Chips entered Suite 400; the 'house dicks' looked at the bullet holes and promised a thorough investigation and hopefully an arrest re Gorelick Wall, Clinton's USIS and FCI-SES. Warning Chips that since late 19th century, DLA Piper's root companies and Magic Circle law firms have used Smythson stationary to track prospective targets such as Winston Churchill, Grace Kelly and Princess Diana. Chatterbox Corazon warns Chips that Princess Diana's death was due to car crash where onboard computer chip was stolen some days earlier in a well established assassination technique from the 1980s (developed by the British SAS) nicknamed "The Boston Brakes". Abel Danger Cinnamon Girl tells Chips that Alien Technology is a manufacturer of RFID technology and produces (EPC) Class 1 and Class 1 Gen 2 RFID inlays, tags and readers designed for use in retail stores like Smythson. Alien got funding from DuPont and its customers include Wal-Mart (Hillary was director 1986 – 1992), the U.S. DoD and VeriSign. VD Witness Abigail Chopsticks exposes DLA Piper plans for world domination with Lee Miller in Chicago. The firm's chairman, Senator George Mitchell worked behind Robin Cook's back with Mrs. Clegg and Obama on building the al-Qaeda Myth. Obama is a Citizen of the United Kingdom and Colonies. QinetiQ implanted an Alien RFID device near Obama's G-spot to steer him past investigators and into the White House. Mitchell operated out of New York with patent lawyer Hillary and Lord Sharman then boss of KPMG Consulting to get the al-Qaeda snuff-film DVD crews into the Duane Street Ladder Company. London-based co-chief executive officer Nigel Knowles hired Robert Wardle, former director of the Serious Fraud Office (SFO) for corporate crime and investigations practice with specialist lawyers drawn from HM Revenue & Customs and Financial Services Authority. (Before reading the most important of the 223 chapters completed in this 10 volume set, consider this musical offering from Buffalo SpringFIELD and consider that when FIELD is removed, only BS remains, capeche? We are indeed on the way home as Lord Tebbitt, AG NY Cuomo and Glenn Beck move in for the killing of the OCTOPUS)

The other members of the successful 'Sweepers of MIT' forensic janitor strike force surrounded Diehard who held the Weatherby triggerman. Even though he had a big gun he was an ugly little runt as Diehard communicated to Homi and Bigg Johnson with his signature 'grunt'.

Bigg Johnson, a linguist trained by the DLI in Monterey and also a part time blueberry QA asset from Rush City, Wisconsin, interpreted the grunt to the other 'slicers and dicers'. "Diehard's grunt conveys his opinion that 'runty' bares an eerie resemblance to Peter G. Peterson and smells of fresh urine. He further is asking Homi for one of Name Dropper's TVPC pellets so we can make the shooter 'Client 23' in the hit parade. In closing, his grunt expressed a desire for 3 pounds of tiger meat and for someone to 'dress him left' as he has his hands full with 'runty' ". All noted that the shooter was indeed vertically challenged and was approximately the same height as Obama's Penguin.

"Here's your tiger meat Diehard but negative good buddy on the 'dress left request'" said Dwarf from the Prairie as he handed Diehard 3 pounds of ground chuck that was 93% fat free.

Mary Ann MATS who had been out back enjoying a post-coital cigarette felt compassion for Diehard and was kind enough to dress him left as he indeed had his hands full and after adjusting him Mary Ann realized he also had his jockey underwear full as well. That reminded her of Stone, who was a stone's throw away in Suite 400-A, so she repaired to her love nest after curing Diehard's 'hung jewels' not to be confused with the 'hung parliament' in England that was hastily arranged, and starting to fall apart already, following the bungled hit on Nigel Houdini.

