Chips heard a lyric; words from his sister's song 'They're all after my blood .. Let me out, let me out. .. I must let the show go on'. Agent Padre warned that eugenic bio engineers had infiltrated every key level of university/government and intelligence communities. Uncle Ray commented on Operation Open Eyes and how the forces of evil, including Marxist shapeshifters had infiltrated Obama's CAVE in Chicago's Electronic Visualization and insemination Lab [EViL]. Chips invites born again NORTH Americans to counter Operation Wings Over the World where "WOW" will include Ebola and bubonic plague D.N.A. interlaced with swine, bird and Spanish flu; the fruits of objective research by these dem/i/god maniacs into a world-wide super pandemic. Marshal Law noted that if on September 22, 2009, a 'big bang' hits Chicago remember you heard of it first from Abel Danger and warned that they have to undo the Crime Scene to maintain al-Qaeda trademark. Hamish explained that the Jarretts were family friends with the Bowman family and Frank Marshall Davis and that Davis had developed a Marxist pedophile network in Hawaii for Jarrett in Chicago which may have used

Barack Obama as a pedophile bait to ambush FBI investigators. Chips called an aide to Canadian Prime Minister Harper; asked him to tell the PM that his fellow Canadian privy councilor Paule Gauthier, used Clipper Chip to sabotage Naudet production company on 9/11 and hired her lesbian buddies at Femme Comp to extort cooperation from his sister, code named 'Queen Hornet'. FCUers have turned Clipper into a project to monitor America and possibly nuke Chicago. Uncle Sam now Little Brother; Femme Comp is now Big Sister. In 1992, EViL invented the [CAVE™](#) virtual reality theater for the al-Qaeda crime scene. The aide reached for the hot-line to Room 1969. A rare 'flash' priority message came into the Clipper Squirt Gun of Baby Brother from Scared Sister. Chips's svelte co-agent countered with a can of smoked oysters. The EViL virtual reality show continued going on. Sable promised to name the Dem CW Lesbo entrappee. From Turkey's Galatasaray University, a biochemist called her Femme Comp handler in Montreal and spoke in French. At 1600 Pennsylvania Avenue, Pal Kenn saw a nervous O.

.....
While Jam and Chips were about ready to engage for the second go-round their Clippers went off in the silent mode. Jam noticed the blinking amber light on her Clipper Pastel Easel and as she stretched to reach it, Chips got an eyeful of the target area. Chips was amazed at her ability to extend and reach, and when he commented to her regarding those abilities to stretch and reach she returned the compliment noting Chips had some abilities along those lines as well, especially after he had had three or more tins of Chicken of the Sea Smoked Oysters and two or more Rodney Baldinger NDSU extend-o-peter gel tabs.

They discussed the significance of gel-tabs briefly as it relates to the upcoming Operations Big Picture and Wings Over The World and the relationship between Squalene and H1N1 and the gelatinized viruses readied at the Redstone arsenal for aerial dispersal over the entirety of the North American land mass after introductory [test] application on native Canadians through vaccinations. As Jam saw the text message she hurriedly grabbed their robes and told Chips that Moxie G and her husband were coming to join them for an important 4 way. As Jam and Chips readied themselves to receive official guests they dressed in a casual fashion not unlike one would dress for an October fishing trip for Snook on the Gulf of Mexico, the same Gulf of Mexico over which Amalgam Virgo 01 was conducted...yes the Amalgam Virgo which was the dress rehearsal for the flying events of 9-11 where Gen. Harry Shelton and Gen. Ralph Eberhardt would surrender sovereignty of US airspace to untrustworthy Canadian General Maurice Baril who then corrupted an Air Defense Exercise and killed Captains Gerald DeConto and Chic Burlingame, along with 3000+ innocents on 9/11. Kiwi fruit items were donned by both parties and the knock at the door came shortly after the shorts and Aloha print shirts had been buttoned up.

"Welcome to Room 1969" was the greeting of Jam to Moxie G and her husband. As the four went to the sitting room part of the suite Moxie laid her Ruger 380 on the table next to 4 unopened bottles of Merlot. Her husband laid what appeared to be a taser next to the Ruger. As Moxie and Jam settled on the sofa, Chips asked if anyone wished to 'wet their whistle' and all three hands went up so Chips passed out the wine glasses and handed a bottle of Merlot to Jam to do the honors. As Chips joined the trio he noticed the

invoice of the DoD order for the flying vehicles ostensibly ordered for IDF to be deployed over Iran to defoliate a desert. That was the first red herring that Moxie's husband had noted. However, when the first prototype flying vehicle arrived at Redstone, he had inspected the Honeywell data base and noticed that the latitude and longitude coverage area was from 61 west to 157 west and from 18 north to 72 north in general terms, or precisely from A [18N 66W] to B [32N 118W] to C [72N 157W] to D [50N 61 W] excepting a 200 mile radius of CM [38.48.21N 104.42.03 W]. He had responsibly downloaded the data to his Blackberry like taser and shared that information with Abel Danger assets gathering at Redstone. Dr. Nano al-Umina had had a brief visit with Moxie's husband at the gathering and they had concluded that the flying vehicles ordered for delivery on 2 October, 2009 would be equipped to overfly any point of North America but, unless modified with additional flight guidance data bases, could not be deployed in the middle east. Nano and Moxie's husband had agreed to share intel with Offutt, Shriver, Langley and Baker Street after Abel Danger, Oathkeepers, the Marine Corps Reserve, the American Legion and the VFW.

