 8(a) protégés!

*“Moose Pre-brief 2 - ACORN’s sanitation workers controlled Ground Zero. They took molten steel beams and human remains to bury in the Fresh Kills landfill supposed to be closed in March 2001 but they opened it up for George Soros and his Waste Management goons to run the screening equipment to sort out the vehicles from 10 fire ladder companies and five engine companies, guns, money and body parts, including a head. They put their goons in the NYDS to intimidate everyone at the two sites, including 100 city detectives, 35 to 40 FBI agents, and representatives of the Secret Service,*

*National Transportation Safety Board, Immigration and Naturalization Service, ATF. They would show people bits of bodies; arms, sometimes toes and tell them this could happen to them. They controlled the Department of Design and Construction told them to install global positioning satellite (GPS) technology on transport trucks so none of the evidence that mattered would be examined by those who should. All operated by MacDonald, Dettwiler and Associates, Ltd Amec's 8(a) guys reporting to Queen Hornet. ACORN controlled the people in the Office of Emergency Management which was originally in WTC# 7 before they demolished it with Amec 8(a) saboteurs. ACORN controlled all the collection truck drivers, told them to moving dripping molten steel beams to Fresh Kills landfill on Staten Island. They controlled site communications with 800 megahertz radios extorted from the police department and cellular phones with a secure walkie talkie capability (Nextels) which they got through the Y2K scam put on by Brucey Baby and Queen H. out of the K-Street Sex Club. Turns out all of ACORN's Fresh Kills comms were run thorough B.C. Premier Campbell who had bought the right to coordinate hundreds of 8(a) firms with Macdonald Dettwiler and Associates in Richmond, real close to the Foggy Dew where the story started Hamish out."*

*"Moose Pre-brief 3 ADUC is switching to a counter-insurgency role with Moose as the lead character in a new book 'Mother Moose and ACORN 8(a) Genocides. ADUC has finished the "Hunters' Wingmen" and "Sister Abel, Brother Cain" stories and placed its agents in the key command centers of what Osama bin Laden described when he boasted a few weeks after the 9/11 attack, "We [ACORN] have three independent networks to move al-Qaeda [8(a)] assets around the world and all the resources of the British and Americans cannot stop us". ACORN's ELINT Command Center the net-centric genocidal communications and coordination needs of the Obomba contract killers, is run out of Macdonald Dettwiler and Associates offices near the Foggy Dew pub in Richmond, British Columbia. MDA operates in a joint venture with Gordon Campbell an apparently unwitting or terrified premier of a province which boasts the highest concentration of organized crime groups in the world. The Foggy Dew Pub – where our stories began – is a few minutes drive*

*from what the team has now identified as the 'ACORN Pig Farm' where ACORN lesbian agents arranged the contract slaughtering of a hundred innocent mothers for the crimes of 'useless eating and mindless breeding' and laundered dead-mother life insurance money back through the Piggy's Palace Good Times Society to a worldwide racketeering network of Francophonie banks led by BNP Paribas and Pargesa.'*

With the three pre-briefs gone and the thongs stowed away for more serious action, Chips resumed "If you both concur with my conditions, please arrange to have the USS Cole sitting at the confluence of the Severn River and Chesapeake Bay during the Homecoming Game at Annapolis, 10-18-2008."

'Chips, Moose and I will be represented at 'Operation Rudy 1940' at the Rams Head on 2 Oct, 2008 at 1900 hours. We will meet your conditions if you will staff the vacancy in Asymmetric Warfare. Further, per FBI and electronic listening in Otis equipment we believe we will be able to provide the October Surprise by 23 October if the ACORN sisters are still active. We appreciate your efforts and willingness to continue serving, good luck and Godspeed. Please dial us up from the BDD11 if you have additional concerns. DHL is ready to go, safe journey, Jackson/Moose out'.

'Chips out' whereupon Chips walked to the DHL van dressed as 'the Kazak gentleman' as Dancer bided her time in the RC135. As Homi and Duke climbed into the DHL van, Chips settled into the BDD11 and closed the lid before performing the BIT checks on the AQFB27I intel/comm suite. Two minutes after signing into his file on the AQFB he received a message from Dancer indicating that Captain Rich McHogeny, age 58, a pilot with the national airline of Icaristan had suffered a major heart attack and died. The short message indicated his remains would arrive at Boulger Funeral Home, Moorhead, Minnesota on 6 October, 2008. As Chips said goodbye to Captain Rich McHogeny, he pulled a Grolsch frosty out of the BDD11 cooler and toasted his old persona; and looked forward to continuing challenges which would be chronicled in 'Mother Moose vs. the ACORN Insurgency'. Having been Captain David Hunter and then Captain Rich McHogeny, Chips was contemplating his next 'nomme de guerre' when the DHL van overturned and Chips found himself upside down in the BDD11. As he referenced the illuminated inclinometer in the BDD11 he saw a 'priority' from Moose TM with a copy to Hamish and Amelia.

While other members of the ADUC team prepared to move out, Chips noted that Moose has texted an order to his sister to stay under cover for a few more crucial days...