As Mary Ann MATS started climbing the fire escape going up she saw a man in a Purple Robe with gold piping exit the 3rd floor and climb to the 4th floor where he and his woody disappeared behind a cream colored curtain blowing in the early morning breeze. Mary Ann MATS didn't get a good look at his face but from his purple tipped woodie with a large knob on the shifter she knew it was Chips and she wondered who he had been pumping for information. She had also been trained as a Flight Attendant to be critically observant and she had noticed Wisconsin Collector plates on Chips' purple tipped Woody and wondered to herself how far New Holstein was from Plum City.

<http://www.seriouswheels.com/pics-1940-1949/1946-Ford-Super-DeLuxe-Woody-Wagon-Front-Angle-st.jpg>

Chips entered Suite 400 which had several 'house dicks' looking at the bullet holes in the bathroom. From the trajectory they had determined the position of the shooter and promised Chips a thorough investigation and hopefully an arrest assuming the Gorelick Wall, Clinton's USIS, FCI-SES or a good football rerun didn't get in the way.

"Not necessary gents, our 'private dicks' captured the triggerman and he is going for a float in the Charles River. His Weatherby .458 with a custom stock is leaned up against the fire escape ladder behind the hotel. The chamber is empty and the shells are right here."

Chips pulled his Purple Robe back exposing 4 .458 rounds taped to his left thigh and his lower unit.

"What a huge caliber" gasped one of the house dicks.

"We couldn't agree more" gushed Nellie Nosebush as she led Chips to 400-B.

"If you house dicks need anything, we three will be in 400-B in a security debriefing" shared Madam Ovary as she helped the house dicks find the door. Noticing Stone's necktie was gone from the door knob Madam Ovary decided to find a knob of another nature ASAP. As she closed the door to 400-B and locked it, she heard the steady whirring of a Jacuzzi and the sound of a Redi-whip can being discharged. She grabbed a 4 ounce jar of maraschino cherries to join in the fun while in Suite 200-A Hamish was receiving an Immediate Clipper on his Sherlock Holmes Clipper Pipe and draining the 3rd of his signature mineral waters with lime slice as across the pond in Frome, England Agent Slicer was coming in from the cold and communicating with Hamish, Banzai, Name Dropper and Marquis d'Cartier.

Name Dropper's Purple Sac Clipper auto-responded to Agent Slicer and Hamish with a live GPS indication of his location and mission status 'engaged'. Name Dropper had been given a list of 100 'targets' for his North Dakota State University produced TVPC weapons that had been contracted for by remnants of the SAD in New York and MI6 in Merry Olde Englande where Agent Slicer had received the full dossier of the Gold Team micro-penetration of the Magic Circle Jerks and Curtis Brown, so as not to alarm or forewarn Cherie Blair whose last name becomes Liar if the B is dropped and two vowels reversed, capeche?

[Alien President defeated by Fargo Cyber Security Unit, Operation CHIPS.jpg](#)

On December 13, 2008 the SHRUB and his Halliburton buddy had arranged for the Polymer Department at NDSU [best in the nation] to miniaturize the off the shelf TPC and produce 1000 new TVPCs which would be explained except for the classified nature of this micro-weapon first visualized by Dr. Gordon of the Arecibo Telescope, Puerto Rico in 1964, the same year the forerunner of RCA-GE MOC-TAS project was launched.

A recent visit to the Air Force University at Maxwell AFB, Alabama resulted in Abel Danger Agent Doc Fish-Hook's determining that much of the true history of Ramey AFB, PR, is still classified. For instance, try and find information about the 72nd C4ISR Wing that was anchored at RAFB beginning 2 Oct, 1964.

Hamish saw the auto-respond from Name Dropper Clipper and saw he was on Project 22 which necessitated a swift reply as Diehard had 'laced' Project 23 before throwing him in the Charles River, naked, where it appeared the water must have been cold. It is possible that in his haste Diehard could have dropped Client 23 in the Mystic or Neponset Rivers not to be confused with NIPPONSET which is the Abel Danger Ass set assisting Banzai Pipeline embedded in Japan's SDF HQ.