After over flying the North American landmass these flying vehicles would have the endurance, or legs, to get out over the Atlantic, Pacific, or Hudson bay to be blown with SMACsonic and reduced to plasma as were UA175, AA11 and AA77 after they had been replaced by drones. Had Captain Jason Dahl's United 93 not been 41 minutes late his aircraft would also have been vaporized in the Atlantic 'drop box' instead of the 8 mile debris field near Shanksville, PA where Susan McElwain and the gentleman farmer observed the B757 flying inverted at tree top level with a small white jet [5th Wing, Goose] and an F16 flown by Dean Eckmann in the area, along with a pair of F15s from Otis ANGB, Massachusetts.

Jam was just refilling the wineglasses when a priority Clipper came in from Padre in Chicago: "I told you it would be the chickens and the pluckers thereof deployed by FCI for benefit of Matrix Red that would start eliminating potential squealers. This week's ARKANCIDE to include D Pang, J McDonald, F. Casperson, Christopher Kelly and"

Jam, Moxie G, Kenny G and Chips all heard the same 4 names prior to the call being dropped, or more likely interfered with. Moxie G. was the first to speak.

"In Atlanta we have been told to be very vigilant as many microbiologists and Marconi employees have suffered a statistically improbable mortality rate as of late. Further the informed insiders at CDC suspect that University researchers and student lab assistants are at a higher risk of contracting something bad due to the Baxters of the world. We CDC/Abel Danger folks received the following Clipper from Padre in Chicago less than 24 hours ago:

"Padre Clipper: A net work of shadow ops, eugenics bio engineers, (cooks) with other "grim reaper" sleeper cell insurgent teams of diversified operatives (servers) infiltrating every key level of university/government, bio-lab and intelligence communities' (safety nets). Expect more infections of students (customers) and areas surrounding campus's or

labs, convenient to logistical access of 200 miles or less of any bio lab or campus. draw circles around these areas to determine spread radius and link points, as the spider spins the web to pin point origin of pandemic study working group(s), answering too Mid Manhattan (secret bio proxy trust) cold slab program, subordinate organization of benefactors within and without the Q.E.II.S. Master Trust. The trust is now fully funded by National and International taxpayer programs. A Full rally – repeat Full – is in the final stages, all the safety's are in the off position, when the birds fly, when the birds fly!, all will die. Coup de droit. Note: expect multable regional, applications of bio activitys in common hi traffic public areas, within the next 30 to 45 days. key element to the hystaria/media psy-ops vax formula.”

We at CDC had been hoping to clean up the intentional misspellings as they are stenographic subliminal messages meant only for Abel Danger, however time is of the essence so here is the message, warts and all. In response we at Abel Danger have gone to Terror Condition Atomic Tangelo and therefore Name Dropper has been given 20 Cue Balls with Type Alpha and 100 Cue Balls with Type Tango. When we see the first university lab participant drop from 'the plague' we, the CDC folks, will know that the deployment of the planned Operation Wings Over The World will be drawing nearer. Recommend we get Name Dropper into this meeting immediately as well as whichever pilot Chips assigns to fly him around to his 'meetings'. We know they have a penchant for stroking 5 insiders in each 'pass' for instance on 9/11 there were 5 Raytheon execs suicided in 3 of the flights electronically commandeered by the Global Guardians, or as Danny Casolaro would have referred to them, the Octopus. Any objections to bring QB into this meeting?"

No one in Room 1969 objected so Moxie G. Clippered QB while Jam gave Chips a hint of things to come, Kiwi Fruit in color. Chips refilled the wine glasses with the second bottle of Merlot. QB had been in a four way with Hamish, Stone, Buck Naked and himself and according to Moxie G, he sounded as if he had had a Ramey Rimshot or two. Anyone with rudimentary googling skills would find the return from a search for [ramey rimshot + QB + Jam + Chips] to be indicative of the respect for Abel Danger agents and what they consume. As Moxie still had QB on the Clipper Chips suggested he bring Buck Naked along as Buck would be doing the flying. As Moxie passed that message, Hamish detected the plan and he texted Chips indicating that he and Stone wished to participate.

Chips encouraged the foursome to walk to the hotel if there were any doubts about Stone's ability to safely drive the Atlanta Limo. As Hamish listened to the message on his Clipper Sherlock Holmes pipe in the speaker mode, Stone wiggled a can of Altoids and dangled the Limo keys signaling it was rodeo time for the foursome. Eight minutes later there was the characteristic Abel Danger knock on the door of Room 1969 and Kenny G. let the party of four in. Stone had cleverly scored 4 folding chairs from a wedding reception downstairs, Buck had two cases of Grolsch, QB had a gallon jug of Ramey Rimshot and Hamish had a pair of mineral water bottles and two slices of lime, also harvested from the wedding reception. As the group of eight sat down, Moxie G. began to brief them on the CDC's 'official view' of the H1N1 threat.

