

Chapter 28:

Obama Pig Farm Passport to Tribune Canwest Wealth First to kill the yapping dog and then the Silence of the Lambs; Chicago is

(Earlier character development, see http://captainsherlock.com/Chapter_25.html)

Chips notes some of the girls wanted to 'switch' even while he and Jam were synchin' and strokin'. Blabbermouth Tribcan clipped info on Maurice "Mau Mau" Strong and Hussein Onyango Obama; they developed a U.N. pig-farm passport in the '50s to spread the warm-world word with Kenya as the base. Strong's cousin Anna Louise Strong, the University of Chicago alumnette, did the same thing with Madame Mao in China. This is how they silence the lambs; they first kill the yapping dog by silencing media leaders such as Chicago Tribune's Zell or Conrad Black's Hollinger (before the \$3.9 billion loan to Canwest) and then they let the pigs or the sows run the show. Blabbermouth X reminds Chips that Michelle Obama was an intellectual-property lawyer with Sidley and handled the AT&T (Clipper), PBS (Barney) and Union Carbide (Bhopal) files. She may have backhauled snuff-film content via AT&T Ku-band from the resident butcher at the pig farm for use as an electronic 'e-Passport' to virtual private networks and extortion of ultra-high-net-worth family clients of Sidley Austin and Northern Trust in Chicago. Blabbermouth Hotlips/Rico noted that Northern owned the Obama Family with a mortgage on his Hyde Park townhouse. Blabbermouth Marquis d'Cartier reminded them that SCREAM pay-per-view horror and alleged snuff-film channel was launched in

a joint venture with Goldman Sachs, Canwest and Corus on September 7, 2001; same day that Jeffrey Immelt became *chairman of the board* of *General Electric* and four days before 'al-Qaeda' attack on the United States. Northern Trust families invested in Cap & Trade can get very rich provided passport holders can silence investigators laid off by Zell Family at Tribune Company and Aspers at Canwest. *Scream* re branded as 'Dusk' on September 9, 2009; less emphasis on "[Al] gore" and more on *BDSM* and *O* for lesbian and bisexual women. Jam 'came aboard' and asked for a five letter word for 'narcissist wimp' with an 'O' in it. A few guesses later, Chips pointed out that Homi and Stone would be there in 55 minutes and then it was just a matter of calling she home as in 'Chicago is'.

.....

"Chips Clipper to all readers.....3 female defendants have contacted CSI offering to turn state's witness since Nanny Piloti was featured in Chapter 27. He who laughs last, laughs best and avoids the gallows. Let's start off with a song as our mission will soon kill the OCTOpus and the girl rats are scurrying to leave the sinking ship. Come back when you grow up girls, not to be confused with the song "Come Back When You Grow Up Girl" sung by a Fargo, ND young man."

<http://www.youtube.com/watch?v=XqZUzXKDVx8#>

<http://images.barnesandnoble.com/images/16380000/16388107.jpg>

Jam and Chips had been switchin', synchin' and strokin' for just under 3 hours with the Clippers on "immediate or flash only-vibrate" and were within a nose of the finish line when an immediate Clipper came into Jam's Pastel Easel followed very soon there after with two heads being filled with stars as a satisfactory conclusion was achieved. As the stroking was finished <http://www.youtube.com/watch?v=Ta0a3DFUU0Y> harked back to his days flying the F4 Phantom II during period 1977 to 1990 and wondered how many afterburners he'd stroked. As Jam moved towards the Jacuzzi and continued the flash message return, Chips reminded himself that sometimes when numerous Phantoms were engaged in a furball and it was difficult to discriminate the friends from the foes, a wingman or flight lead might tell his ally that "I'll give you a stroke" and then pull one of the F4's 2 engines out of afterburner and back to military power which is full power