"KSM Lead Witness Hamish FLASH CLIPPER to Name Dropper, Slicer, Uncle Ray, Yellowhammer, Lonewolf and Abigail Chopsticks, copy Chips: Client 23 floats. Name Dropper to Client 24 following 22. Bell and Howell film of 'floater 23' enroute all

The Charles River floater had not been wet 15 minutes when Agent Buck Naked saw the message intended for Chips. Knowing that Chips would be 'knee deep' in a security debriefing Buck had 'hitchhiked' Chips' secure Clipper IP. Knowing what was necessary Buck called Moniker Flight Strapper at KBOS to order the Gulfstream 550 to be catered and grossed out with fuel. He further indicated all cargo doors should be closed and secure and that both engines should be idling with all pre-taxi checks completed with the exception of the forward boarding door. As he raced to get dressed, get his bag stuffed, and get Agent Mary Ann MATS out of his Jacuzzi, Buck Naked handed Mary Ann MATS a musical message for FLASH Clipper to Suky's Sixpack.

Mary Ann MATS immediately sent a FLASH CLIPPER to Slicer, Chips, Uncle Ray, Yellow Hammer, Lonewolf and Uncle Ray with a single musical selection:

<http://www.youtube.com/watch?v=TbZpGpd5JDM>

“John 16:33 I have told you these things, so that in me you may have peace. In this world you will have trouble. But take heart! I have overcome the world.”

Mary Ann got 7 green flashes indicating that Suky's Sixpack had received the musical briefing which indicated that all should WEAR YOUR LOVE LIKE HEAVEN meaning that it appeared the the Promise of John 16:33 was being played out in the world as infighting intensifies as NY Attorney General goes on the attack as the Rothy and Rocky banksters run for cover like roaches reacting to a 4 D-cell Magna Lite such as Mary Ann MATS's Clipper Flashlight as "the trouble in the world" is laid at the feet of the Global Guardians by the son of the pilot of WWII's B24 TROUBLEmaker, capeche? Mary Ann realized she got 7 affirmatives in response to her flash and determined that Name Dropper was 'hitchhiked' to someone's Clipper IP, most likely Chips as he usually had his hands full, as it were and then some. Her thought was confirmed with an Abel Danger Global routine Clipper from Name Dropper, rather laconic.

“VD Witness Name Dropper routine Clipper Abel Danger Global: "Copy Client 23 floats, leaving Clinton, Maryland after visit the departing E4B at Andrews. Clients 22 and 24 'laced', heading for Magic Circle from KBOS SS454. Lalena. Dropper".

<http://www.youtube.com/watch?v=rQz1ZewzJPK>

[Abel Danger Lalena, enroute Ust-Kamenogorsk, Kazakhstan March, 2010.jpg](#)

Name Dropper had indicated to those 'in the knowledge' that he would be joining Suky's Sixpack at the Full Moon B&B in Frome and that his overnight security detail

would be Lalena, a Russian woman who had often traveled in the cockpits of B737s or A320s carrying financial instruments into or out of Moscow, Frankfurt, Hannover, Almaty or Astana. Lalena had a great financial mind, a killer body, and had numerous floaters in her wake. Name Dropper's CLINTON, MARYLAND item did not make reference to the little village near Andrews AFB where Chips had met Lorrie Early in 1969 when Dr. Warren Early was the cardiologist to Richard M. Nixon but rather was an Abel Danger 'coded comment' reminding all in Abel Danger that according to Des Griffin's "Anti-Semitism" Rothschild had spewed his flattering and diabolical guile to influence Europe's most blue-cold blooded loan shark of the time, Prince William who after the 1803 conquest of Holland by Napoleon, a man of meager urological stature, caused Frankfurt to impose some changes resulting in the 1810 appointment of a Rothschild to the Electoral College with links to Prince Darmstadt and Nathan according to the "Volume X of Jewish Encyclopedia (1905)" that had fallen on Chips' head from the book rack shaken loose by Chips' hydraulic cylinder to die for, according to his well serviced partner. Name Dropper was a very efficient communicator as were the Greeks.