"CDC is, of course, buying the party line regarding the flu and the vaccinations. However, the 3 of us Abel Danger inserts at CDC see the bigger picture. Those of us who understand Operation Big Picture and Operation Wings over the World....." Moxie G. was interrupted by the simultaneous ringing of 8 Clippers with an immediate call from Queen Hornet. Chips signaled for 'speaker mode' as Amelia's voice began:

"ADuc I Clipper: Bienen licensed Femme Comp to ambush CIA agents in the Matrix Red supply chain to be silenced by French-speaking assassins or extortionists hired through Northwestern and La Francophonie. Bienen is de facto boss of rogue actors in CIA Special Activities Division; he sets up his own agents with SEIU/ACORN agents, including prison guards, drug dealers and pedophile pimps during ambushes. Examples: Service Employees International Union official and Department for manufacturing child pornography; union president was a dangerous pedophile and president of one of the 50 district labor councils that comprise SEIU Local 1000" .. "In Montgomery County 38 prison guards and detention counselors voted .. [to join Local 668](#) and 34 first-line supervisors said "Union YES" to Local 668; new members are on the front lines of county's 9-1-1 center and Children's Bureau" .. "Shari Bell, 41, of Walnut Hills was arrested; allegedly offered sex for money. Police also said they found a crack pipe in Bell's coat pocket. Bell told police she works for ACORN .. [Cleveland](#): Ohio man who cast an illegal early ballot after being caught registering to vote several times with ACORN is a longtime scammer who was arrested last year — as a woman .. tale of Darnell Nash — a k a Serina "Sexy Slay" Gibbs — came to light after Cuyahoga County election officials charged him with voter fraud and this week turned him in to prosecutors. It turns out that Nash, 24, who has a criminal record as a man, is now a transsexual escort who claims to make \$150 an hour turning tricks as the self-proclaimed "Queen of Cleveland Gender Benders." [Milwaukee](#): At least seven felons convicted of crimes including cocaine possession and robbery were recruited by a liberal group to register voters in Milwaukee. Ben McGartland of Albuquerque, head of the New Mexico chapter of the Association of Community Organizations for Reform Now, or ACORN, was charged in July in state District Court in Estancia with 10 counts, including second-degree criminal sexual penetration of a minor, three counts of criminal sexual contact, attempt to commit a felony, kidnapping, concealing identity, two counts of possession of drug paraphernalia and possession of marijuana."

ACORN anyone? <http://www.youtube.com/watch?v=TNYU9PamIZk#>

Moxie G. spoke for the group saying that the message regarding the upcoming take down of ACORN was understood by Ocho. Amelia was savvy enough to realize that eight of those called were assembled together. Amelia reminded Ocho that the perverts loved the number 5 as was evidenced by the Arkancide Ace selecting Ace for her handle. Amelia suggested that as the Chicago Outfit came to fully understand the depth of their penetration they would begin 'cleaning up loose ends' at an increasing pace. Amelia suggested that Factions One and Two were now in agreement that the Dinosaur had to be removed. But just like in any other toilet, when something is removed, something equally revolting floats to the top. Amelia suggested it would be prudent to 'deploy QB

with a measured and mathematically precise number of targets'. It was understood that if, or when, choices were imposed on the North American population to take a shot or take an RFID bracelet, QB would be authorized to start work. Per protocol initially QB would work from the bottom up on the 100 defendants. If unwise escalation was loosed by Octopus, via FCI, Operation Inversion would authorize a 'top down' removal of the previously unnamed 20 defendants. Amelia signed off after thanking Ocho for the chat and asking if Uncle Ray was amongst the party of eight. An immediate Clipper response from Uncle Ray was that she was 'listening in' from Hamish's room next door where she was conferencing with two US Marshals and a gentleman from a company that doesn't exist. Chips motioned to Hamish to go to his room and invite the other 4 to join them in Room 1969. As Hamish was feeling a little woozy from his two mineral waters with signature lime slices Stone took Hamish's key and went to get the listeners. Not the Tomoye listeners deployed from Gatineau, Quebec and sitting a block and a half from the White House, but the quartet camped out in Hamish's room. Google [Hamish + Raven + Nano + Chips] to review the last time Hamish had a raven in his room.

To make room for the four in Uncle Ray's group Chips and Jam moved to sit on the end of the king size bed with a magnifying mirror overhead as Kenny G and Moxie G moved over to the edge of the Jacuzzi. Uncle Ray introduced the two US Marshals who were both from the Panama City end of Florida as well as the gentleman working for the company that didn't exist.

[FBI's Chick In Astana CIA.jpg](#)

As Uncle Ray finished the introductions, she briefly commented on Operation Open Eyes and how the forces of evil, including Marxist shapeshifters in Obama's CAVE at Chicago's Electronic Visualization and insemination Lab [EViL], were running scared and that in-fighting amongst the Rothschilds and others foretold the upcoming removal of

the Chosen One. She noted that Amelia's Clipper call had come from Sofia, Bulgaria where Skymaster had flown Amelia, Dwarf and Sluggo to follow up on the aborted and fatal mission undertaken by Raven 01. She underscored the urgency of QB's mission and informed the group, for the first time, that US Marshals and a majority of Sheriff's departments were Oath Keepers and that QB would be afforded impressive security as he went about the mission that fell on his shoulders. In addition to Buck Naked accompanying QB on his 'route', a 23 year old sniper named John-John would always be 'in the picture' and vice versa. John-John had come to Abel Danger after his second tour 'over there'. As Uncle Ray was concluding her remarks she pointed out that the 'hit parade' order had been determined but that it was likely to be re-juggled as world and domestic situations changed. Upon hearing 're-juggle' Chips got a good idea and Jam understood him telepathically and gave him two shorts and long with the hand under the bath robe draped across them both. Chips was thinking how nice Kiwi Fruit might be immediately after the 'twelve pack meeting'. As Uncle Ray yielded the floor to Marshal Dillon, a priority Clipper came in to 7 of the Clipper phones. Hamish gave a 'cut' signal and his, alone, went on speaker mode as the other clippers were silenced:

“Blabbermouth Clinton Reuben, Chicago Clipper: Valerie and Vernon Jarrett hired a woman-owned company, Femme Comp Inc, to launch a pedophile snuff-film network in Chicago; they used ‘Clipper back door’ to CIA comms to ambush and ‘knife’ former president of Northwestern, Henry Bienen.”

As Uncle Ray nodded knowingly, the US Marshals seemed to be energized. Uncle Ray encouraged Marshal Law to explain his connection to CIA when a second immediate Clipper came in, also from Chicago:

“Blabbermouth Sidley Layoff, Chicago Clipper: Jarrett and Femme Comp francophones Clinton, Obama, Gorelick and Marcy, laundered money through DOJ’s Asset Forfeiture Super Surplus Fund. DOJ Pride bought AT&T Clipper, Entrust PKI security and back door to Defense Information Systems Agency for snuff-film ambushes of CIA operatives on foreign assignments”

The US Marshals simultaneously pulled folded papers from their breast pockets. On each paper was the type message "List of Adrian Messenger" and two additional symbols; C+ and Naudet.

<http://www.lovefilm.com/lovefilm/images/products/3/52353-large.jpg>

Chips, Jam and Moxie all stared at each other in amazement. The movie by the same name had played at a 'Sneak' which was the late Saturday night movie at the Warner Theater on Ramey AFB during the 1963 fall semester. Because Chips and his best friend, #42, were marquee boys they could get into movies free as well as bring a guest or date. On that Saturday night Chips, Jam, Moxie, QB and #42 were 5 of the six young high schoolers seated on the right side of the Warner theater across the aisle from the 'Alert Crew' area where B52 and KC135 aircrews of the 72nd Bomb Wing could come enjoy a movie with family members. The identity of the 6th movie goer shall remain classified unless someone can find the history of 2107 Venus Drive in Bossier City, Louisiana and determine how that family interfaces with the US Navy, the USAF, DNI and 105-D Shawnee Avenue, Minot AFB, yes the same Minot AFB from which the rogue nukes were launched resulting in the 'non-related accidental deaths' of over 7 Minot airmen. With any additional brain cells one can marvel at a google search for [mcconnell + dni]. Here kitty, kitty, kitty.....

QB encouraged Jam to fill in the 12-pack regarding the significance of the List. Going back 46 years, Jam's rapier-like mind settled on "The Theater lights went down at 2200 just like always for the Saturday night sneak. I was seated between #42 and Chips. #42 had his right arm around me and Chips was working low. As I recall the plot, the central figure in the movie had given his colleague a list of names prior to taking an airline flight. When Adrian M's plane took off, it was blown out of the sky with a bomb,

something that was not publicly worried about in the peaceful days of fall, 1963. After his friend's death, the possessor of the List realized it was a murder, not an accident, so that friend set up another name on the list as 'murder bait' to try and encourage the murdering to act again, and thusly be caught..."

"Jam, this seems like what is happening today, 46 years later, does it not" asked Kenny G. who not been with Abel Danger long and was still coming up to speed with the depth of the depravity of the Chicago Outfit and the perverts they have installed in key positions under orders of 'The Octopus'. But just like with the List of Adrian Messenger, the entire outfit from A-Z will be taken down by Faction 5, starting in alphabetical order, initially, and then going 'helter skelter' after the first 5 hits. Remember, 5 hits makes one an Ace whether it is flying fighters like Chips or killing innocents like the ARKANCIDE Ace, also known as Thunder Thighs. You see, before Captain Chic Burlingame went to fly on 9/11 he provided 'lists' to Chips and 4 other Abel Danger agents and after the murders of Burlingame and DeConto there were still 4 Abel Danger agents surviving with the 'list'.....more accurately called 'the short list'.

"Kenny, you are correct. Blowing up airplanes to silence critics and gain ten-fold windfalls on reinsurance has been quite a money maker for Factions 1 and 2 as well as the monkeys dancing to their organ grinding." As Moxie G. mentioned 'organ grinding' Jam gave Chips 4 shorts and a long on the ship's whistle as Chips' mind became a technicolor mirage in Kiwi Fruit reminiscent of the one hit wonders "The Lemon Pipers" and their only hit " Green Tambourine". For master sleuths try and determine which of the Lemon Pipers was married to Cindra Carson, a lady attorney from Eau Claire, Wisconsin and why that is significant as it pertains to Honeywell and 'flight guidance'.