without afterburner. The J79-GE-15s were the engines in the 178th FIS's fleet of F4s when they were delivered in 1977 and in military power they smoked a lot so when an ally gave another ally a stroke it visually identified who not to shoot; capeche? In a similar ACT flight anything that wasn't smoking was a target. In fact Chips had used the call sign Smoke for the entirety of his F16 flying. Chips' mind was snapped out of his mental dogfight as Jam stood up in the Jacuzzi, presented a frontal view, identified a target area, and pointed to two tins of Chicken of the Sea Smoked Oysters and 3 gel-tabs of Rodney Baldinger's extend-o-peters. Jam also gave Chips that 'come hither' look and pointed at her watch and presented three fingers indicating that the caller should be done in 3 minutes not that she was honoring Bernadine Dohrn whose 3 fingered salute following the video-taped killing of Sharon Tate as directed by Roman Polanski, a three fingered salute that would be answered by a one fingered salute from Captain Sherlock, the Marine Corps Reserve, the Born Again Americans, and awakening and civilized global citizens aided by international websites including www.rumormillnews.com, www.nujij.nl, www.abundanthope.net and the cornerstone site, www.captainsherlock.com and some of the secret blogs of the up-plucking journalists at Canwest and the Chicago Tribune who had followed the pig farm story and a certain 'Tribcan' – one of their best female investigators – had decided to join the Blabbermouth ladies and send some dope and it was one of our Canadian Blabbermouth who first asked us "who's that lady. Chips and Hamish agreed that the CBM was referring to the woman's face with a '?' on her face who represents any female more evil and treasonous than Bernadine Dohrn. It was until Chapters 27-33 that we had identified the most highly placed perp in 9/11 as Nanny Piloti. The CBM responded with "No, I mean the Ocean Lady" causing Chips and Hamish to alert Nano and MdC for support. As the support was being mustered, not mustard you hot dogs, CBM fired off another Clipper; this an 'immediate' priority.

<http://www.youtube.com/watch?v=q1DDgNCLD84>

[note to Nanny Piloti, take a look at the masked man giving you a one fingered USMC salute, buddasmoka, Baltimore, MD]

“Blabbermouth Tribcan Clipper to Uncle Ray, Jam, Mrs Jekyll and Moxie G : Girls, remember that Maurice "Mau Mau" Strong and Hussein Onyango Obama developed a U.N. pig-farm passport network in the '50s; anyone in performed in a snuff film showing zoophilia – not just with pigs, but goats too – or torture of children or human sacrifice, got a UN passport to spread the warm world word with Kenya as the base. Strong's

cousin Anna Louise Strong, the University of Chicago alumnette, did the same thing with Madame Mao (Jiang Qing) in China. Anna Louise showed Jiang Qing how to run the Film Section of the CCP Propaganda Department in the 1950s; she was the mastermind of the Cultural Revolution and the Red Guard killing machine. Anna Louise promoted the famine of the Great Leap Forward; she did the same with Stalin in the Ukraine Holodor in 1932/3. This is how they silence the lambs; they first kill the yapping dog (media leaders such as Chicago Tribune's Zell or Conrad Black's Hollinger before the \$3.9 billion loan to Canwest) and then they let the pigs or sows run the show. The 'company' just called and we 5 are recalled immediately. Call on Clipper 2, Tribcan out"

As Chips settled in alongside Jam he noticed her glistening globes and thought how much lovelier they were than the global guardians who had perpetrated the evil attack on America some 8 years prior. For security purposes he also conducted an underwater digital exam and found all in order. Jam had been prescient and put out a large Grolsch for Chips and she was enjoying a 12 ounce Dark N Stormy as she talked with Uncle Ray while reading the incoming immediate that had almost interrupted their coitus non interruptus. She saw that Marquis d'Cartier had sent out a priority to all Abel Danger and that Uncle Ray, seeing no response from Chips and Jam thought that their old unit, the Global Fearsome Foursome Gals might be called upon soon for their "jamming and SNIPing" abilities and experience that the ladies had gained as Ready Reservists with the 72nd C4ISR's EW unit hidden at Glasgow, Montana at the site of a former SAC base which was called Glasgow AFB prior to it being handed over to Native Americans, such as Chips, during the 'time passages' as the USSR was thought to be weakening. MdC had been alerted by Nano to 'SNIPH' around a ship in bound to Vancouver apparently from the San Francisco Bay area.