Chips made his way down the fire escape with only his Mumbai leather bag in his left hand and a thermos of Captain Sherlock Martini suspended by a lanyard around his neck.

[DNIF Chips, USMS Crosby, CDC Melba.jpg](#)

As he hopped into the waiting sidecar of Homi's FLH Harley with Duke, a canine killer, already in the sidecar providing security, Chips opened his Mumbai leather bag, not to be confused with the Georgetown Leatherneck complicit in the November, 2008 False Flag at the Oberoi Towers Hotel that Chips had surveilled in 2005 and 2006 as a DC10 Captain for Northwest Airlines in the company of Detroit based Flight Attendant Colleen, and noticed that among other items an Oscar de La Renta Slingshot in Pastel Peach not to be confused with Abel Danger Melba Peach from Operation EMERALD COAST 2009 where Chips, Name Dropper and ITEM V had planned Abel Danger's

Operation EZEKIEL was to go live immediately after Mother's Day, 2010 to round up the mothers who were intending to destroy America from the inside out with their Khazar Kenyan.

Attached to the Pastel Peach monster cage was a brief note from Madam Ovary. "Chips, according to the Overy Law Office in the Magic Circle Pastel Peach should be worn at the Full Moon Pub if you hope to pump SukySpook for useful information. Madam Ovary, it's true, it's true. RTB Omaha."

As Homi propelled Chips through Cambridge towards KBOS, Duke, the German shepherd-wolf cross, picked up a foul scent and alerted Homi. Homi noticed the rollup door on the back of a furniture truck being opened and six legs dressed in black suits and black wingtip Oxfords. Knowing that Oxford produced the Bullingdons and the Gadget Bent rapist, Homi opened the throttle and hung a left to get out of the 'FIELD of fire' not to be confused with the book written by Senator James Webb of Virginia, USNA 1968, who once walked the passageways of Bancroft Hall in lockstep with Midshipman 4/c Chips, '71.

Homi got a triple blink in green on his speedometer and he understood that Diehard and Dwarf in the trailing Crown Vic running lights out had eliminated the three shooters and were reclosing in trail, head lights now on. In the trunk of the Crown Vic Stone operated the defensive array while Sluggo laid low pending the need for strong arm security. In the back seat of Diehard and Dwarf's Crown Vic, Mary Ann MATS and Madam Ovary trained their M249 SAWs to their dead six position from where the rear window would have been had it not been removed and in no way related to the Thriller "Rear Window" starring James Stewart.

http://www.defenseindustrydaily.com/images/ORD_M249-CB_lg.jpg

As Homi throttled back approaching the SERVICE VEHICLES ONLY gate at KBOS, Chips wondered who might be servicing the Penguin as Colbert asked the question in the media: *"The rumors that Kagan is gay,"* her former college roommate Sarah Walzer said, *"were current before she became a public [grotesque] figure, and a source of*

frustration to Kagan and her friends - who were frustrated by their persistence, but worried that denying them could imply some anti-gay prejudice." Chips thought to himself that of course lesbos and queers would be frustrated, when people intentionally continue to sin after receiving knowledge of the truth they have nothing to look forward to except the expectation of a fiery death. Chips also understood that if his thought was to bear fruit, as opposed to the bare fruits infesting DOJ, he would have to check Hebrews 10:26-36 to ensure he recalled correctly the rebuke of God:

"Hebrews 10:26-36 (New International Version) "26 If we deliberately keep on sinning after we have received the knowledge of the truth, no sacrifice for sins is left, 27but only a fearful expectation of judgment and of raging fire that will consume the enemies of God. 28Anyone who rejected the law of Moses died without mercy on the testimony of two or three witnesses. 29 How much more severely do you think a man deserves to be punished who has trampled the Son of God under foot, who has treated as an unholy thing the blood of the covenant that sanctified him, and who has insulted the Spirit of grace? 30 For we know him who said, "It is mine to avenge; I will repay,"[a] and again, "The Lord will judge his people." [b] 31 It is a dreadful thing to fall into the hands of the living God. 32Remember those earlier days after you had received the light, when you stood your ground in a great contest in the face of suffering. 33Sometimes you were publicly exposed to insult and persecution; at other times you stood side by side with those who were so treated. 34You sympathized with those in prison and joyfully accepted the confiscation of your property, because you knew that you yourselves had better and lasting possessions. 35 So do not throw away your confidence; it will be richly rewarded. 36 You need to persevere so that when you have done the will of God, you will receive what he has promised."

Chips was pleased that he had recalled correctly the essence of the Word of God. Chips twigged on verse 10:30 concerning God being the Judge and 10:36 that reminded Chips that God would continue to BLESS HIM AND HIS ISSUE.

As Homi approached the idling Gulfstream 550 prepped to depart, Diehard stopped the Crown Vic with a 428CJ engine and Stone carried Chips' bag up the steps as Chips and Mary Ann MATS followed. As Chips finished his thermos of Captain Sherlock Martini Mary Ann gave him a quick status check and found a TI of 93% which triggered 'auto-lube' in her Maytag.

As Marquis d'Cartier closed the forward boarding door after Mary Ann and her Client were on board, Buck said "Don't just sit there drinking that Grolsch, taxi to 09, we are cleared for blast off, MP01 and 02 are orbiting at KBOS 060/100 with Upset 31 and Joint Stars out of Warner Robins 'stacked'."

As Stone taxied the G550 towards Runway 09 Buck ran his right index finger down the taxi and takeoff check lists and gave a thumb's up to Stone as the power was clobbered and the MCDU sensed the crossing of the R09 threshold and started 'uplinking' to Banzai in J-Stars, Otto at Abel Danger HAARP-north as well as Corazon Dulce in the J-Stars with Agents James Crosby and Uncle Ray. Abel Danger didn't like to put all their eggs in one basket having learned from Polish AF1 in the Smolensk hit, Air France 447, Colgan 3407, Adam Air 574, Kenya Airways and a host of other airliner hits going back to Dorothy Hunt's UAL 553 in December of '72 in Montreal-south and City of London-west CHICAGO.

"V1, rotate, need a frosty?" said Buck as he took out a girlie magazine and helped himself to a Grolsch wide-body just like Bigg Johnson, John Galt, Chips and Lonewolf enjoyed doing PARDON THE REDUNDANCY.

<http://www.youtube.com/watch?v=OxGZfbSbSKQ>

Stone held up 3 fingers, including his Badfinger, as he reviewed the Truth of Romans 1:32 and Ezekiel 21:25-27. Stone felt that the escapees from the Ringling Brothers, Barnum and Bailey 'freak show' that squatted at 1600 and aimed for the highest court would be Judged by He who sits at the Only Court that matters on His Throne.

"Romans 1:32 (New International Version) 32Although they know God's righteous decree that those who do such things deserve death, they not only continue to do these very things but also approve of those who practice them."

Stone considered the Word of God in Ezekiel 21:25-27 (New International Version)

" 25 " 'O profane and wicked prince of Israel, whose day has come, whose time of punishment has reached its climax, 26 this is what the Sovereign LORD says: Take off the turban, remove the crown. It will not be as it was: The lowly will be exalted and the exalted will be brought low. 27 A ruin! A ruin! I will make it a ruin! It will not be restored until he comes to whom it rightfully belongs; to him I will give it."