<http://www.youtube.com/watch?v=kLYXLevbgq8>

"However, the monkey's getting 'stroked', the Organ Grinders are getting nervous and in fighting amongst not only Factions 1 and 2 but also the 3 political branches of the US government; meaning Alpha, Bravo and Charlie not Executive, Legislative and Judiciary. Wouldn't surprise me to see some Rockefeller or Disney targets become victims of The Ace at some point soon as ACORN goes down faster than Sasquatch's prom dress. Remember that even though ACORN is taking heat in eastern and mid-eastern parts of our country it was 'concocted' in Arkansas and reached full potency in Chicago....". Moxie G. was in full verbal stride when another inbound Clipper came in:

"Blabbermouth Clinton Reubens, Chicago Clipper: Black Marxists in Chicago in 40s included Frank Davis, Vernon Jarrett (father-in-law of Valerie) and future Chicago mayor Harold Washington, former Illinois State Senator Alice Palmer and one term Illinois Senator Carol Moseley Braun. Vernon Jarrett promoted Barrack Obama during his 2004 Senate run. In the later 40s Jarrett worked in at least three communist influenced or controlled organizations in common with Frank Marshall Davis. After that Vernon Jarrett ran a black oriented radio program in partnership with Communist Party member Oscar Brown later a jazz musician."

Marshal Law, himself a black man just like Clinton Reubens with Abel Danger in Chicago, chimed in with regards to black-on-black sellouts. "Uncle Tom wasn't the only Uncle Tom that ever existed. Most of my peers in the black community in western Florida feel that the chosen one is sold out to Femme Comp lesbians and European bankers and is just a temporary place holder, not totally unlike a horse-holder, and that his brief stint was only arranged to buy additional time before the back lash they know is coming."

Here are pics and Clipper from Chips relayed via Abel Danger Agent Robert G. Duke in the Windy City.

“Chips via ADuc Duke and Clipper to born again NORTH Americans : Operation Wings Over the World has been moved up according to our best sources, including Abel Danger Agent Robert G. Duke from the Windy City to wit: Operation "WOW" will include Ebola and bubonic plague D.N.A. interlaced with swine, bird and Spanish flu; the fruits of objective research by these dem/i/god maniacs into a world-wide super pandemic. Soon to be fully released on fast clock schedule. expected in the cool rainy weather in mid October early November 09. Introduced by chem trails, photo organic/metallic infected, gelatinized dispersal platelets as a form of airborne inhalants. Millions of nautical square miles of area will be infected continually until operation will be completed. U.S and Canadian Air Force's duped into participating in insurance/debt offset genocide scheme.”

Marshal Law allowed a pause for Chips's Clipper to sink in and then continued, "If on September 22, 2009 a 'big bang' hits Chicago remember you heard of it first from Abel Danger. They have to undo the Crime Scene to maintain al-Qaeda trademark. More optimistically if the cowardly Sidley Sows get the message to their sponsors, the 'big nuke bang' will be cancelled and they will again focus on Whistler and the Winter Olympics. Operation Choke Point will be to Canada what Global Guardian was to the US on 9/11. RCMP knows it is coming and apparently between RCMP and PM Harper they don't dare obstruct it, quoting Chips' sister "The Show Must Go On", however, what

Chips' sister doesn't know is the Truth of Romans 8:31. Marshal Dillon and myself must get down to the conference of the AFOSI now but we will keep our Clippers on Clipper 3 and silent. See you all in Panama City for the ADC Reunion scheduled for 22-25 October, 2009. Chips, can you email me a photo of the F4 from which you shot down the PQM-102 in April of 1982, 4 years after General Wainwright kicked you off Tyndall AFB for firing an AIM-7 at a droned F102 in Combat Pike, 1978 when you had not been cleared to fire. It should be noted that General Wainwright went to a mental hospital and died whereas you are still flying actively for companies that do and don't exist. Keep up the good work Chips."

"Marshals Law and Dillon, I will send you not only a picture of aircraft 64-0972, 'Bertha', but I will park my undercover car from DNI Fargo under the car so you can remember where I hang my hat between Operations, capeche?"

[NYE 2008 Bertha.jpg](#)

As the two US Marshals let themselves out, Kenny G noted the late hour and suggested that he and Moxie G. should head home also. Moxie G. was still full of spit and vinegar even as a soon to be sexagenarian and she knew that Kenny G was not interested in sleeping, per se not to be confused with Pro Se which is how both Civil Case 3:07-cv-24 and Civil Case 3:07-cv-49 were filed. As Moxie G. became fully erect so as to ambulate out the door with her hubby, she handed out an additional 4 copies of the folded papers labeled "List of Adrian Messenger". QB, Stone and Buck Naked were anxious to get back over to the La Quinta and see if any cougars in their tight fitting jeans were loose in the lobby bar however Hamish asked aloud if anyone would like to play a game of Scrabble. QB and Stone grabbed Hamish and made it clear there were no Scrabble enthusiasts amongst the other 5 Abel Danger operatives. As the door was closed and latched behind the 3 heading to La Quinta and the 1 heading to the Room next door, Chips and Jam were hanging up some IOCs [items of clothing] on the hooks on the bathroom door. The IOCs were matching in color, pastel kiwi fruit. A quick peek into Jam's suitcase allowed Chips to realize next up in the color parade was Pastel Atomic Tangelo.