<http://www.youtube.com/watch?v=sOy1QJT1Zfk>

<http://images.bluebeat.com/an/3/0/6/3/4/143603.jpg>

[Author's notes: EF-111A Raven Development of the EF-111A Raven ["Spark Varks"] began in January 1975 when the Air Force contracted with Grumman Aerospace to modify two F-111As to serve as electronic warfare platforms. The F-111's high speed, long range, substantial payload and reasonable cost made it the ideal candidate to protect allied tactical forces against enemy radar defenses. The EF-111A provided protection by using a jamming orbit where it stands off from threat radars to cover friendly aircraft entering and leaving the threat areas, or by using the aircraft's high-performance capabilities to directly support attacking forces. In the direct support mission, the Raven may fly as in escort position or enter a threat area to the best jammer position. Ravens engaged in direct support often use the extensive night terrain-following capability built into the basic F-111 design. Since the EF-111 became operational in 1981, they were involved in every conflict America's had, from Eldorado Canyon in Libya to Desert Storm. A lesser known variant, the EF111J of which there were only 5 examples, were deployed by 72nd C4ISR/ANG at KGGW in 1983. In Desert Storm an EF-111 was credited with one of the first kills of the conflict as a maneuvering Raven caused a pursuing Iraqi Mirage to crash into the ground.]

The Global Fearsome Foursome Gals were the 4 Weapon Systems Operators who had been qualified and deployed first in 1983 in preparation for a mid-east operation that was scrapped due to effective diplomacy in the post Carter era. After two years of the F111As' service with the USAF a small cadre of specialists were recruited, trained and deployed in such secrecy that today there are few who recall seeing the 5 special EF111As that were hidden at Glasgow AFB, Montana. The Special Air Group was

hidden in the Air National Guard and the secrecy was perhaps even greater than the veil of secrecy over the modification of the 2 Douglas A-3 Sky Warriors that were modified at Ft Collins, Colorado just prior to the inside-out attack on America by perverts headquartered mostly in Quebec, Chicago, Washington DC, Brussels and the UN Building in NYC, the same building that leaked the information to the bad guys remembered today for their evil and murderous parts in "Black Hawk Down". That intel had gone from POTUS 42, to Bhoutrous Butrose Gali, to the rebel chain of command in Mogadishu to the rogue militants who killed and then displayed the corpses of loyal military members of the US Armed Forces who were trying to discharge their lawful orders regardless the cost. Unfortunately for these brave and loyal American enlisted men, POTUS 42, BBG and the UN were interested in the US military being humiliated and inerted, just like in Viet Nam, just like in Afghanistan and just like in a lot of other gallant U. S. Operations corrupted by upper leadership serving the OCTOpus. Here pussies, pussies, pussies. Come and get some love.

<http://www.youtube.com/watch?v=Bk57K4OGrAg>

http://ecx.images-amazon.com/images/I/41G94WGG0TL._SL500_AA240_.jpg

Come and get some love, was exactly the message that Jam was sending with her posture, presentation and facial expression best described as 'sweet desire' which can be expounded upon in the lyrics of ELO's Livin Thing but we don't have time for that now. There is a fat, slimy, OCTOpus smelling of fish that we need to skewer, or more accurately HARPOON, see also Trident. Chips, ever the accommodating chivalrous gentleman was positioned to accept her gambit when his Clipper Squirt went off with an immediate incoming call. Jam and Chips were both disappointed by the timing but knew that the United States of America must come first. Foot stomper. Jam looked over Chips' muscular shoulders and saw that the incoming was addressed only to Chips, Hoss, Skymaster and Buck Naked. She gave Chips and underwater signal, two longs and a short, and found that Chips was very much ready to serve. As Chips answered, she stepped out of the Jacuzzi and intentionally bent over to pick up a small piece of paper enroute to the refrigerator. As she started mixing, Chips started listening.

"Blabbermouth Otter Clipper to Chips, Hoss, Skymaster and Buck: Gentleman, assemble at Eglin AFB NLT 0900 22 October, 2009. Operation GUARD SPARKS has been activated by Jackson and the two generals in preparation for November action GFFG. For security purposes our initial intel brief will be the Hog's Breath on Interstate 10. Standoff until a Presidential Limo with the Presidential Seal upside down is parked beside some Black Hogs. Otter out."

Chips understood the message as had the others as indicated by their signaling with 2 green lights at the end of Otter's transmission. Jam was coming back with the beverages, a Captain Sherlock Martini for Chips in a quart size Miracle Whip glass jar. Jam had a quart size Dark N Stormy for herself as settled in next to Chips who was fully turgid and ready for duty.