As Stone reconsidered what his father Chips had told him "Don't worry about the squatter Stone, his Indonesian-Kenya Turban will be revealed by Dr. David Manning and his crown, lower case C intended, will be removed by my SPONSOR and Saviour." Stone thought how interesting that Civil Case 1:08-1600 (RMC) was so appropriately numbered, just like the days of the squatter. Passing 10,000 3 minutes after brake release Stone accelerated to a .9 IMN climb as Buck Naked went to the galley to share some incoming ACARS with Chips.

"Circle Jerker Yellowhammer Immediate Clipper to Banzai, Name Dropper, Hamish and Chips, copy Otto and Kui: "Our UK agents have evidence that since the late 19th century, DLA Piper's root companies and Magic Circle law firms have been using the printing and delivery of Smythson stationery - including invitations to celebrity events - to track prospective targets for assassination, including Winston Churchill, Grace Kelly and Princess Diana. "Circle Jerker Curtis Brown Immediate Clipper to Suky Sixpack's FULL MOON peers: Samantha, SamCam, wife of David C. is set for a bumper pre-Christmas bonus after her stationery firm Smythson's was sold for £18 million. Mrs Cameron, who is creative director at the company, will be among senior managers who are in line for a share of a performance-related cash package in the wake of the sale. Smythson, the 122-year-old leather goods and stationery retailer, has been bought by Greenwill SA, which is the holding company for Tivoli Group, a leading Italian leather goods manufacturer. Members of Smythson's management, including Mrs Cameron, are set to share 1.5 per cent of the £18 million, or £270,000, as part of a long-term incentive plan, the [Financial Times](#) reported today. Mrs Cameron's own personal bonus is unknown, but it is predicted that it could top £50,000. She has been recognised as the driving force behind the revival of the company, which has supplied note-paper to [Princess Diana](#)

and [Winston Churchill](#). The company, whose first store was opened by Frank Smythson in New Bond Street in 1887, was acquired by Kelso Place Asset Management and Venrex Investment Management in 2005 for £16 million. CB but not, I repeat not, Cherie Blair”

Over the years, [Smythson](#) customers have included the Royal family, Grace Kelly and Madonna. Chopsticks”

Chips' head was starting to swim, much like Client 23 in the Charles River, or was it the Mystic or Neponset. To clear his mind to keep up with the ever deepening stack of Clipper-ACARS allowed after passing 10,000 feet he commented to Mary Ann MATS that he hoped that he was not being mis-led.

"Chips, keep in accordance with Proverbs 3:5/6 and you cannot be misled. But I understand your concern; working for God does call for 100% accuracy, according to Banzai Pipeline who diligently pursues the TRUTH. Here, listen to a song about leading on my Clipper 4 D cel Magnalight while I refresh your CSM, this time with a double portion of Ukrainian SV so you don't overdo it before you overdo me.." Chips noticed she had selected C6 and F4 on her Clipper, he also noticed she had no VPLs which gave him another good idea.

<http://www.youtube.com/watch?v=EeeZr6uIHj4>

Chips wondered if the Magic Circle Jerks or the Freak Show Escapees in Washington knew that Elvis was a Christian. Or God IS IN CONTROL. Or who Chips works directly for in a 1 to 1 relationship. Then he realized, if they had eyes they could see unless they fell under the spell of II Corinthians 4:4, bummer for them. Mary Ann handed him a 32 ounce Captain Sherlock Martini and she was enjoying a globe of Merlot which gave her a total of three globes, only one being Purple. As the monster was awakening he got back to work reading the Clippers as Stone leveled at FL340 so the two QF4Ds would be able to hang in their at 92%. Chips was aware the the ION F4 from the 119th Fighter Wing was tail 769, secret code to the Gardener 119769, and he smiled.