As Chips settled into the warm and whirling water, he accepted the Captain Sherlock Martini offered by Jam as she settled in next to him clutching her Dark and Stormy in her free hand.....think about that for a second. Chips asked "Now where were we before the Circus came to our tent?".

Jam, knowing that a picture is worth a thousand words, again stretched out of the Jacuzzi and reached for her iPod Ghetto Blaster and hit F4, continuous play. As she selected the musical fare Chips was getting an eyeful and rising to the visual gambit. As she resettled in beside him Marilyn McCoo's voice set the mood for the remainder of the night:

http://www.youtube.com/watch?v=7RC3PKI9_FA&feature=Playlist&p=86A0ED24EF29BF89&playnext=1&playnext_from=PL&index=15

As Chips determined that Jam had, in fact, reached him he caged his mind on his mission. As Jam re-seated herself, foot stomper, re-seated herself the music played on for hours and Chips understood that his Brother Cain to his sister's Sister Abel was the lucky one, for while his music played on, her Show Must Go On. Unbeknownst to Chip's who was trying hard to please Jam, ten feet away in the adjacent room Hamish was sending a joint message to Ms. Dementia Tabasco in Chicago letting her know that the jig was up. When Hamish finished the message, he sent routine Clippers to all involved at Abel Danger and in Room 1969 the music played on and on and on and on. As Hamish alternated between playing Scrabble by himself and doing one-star Sudokus, in the Bridal Suite next door Chips and Jam alternated as tops, bottom but never switches. The switches or their male counterpart/slaves 'swishes' were about ready to be going down faster than ACORN. It was simple as ABC; Acorn, Barney, Chicago.

As Blagojevich was spilling his guts to USDOJ hoping to save his ass, his former employee Christopher K was being Arkancided in a vain attempt for the story to die to

protect any purple dinosaurs created by any Intellectual Property Attorneys representing AT&T in the years 1988-1991 who were also charter members of FCI. The Perps were pissing in the wind as their OODA loops, offices, and any cyber insecurity designed by the draft dodger who looks like Abe Lincoln's retarded great grandson had all be PROMISed before PROMIS was stolen. Danny Casolaro was about to PROMIS the Octopus when he was ARKANCIDED in a bath tub in Martinsburg, West Virginia. Meanwhile in another tub, this one a Jacuzzi tub with a heart shaped mirror above the writer of this paragraph, Chips was driving home his message while Jam was watching his back. Good Abel Danger Agents do that. Beneath their 2 Clippers in the off position was a well read copy of "Tactical Pistol Shooting" by Erik D. Lawrence dated 2005.

As Jam and Chips were keeping in rhythm with Marilyn McCoo musical mastery, their silenced Clippers took an incoming Blabbermouth Clipper from ten feet away:

“Blabbermouth Hamish Clipper: Jarretts were family friends with the Bowman family and Valerie Bowman became Valerie Jarrett through a five year marriage to Vernon Jarrett’s now deceased son. Valerie’s mother Barbara Taylor Bowman runs the Erikson Institute in Chicago. Tom Ayers, father of Weather Underground terrorist leader and Obama associate Bill Ayers served on the Erikson board as did Bill Ayers’ wife Bernardine Dohrn. Davis left Chicago for Hawaii in 1948, where he worked on the Honolulu Record. Davis was one third of a three member underground cell with his wife Helen Canfield; they developed a Marxist pedophile network in Hawaii for Jarrett in Chicago and may have used Barack Obama as a pedophile bait to ambush FBI investigators.”

As Jam and Chips continued sharing the night together the Clipper messages came in as rapidly as the major media was turning on ACORN as FCI had turned on CIA before the changing of the guards on 9-22-2009.

“Blabbermouth Amelia to Uncle Ray/RayVen 02: Jarrett built a domestic i.e. Chicago - backdoor into CIA foreign intelligence gathering. Mr. Charles R. Smith Softwar tried to expose scam and was told “7707 Whirlaway Drive Midlothian, Virginia 23112 Reference: F97-1241 ‘ please be aware, the mission of the Central Intelligence Agency is primarily concerned with foreign intelligence -- not domestic – matters .. Executive order 12333, which regulates the conduct of intelligence activities in the United States and elsewhere, provides that the responsibility for domestic intelligence collection is generally within the province of the Federal Bureau of Investigation (FBI) .. For your information, the CIA is not authorized to release records originated by other Government agencies even if we were to locate any. They blew him off because the DOJ Pride wanted to use the FBI as a backdoor into CIA for the ambush and Hillary controlled the FBI files. J. Kevin O'Brien handled Chief Freedom of Information-Privacy Acts Section Federal Bureau of Investigation J. Edgar Hoover Building, Room 6296 935 Pennsylvania Avenue, N.W. Washington, D.C.”