As he took a long and thoughtful pull on the CSM, he noticed Jam's circuit breakers were popped so he knew that he'd have to be sparing of words so that the next enduro could be gotten underway with great dispatch.

http://www.youtube.com/watch?v=7PG7YkS0_5I

http://www.hotfrog.it/Uploads/PressReleases/Gillard-Shelters-tendoni-a-montaggio-ultrarapido-14937_image.jpg

"Jam, Jackson just called up the pilots also. We are to travel to Eglin to be there by 9 a.m. on 22 October. We will be staying in some Gillard shelters at Hurlburt FIELD and our briefings will take place on Eglin or occasionally Tyndall. However, for the initial cadre of you 5 girls and we five pilots as well as the Ops, Maintenance and Intel Sups we will meet at 0900/22 Oct 09 at the Hog's Breath Inn on the interstate....." Chips was interrupted by Jam as she asked:

"Chips, I wonder why Otter called the WSOs before the pilots; is that routine?"

"Yes my juicy cumquat, ladies should always come first. Foot stomper. I don't know if it is because it takes more time for most women to pack or because of chivalry but these recalls tend to be first known by the women, much like the evil acts of the Sidley Swine and the FCI Pig-PHUCers generally started with some hostile woman and later executed

by some lame subservient males such as those 'girly-men' married to Thunder Thighs, Sasquatch, Miss Budweiser and Gorillawoman. However these evil women, not to be confused with Evil Woman, ELO's tribute to Thunder Thighs, tend to demonstrate their lack of balls but crying like little girls when they get a lot of illumination focused on them. After the last chapter 3 different female defendants of Civil Case 3:07-cv-49 sent messages offering to turn state's evidence."

A quick underwater inspection confirmed Jam's opinion that Chips was not lame. She gave him two shorts and a very long as she became flushed and was sudsing like a MayTag. It might be good to listen to Anticipation by Carly Simon but our nation is in such peril we simply have NO TIME. NO TIME backwards is EMIT ON and if that doesn't make sense Nanny Piloti, Sasquatch, Thunder Thighs and Gorilla Woman ask any fighter pilots or ELECTRONIC WARFARE WSOs and grab your ankles.

<http://www.youtube.com/watch?v=bsqMzQ2x16U>

<http://therisingstorm.net/audio/itstime.jpg>

"Jam, regarding traveling, I think we should get down to the Panhandle early so we can take our time and smell the roses..." and Chips was cutoff in mid-opinion as Jam pointed to the matching IOCs hanging on the top edge of the open wardrobe. There hung two items in Pastel Rose Pink Passion for her and a matching Oscar de La Renta Slingshot Rumpmaster for him in 32 inch waste and humongous pouch aka 32HP.

"Chips, I can be ready within 30 minutes to start traveling but shouldn't we sleep on it and then go. I don't want to be so hurried that I forget to pack my jammies."

"Sweet Venus I think our country must come first so your packing discipline may have to play second fiddle to my packing. In fact I suggest if I were to pack your lack of jammies you might see the merit in a smaller suitcase, capeche?"

"I'm picking up what you're laying down and I know where your head's at. Let's do it your way and let's do it right away after you summarize your opinions of why we are being recalled for the first time in a long time."

As Chips took a long pull on his Captain Sherlock Martini Jam took a long pull also, as well as two shorts on the turgid tiller. Chips hit 'saved Clippers' and showed Jam one that laid the political foundation for his opinion which he would deliver in a laconic fashion as soon as the pulling was terminated.

"Blabbermouth Hotlips Clipper Chips, Hamish, MdC and Namedropper: "I'll give you two bob to a knob of goat shit that Anna Louise Strong first developed the Obama pig farm passport model with Zhou Enlai. This turkey joined the Communist Party of China in Autumn 1922; he recruited assassins and saboteurs from among the 2,000 Chinese students in France, some 200 each in Belgium and England and between 300 and 400 in Germany. Zhou was the chief recruiter, organizer and coordinator of activities of the Socialist Youth League. He traveled constantly between Belgium, Germany and France, safely conveying party members through Berlin to entrain for Moscow where Anna Louise could train them in the art of revolution. These people were pioneers of pig farm passport network; they created the Peoples' Friendship University in Moscow which on February 22, 1961, was named after Patrice Lumumba, a prominent political and public figure of what later became the Democratic Republic of the Congo. Back in the '50s Maurice Strong built a hub for a United Nations pig farm in Kenya. He discovered the best places to screw and kill pigs in Africa and how porcine or pedophile snuff films could be used by the Obamarxists to extort rich families worldwide but in particular through the Northern Family Trust and its Alien Property Custodian services."