Strange thing is, when found the only thing missing from the car was the onboard computer chip; that chip is responsible for controlling steering and braking! Stranger still is why that Benz S280 was the "only available car" that night! The onboard computer chip controls, amongst other things, navigation, acceleration, steering and braking of a vehicle. Considering that Princess Diana's death was due to a car crash, the fact that the Mercedes S280 involved in the crash had its onboard computer chip stolen some days earlier (and nothing else mind you suggesting the car-snatchers were no ordinary thieves) pushes the pervasive accident account onto firmer conspiracy territory. To date there actually exists a well established assassination technique from the 1980s (developed by the British SAS) nicknamed "The Boston Brakes" which involves steering, braking and acceleration capability being taken over by remote control!" Further, if Chips is not busy pumping someone for information remind him that Umbrellaman sends this message in Spanish: Senor tan solo dejame ser siempre tu sirviente. Corzon Dulce, aloft.”

Mary Ann could see that Chips was getting TMI as well as a purple tipped woody so she allowed MdC to give Chips just one last Clipper ACARS, this one an Immediate from Mattress Thrasher investigating fraudulent mortgage reports for the Attorney General of New York as well as Nancy Pelosi's challenger in SFO.

"Blabbermouth Mattress Thrasher Immediate Clipper to Chips, Hamish, MdC, Banzai and Corazon, copy Agent Bean: "DLA Piper UK LLP (DLA Piper) is delighted to announce that Robert Wardle, the former director of the Serious Fraud Office (SFO) has joined its market leading corporate crime and investigations practice. Robert's appointment gives DLA Piper unique access to the UK's leading former prosecutor. His presence adds to the 70 strong international team of regulatory investigations specialists. Robert joins a line-up that already boasts a large number of specialist lawyers drawn from regulators such as the Serious Fraud Office, Her Majesty's Revenue & Customs, the Department for Business, Enterprise and Regulatory Reform, the Office of Fair Trading and the Financial Services Authority." Suggest that Abel Danger BM cross talk with Cuomo in the South East District and go for the juggler, no strike that, jugglar. Thrasher, SFO, 'Let 'er Rip, Potato Chip"

Mary Ann MATS was fully lubed and handed a third CSM to Chips as she told him "I need a moment of your time in the CRF".

While Chips was up to the project, as was his purple tipped red champion, he asked why the switch from young to old as it pertained to Chips or Stone. As her IOCs hit the floor of the CRF, she let her 4 D Cel Clipper MagnLite do the talking in response:

"Baby believe me I understand, when it comes to love you want a man with a slow hand and if you get a hold of this....."

Chips was interrupted by four concussive blasts indicating that the two QF4Ds were responding to an unknown rider as from the shadowy darkness Banzai and Otto smeared each other in their warnings which did not get through nor did the mother of all Clippers from Abel Danger's Global Operations Director to New York Attorney General Cuomo, Lord Tebbitt of England, and Glenn Beck of Fox News get read by Chips who was put 'back in harness' by an insatiable Mary Ann MATS who was barking like young female pup, but not the one in Jackson Browne's song 'Loadout' which would have been diametrically opposed to the true dynamic in the CRF.

"Abel Danger Global Operations Director FLASH Clipper to Lord Tebbitt, Attorney General of New York Cuomo, and Fox News Glenn Beck, copy Mother Moose and Bachmann Turner Over: Post to Lord Tebbitt blog DT .. Number 10 Loan-to-Own in Coalition of Serious Fraud, Lord Tebbitt: We invite you to investigate the serious fraud on HM Treasury, allegedly launched in 1990 out of Number 10 by David Cameron and Norman Lamont as a loan-to-own coalition of HSBC and NM Rothschild family bankers. The HSBC-Rothschild loan-to-own coalition has custody of a \$64 trillion credit pool in the Carbon Disclosure Project launched out of No. 10 in December 2000. The \$64 trillion loan-to-own pool has been extorted by HSBC-Rothschild agents from shareholders in companies such as BP whose directors have been framed after the Deepwater Horizon rig was sabotaged using incendiary bombs in a nano-thermitic

reaction to melt the steel and destroy the evidence of insurance and loan frauds.