“Blabbermouth Jarhead/RayVen 04: AT&T retained Femme Comp Inc., Sidley Austin and Michelle Obama in 1988 to 1991 to buy in 10,000 "TSD 3600" voice encryption

devices which, as manufactured, employ Data Encryption Standard (DES) encryption to back door CIA. These devices XXXXX LINES BLACKED OUT AS STILL SECRET XXXX AS PER NSA XXXX Contemporaneous with AT&T's fielding of the TSD 3600 devices, the National Security Agency (NSA) has developed a new encryption methodology and computer chip which affords encryption strength vastly superior to DES, yet which allows for real time decryption by law enforcement, acting pursuant to legal process. It is referred to as "Clipper." XXXX PARAGRAPH BLACKED OUT AS XXXXXX STILL SECRET PER NSA XXXXXX PARAGRAPH BLACKED OUT AS XX STILL SECRET PER NSA XXXXXX. Devices were modified to include "Clipper" chip, so they could monitor Bienen et al in CIA-SAD hit teams. Femme Comp ordered QH to fund the backdoor out of Department of Justice Asset Forfeiture Super Surplus Fund; she bypassed Congressional appropriations committees which should have been notified 15 days in advance of such reprogramming of funds. <http://www.softwar.net/tenet29.html>"

"Blabbermouth Sidley paralegal: John Podesta gave FCI lesbiennes radiocales and the ACORN paramilitaries the Clipper backdoor into Defense Information Systems Agency (DISA) networks. They now monitor all the various SATCOM/TC, GIG/DISN, NCES, and C4ISR systems, including command and control, facilities, communications, airborne platforms, telecommunications services, enterprise computing, future engineering requirements, and information systems. Jarrett put in Mr. Quang Bui (703) 961-1818 Ext 103 she had him transfer from Socialist Republic of Vietnam via La Francophonie to put Femme Comp, into CIA and DISA networks quang.bui@femmecomp.com <http://www.ditco.disa.mil/hq/contracts/nexgensbchar.asp>"

"Blabbermouth Padre to Moxie G-CDC/AD: Northwestern trustees may have arranged a corporate killing insurance contract for assignees of patent "METHODS OF TREATING PNEUMONIC PLAGUE" in advance of Malcolm Casadaban, a researcher at the University of Chicago, dying from exposure to the plague-related bacterium, Yersiniapestis. FCers are trying to blame it on the professor's health or genetic makeup; he was 60 and was working with a strain of Yersinia pestis that, stripped of its harmful components, has been used as a [vaccine](#) against the plague since the late 1960s. Let's take a look at [Wyndham W. Lathem](#); he had assigned the patent to: [WASHINGTON UNIVERSITY IN ST. LOUIS](#) Class: AA61K4700FI USPC Class: 514789. One aspect of Lathem's invention encompassed a dual use [dial-a-yield] technique of delaying or accelerating the pro-inflammatory stage of pneumonic plague. Dr. Lathem joined Northwestern University as an assistant professor in 2008. He is co-author of "A plasminogen-activating protease specifically controls the development of primary pneumonic plague" [Science. 315\(5811\): 509-513](#). "RovA, a global regulator of Yersinia pestis, specifically required for bubonic plague" *Proc. Natl. Acad. Sci. USA.* 103(36): 13514-13519 and "Progression of primary pneumonic plague: A mouse model of infection, pathology, and bacterial transcriptional activity." [Proc. Natl. Acad. Sci. USA. 102\(49\): 17786-17791](#)."

"Blabbermouth Pal Kenn/WH: Femme Comp may need dial-a-yield explosives – maybe nukes – to undo evidence of FC trademarks at 'al-Qaeda' crime scenes in the Northwestern archives. The lesbians are pissed off at Northwestern; the white, male

guards have failed to kill our investigations into FC designed devices which vaporized Aon Corp and MMC witnesses and spectators in the South Tower. Patrick Ryan was chairman of the NU board of trustees and chairman & CEO, Aon Corporation on 9/11. He used Webcasts to deliver messages; he said people liked hearing a voice rather than reading an e-mail. What a clown; he left FC 9/11 trademarks in the NU iCAIR archives!! He held two bogus interfaith memorial services; St. Patrick's Cathedral in New York and Holy Name Cathedral in Chicago. Northwestern new main male is the MMC Director Morton O. Schapiro who has been on the MMC Compensation Committee Director and Governance Committee Director since 2002. Schapiro is the new president of Northwestern; he succeeds Henry S. Bienen, the de facto boss of CIA – Special Activities Division for Femme Comp assassination and propaganda. Schapiro teaches Marxist microeconomics and two interdisciplinary seminars, one on diseases like the swine flu and the plague and their impact on culture and society! Schapiro's selection committee was chaired by William Osborn, a 1969 graduate of Northwestern and a 1973 graduate of the Kellogg School of Management. Kellogg faculty wrote software for Femme Comp dictator game with Barry Soetoro and the cap and trade frauds. Osborn is chairman of the Northern Trust Corp., Chicago, and controls the predatory mortgage on the Obamas' mansion.”

As Jam and Chips continued pleasuring each other in the room next door, Hamish noticed the White House insider's message and ensured it got to the heterosexual white males in Chicago who were in the 'splatter pattern' range of any TAC Nuke that could arrive in Chicago via a Redstone Flying Vehicle, a Canada Steamship Line vessel built in China and rigged liked the 9/11 Boeings, or any Afghan patsies rumored to be focusing on Denver or New York. As he turned out his nightstand light to go to bed, he hit his Sherlock Holmes Piper Clipper and listened to one of his countrymen sing him to sleep, while in the Bridal Suite next store the show was still going on.

In Chantilly, Virginia, last farewells of a more sinister kind were being authorized in hopes of avoiding the gallows. Good luck, see Proverbs 21:31 then you can kiss it goodbye. If you don't know what to kiss, contact any Abel Danger Agent, there are a lot of us around, capeche?