Chips took another long pull as Jam had read "two bob to a knob" and didn't realize the expression common in rural England such as the many farms Chips had visited in his days with the British White Cattle Society. As much fun as the British White Cattle trips had been Chips was enjoying Jam's form of bobbing for knobs much more. Her technique was much like bobbing for apples but with no risk of 'pectin poisoning' which is probably what the goof balls from Chicago would warn Americans about next. Interesting to note that while O's Chicago mobsters are clamoring that all Americans must take the poison flu-shot, the German Army is giving their troops flu shots with no squalene. Hmmhhhh, I wonder if the German Army is being readied for deployment. Jam has really taking a liking to bobbing so as she continues, let's give her some privacy and listen to what common citizens think of the administration installed by the OCTOpus to prepare America to be lost in December, 2009 in Copenhagen, Denmark.

<http://www.youtube.com/watch?v=KNRspGTDASY>

http://static.squidoo.com/resize/squidoo_images/-1/draft_lens5830242module45366542photo_1247263419born-again-pledge.jpg

Jam finally came up for air and Chips stopped her prior to her second bobbing dive.

"Jam, regarding our recall, when you look at the proven history between Maurice Strong and Obama's grandfather and assuming that Frank Davis is not his father, then Obama could be planning to deliver the USA sovereignty over to the globalists in the December meeting in Copenhagen. It appears that just like the 'balloon boy of Denver' distracted America last week, we should anticipate another distraction prior to the planned delivery of America into the hands of the globalists presently set for December 2009 in Copenhagen. The recent bogus awarding of the Nobel Peace prize sets the stage for Obama to play the part of the antichrist....." as Jam let her hand off the tiller and asked:

"Chips, shouldn't antichrist have a capital a?"

"My pleasant morsel still the size and beauty as when as a lass of 14 going over the fence to Survival Beach in your lime green shift and giving me my first glimpse, how is it you knew the 'a' was lower case as I was speaking? Can you read my mind?"

<http://www.youtube.com/watch?v=Ta0a3DFUU0Y>

<http://www.lightfoot.ca/ifyou.jpg>

"No Chips I cannot read your mind but due to your turgid state and my manual monitoring when you spoke the word antichrist your blood pressure didn't spike like it would have if you have emphasized a capital A. And you know full well that the Antichrist with a capital A is Satan whereas the antichrist with a lower case a is simply a pimple on a pig's ass, think Sidley Sows, USDOJ Pride and the worst and ugliest case, FCI. When FCI put FC on their bomb cases and KU on the explosives then never dreamt that Abel Danger would be able to PHUC U BACK WITH INTEREST."

"Wow Jam, that is quite a mouthful" responded Chips with rapier like speed. Perhaps too much speed because by using the word mouthful he inadvertently sent Jam on a bobbing exercise. As Chips was enjoying the pleasure Jam was enjoying, his Clipper went off with a priority from Hamish, who was in the room next door with an unknown female believed to be a friendly judging by the lingerie dangling from the balcony. Seeing it was priority as opposed to Immediate or Flash, he didn't disturb Jam's pursuit but rather answered his Clipper squirt gun.

"Wheelhouse, the Captain Speaking" joked Chips knowing it was Hamish.

"Chips, I am stunned. Why did you answer in that fashion you will see why I'm stunned after you answer me?"

"Hamish, I saw it was only a priority call and Jam and I have been acting out a two part play we've entitled "Captain and First Mate"."

"Chips, wouldn't it be more properly titled "The Captain and The First Mate"?"

"Not at all Hamish, as you know Jam and I have both been Captains; she on the sea and in the air, and me on land, sea and air, and in our game First Mate assumes Mate is a verb, not noun, capeche?"

"Well I hope you are sitting down because I have just learned that the perps of 9/11 took an old play out of the J. P. Morgan playbook. Remember Northern Trust hired Claire Steele as a Senior Relationship Manager in its European Multi-National Pension Fund team after she had had the same position at JPMorgan Investor Services. These were the vultures who scooped CO2e.com and ESpeed's assets in the North Tower! When the drones and decoys had been swapped over Air Force Bases on 9/11, they were just doing a higher tech version of the plot which was rumored to have sunk the Titanic....."