Chips decided to put in an emergency call to an aide to Canadian Prime Minister Harper; picking up his e-Blowfish, he barked into the mouthpiece at a stunned sycophant in the PMO.

“Tell the PM that his fellow Canadian privy councilor Paule Gauthier, used Clipper Chip to sabotage the Naudet Brothers' production company on 9/11. The brothers were tricked into recording the “first live broadcast snuff film in human history”. Gauthier hired her lesbian buddies at Femme Comp Inc. to extort my sister; code named ‘Queen Hornet’. My sister positioned the Naudets in a pseudo-SBA 8(a) sabotage vulnerability test to record the first impact of 9/11. Gauthier used Clipper to monitor transfer of

encrypted snuff-film content to RICO production studios in Chicago, controlled by Dohrn and Ayers. Snuff-film IP protection was supplied by Michelle Obama and her Sidley mates. Gauthier and Frank McKenna used Clipper to conceal the work of the members of the Amec sabotage crews and Acorn hit teams who had been hired to 'paint' 9/11 crime scenes in the colors of 'al-Qaeda'. I am sending more details and pics via Entrust Thoma Bravo for PM's eyes only."

*“Entrust Thoma Bravo to PM : Paule Gauthier a été nommée membre du Conseil privé de la Reine pour le Canada en novembre 1984. Membre du conseil d'administration de la Banque du Canada et de RBC Dexia Investor Services Trust et Présidente du Comité de surveillance des activités de renseignement de sécurité jusqu'en juin 2005. At 8.46 am on September 11, 2001, at the intersection of Church and Lispenard Streets in Manhattan, one of two French film-making brothers, 28-year-old Jules Naudet, was filming a group of firemen from Ladder 1/Engine 7 at 100 Duane Street. The Naudet film of Flight 11 is a charade, staged to appear accidental. Femme Comp principals Hillary C and Paule G. used Clipper and CIA-SAD experts to camouflage film equivalent of steganographic technique of hiding coded message in a microdot, where it would not even be suspected. John Podesta who controlled Clipper computer policy in '90s is now and now controls directing Acorn defense from our RICO suit. By 1994, Tony Podesta, the brother of John Podesta, set up the multi-million dollar corporate lobby effort through his firm, Podesta Associates. In 1994, the CSPP association with Tony Podesta paid off. One CSPP computer CEO, James Treybig of Tandem, traveled with Ron Brown to China in August 1994. Treybig concluded an exclusive \$150 million export of mission control computers for the Chinese Army Long March space rocket. The Clinton made top secret designs and top secret contracts available to the CSPP computer companies. For example, once inside the White House, the CSPP executives were given a detailed briefing by a State Department expert on supercomputers and nuclear weapons. In 1995, AT&T supplied secure fiber-optic technology directly to the Chinese army in the Hua Mei project. In 1998, Digital sold supercomputers to the Chinese University at Xian without verification. The computers are now being used for chemical and biological warfare. Femme Comp has turned the Clipper concept to protect America into a project to monitor America. **Uncle Sam is now Little Brother; Femme Comp is now Big Sister.** In 1992, EViL invented the CAVE™ virtual reality theater. CAVEwave link is transports experimental*

traffic between Federal agencies, international research centers controlled by Gauthier lesbiennes and corporate research projects. Gauthier provides 1-10 GE wavelengths to Chicago, Seattle, and San Diego via StarLight which was operational since summer 2001 ready for 9/11 snuff film production. StarLight has been developed by EViL at the University of Illinois at Chicago (UIC), the International Center for Advanced Internet Research (iCAIR) at Northwestern University, and the Mathematics and Computer Science Division at Argonne National Laboratory, in partnership with Canada's CANARIE and the Netherlands' SURFnet. Attack imminent. Targets are Anglophone, Christian and heterosexual white males; threat is from the Marxist lesbian pedophile francophone community of O. Screw the adjectives. Entrust Thoma Bravo Out."

As the aide in PM Harper's chain of command reached for the hot-line, in Room 1969, the show was still going on as a rare 'flash' priority message came into the Clipper Squirt Gun of Baby brother from Scared sister, the message contained no text just a repeated request authenticated by an Atomic Tangelo panel at the end.

<http://www.youtube.com/watch?v=adPaMspOkQI#>

Chips handed his svelte co-agent an IOC in Pastel Atomic Tangelo; she countered with a can of smoked oysters and two Rodney Baldinger extend-o-peter gel tabs.

The EViL virtual reality show continued going on and on and on and on and left the hint of a message form an ungagged Sable.

"Sable Clipper Blowfish to Queen Hornet and Chips, FYEO: Tomorrow the Dem CW Lesbo entree is named, capeche?"

In Sofia, Bulgaria, Queen Hornet lined up some Captain Sherlock Martinis for Skymaster, Dwarf and Sluggo in a long awaited victory celebration. In the Bridal Suite Chips continued his focus on the 'target area'. In the room next door to the Bridal Suite Hamish continued his solo Scrabble game, hoping for a vowel. From Turkey's Galatasaray University, a biochemist called her Femme Comp handler in Montreal and spoke urgently in French. At 1600 Pennsylvania Avenue, Pal Kenn saw a nervous O.