"Not to correct you O Learned One but one theory is that it was the Olympic that was sunk after the name plates had been swapped in Belfast, Northern Ireland near the Lagan River. I was in Belfast in August of 2005 on Irish Moiled Cattle business and I visited the 'pier'. After swapping the license plates, so to speak, the Whitestar Line then needed to send the Olympic to the bottom of the ocean and rid themselves of a troublesome ship just as the Rockefellers needed to drop the Twin Towers to rid themselves of the twin burdens of asbestos issues and low occupancy. In the case of the intentional sinking of the "Titanic" which was really the "Olympic", a late game change, i.e. the late course change communicated to the "Titanic" placed her on a collision course with a huge iceberg. Because the real Titanic, with the "Olympic" license plate, did not receive the 'late course change' it was not in position to recover the passengers and crew of the ship that was taken down for insurance and financial reasons. Same thing occurred on 9/11. When Abel Danger imputed a 41 minute delay on Captain Jason Dahl's United 93 not only was the objective of 9/11 not achieved, more unmistakable clues were left behind."

<http://www.captainsherlock.com/Hunters%20Wingman/Chapter-28.html>

"Chips you are way too competitive. You read that off my incoming Clipper didn't you?"

"Sorry Hamish, I just wanted to scoop you for once".

"Right, well anyway the same miscreants behind the sinking of the "Titanic" are the parties that participated in the Armenian genocide, the initiation of WWI, the Ukrainian genocide, the initiation of WWII, the Korean War, the killing of JFK, the war in Viet Nam, the Rwandan genocide the downing of United 574, Air India 185, Korean Air 007, the killing of JFK Jr., the four 9/11 flights, Adam Air 574, Kenya 507, Colgan Air 3407 and Air France 447. You'd think that the agencies would be spurred into action at some point....."

"Hamish, are you aware that Jackson has recalled GUARD SPARKS and put us on 'Title 10' in preparation for CORONET GFFG? And have you forgotten the 3 female defendants who volunteered to "jump ship" and turn in the EVIL WOMEN identified in the defendant list?"

"No I hadn't seen a Clipper to that effect....."

"The Clipper activation notice has just recently come but bottom line is the 5 EF111Js that have been in the Air National Guard backyard since 1983 are being prepped at AMARC as we speak. Hamish, go to www.amarcexperience.com and search aircraft type for EF111. Notice that the 5 newest EF111s are tail numbers 66-0046,48,50,51 and 55. Then notice some 'double entries'. That is were the 5 EF111Js had been 'stashed' and accounted for. Because these jets are special, like the SR71 Blackbird, they had been stored in flying condition in temperature controlled underground facilities inside Area 51 and continuously exercised at least weekly by crew chiefs such as Gary Stuhr and Jimmy Moore from our unit remoted out of Fargo typically at KGGW. Long story short, Jam and I have a car coming for us and we will take a meandering route to Eglin AFB so that we can attend both Coronet GFFG briefing in reality while our body doubles will be attending the ADC reunion at Tyndall AFB on the same dates, 22-25 October....." Chips was interrupted by an incoming priority clipper from the duty officer at Abel Danger, Vancouver.

"Blabbermouth Gravedigger Clipper Hamish, Chips, Rico and Tango Whiskey: "ADuc pay attention; check out possibility BHO was born just over the Washington state line, in British Columbia from where the Obama pig farm passport holders were mustered for 9/11 after swearing the oaths at Piggy's Palace. Get some DNA to see if Obama is the son of his alleged grandma, Madelyn Dunham and the Commie, Frank Marshall Davis. Remember the Dun'ems and the Davises were into four way pedophile torture and gasher films with Vernon Jarrett and Saul Alinsky back in Chicago. BHO's elder daughter's name with her initials Malia Ann Obama generates MAO as in Mao Zedong. Did Obama's family get into Franco-Baathist blood oaths and human sacrifice to undermine the Anglosphere and Kenya's Judeo Christian base to build a UN Animal Farm?"

Jam had seen about enough incoming clippers and outgoing phone calls. She signaled Chips that she wished to provide his ship shelter from the storm and Chips was looking forward to the voyage so as he left Hamish to come up to speed on the perps behind the sinking of the Olympic which caused us to title this book "Olympic Debt and Tontine Death.....".

"Hamish, something has just come up....."

"Yes and I'd bet the farm on it being you."

"Actually, I just got a message that a 'flash' de-briefing needs to be performed and Jam and I have been tasked, capeche?"

"Chips, did you misspeak, did you mean 'briefing'."

"Negative Hamish, first the de-briefing, then the shower, then the briefing in Pastel passionate rose pink, Chips out."

"Ooohh, Chips in" cooed Jam as the lights went down and she selected F4 on her Clipper Pastel Easel as a 3 hour loop of her favorite bed time song began thusly:

<http://www.youtube.com/watch?v=x0I6mhZ5wMw>

Forty minutes into the enduro synchronicity had been achieved so Jam decided to throw Chips a bone as she called 'switch'. "Switch" was a popular TV show but switch was also what was done with the Olympic and the Titanic as well as the 4 airliners vaporized on 9/11 as they were switched out by two Boeing drones, those hitting WT1 and WT2, while the two drones taking the place of AA77 and UA93 were the Raytheon owned A-3 Sky Warriors modified at Loveland-Ft Collins airport in Colorado. And switch is what will occur in November of 2009 if Abel Danger detects a sacrifice of American sovereignty is planned for the Copenhagen meeting. Also if that is detected QB/Name Dropper will activate his 120 balls commensurate with the defendant list at Civil Case 3:07-cv-49, a Qui Tam lawsuit offered to Attorneys General Mukasey and 'horse' Holder. Any airborne threats to the United States airspace will be SNIPed and Jammed by elements of the 72nd C4ISR in their 5 EF111Js, four operating jets and a spare. Just like in William Tell, 1986 the Happy Hooligans of the Fargo ANG had 4 jets and a spare deployed and those jets won 60% of the entire competition against the best that USAF and CF had to offer that day. Years later we would again see the best that CF and USAF had to offer in the protecting of North American Airspace on the morning of September 11th. Google: Baril + Eberhardt + 9/11 + Chips + Hamish + Findley.

Never forget. And to Nanny Piloti and her whelp and the AG who gagged Blabbermouth Sable, we will never forget either. You track us; we track you. He who tracks last, gets vaporized. Just like AA11, UA175, AA77 and UA93. The intelligence that DoD needed on that morning had been corrupted by the FCUsers at FCI with support from the Sidley Swine and some PFers up in Canada as well as Nanny Piloti, Thunder Thighs, Sasquatch, Gorilla Woman, Lavender Merkin et al..

“Blabbermouth X Chips Remember that Michelle Obama was an intellectual-property with the Sidley; and handled AT&T, PBS (Barney) and Union Carbide (Bhopal) file. She may have backhauled snuff-film content via AT&T Ku-band from the resident butcher at the pig farm for use as an electronic ‘e-Passport’ to virtual private networks. If she had the passport or password to the VPN networks, she could extort ultra-high-net-worth family clients of Northern Trust in Chicago; she could also extort free movement of death squads over David Emerson’s YVRAS and Queen Hornet’s Con Air to put the camera crews into Piggy Palace for the oath taking ceremonies.”

Blabbermouth Sable was monitoring the clipper traffic from her position in the offices of Government Accountability Project in Washington. Whistleblowers go there to report abuses to these lame attorneys who identify the whistle blowers to their 'superiors' and then engage in academic and legalistic taffy pulling to placate the mentally vapid Whistleblowers while the bad guys come up with a plan to 'deal with the problem'. One could google Civil Case 1:08-1600 (RMC) to see a recent example. That lawsuit was offered to Sarah, Dan and Shanna but when one smells a rat, one withdraws the cheese, capeche? That lawsuit is readily available at the bottom of the home page of the website

that solved 9/11 over 30 months ago: www.captainsherlock.com It is our hope that the United States Department of Justice will prosecute the perps of 9/11 after the Vikings beat Indianapolis in the Superbowl.

Jam was still functioning in her favorite avian mode, double breasted mattress thrasher, and neither she nor her steady mount were aware of the clippers piling up in queue. As Chips called switch and they rolled 180 degrees without missing a stroke, Agent Rico Gambolino in Vancouver and Agent Hotlips in Fargo near the Hush House [THRUST YOU CAN TRUST] had finished their study of how vastly wealthy family trusts are attacked for benefit of Northern Trust of Chicago. Yes, the same bank that wrote the mortgage for the Obama dwelling they lived in before Blagodevich had sung like a bird after failing to get a good price the the squatter's senate seat. Blabby Blago was helpful also in finding out what Obama's supposed grandfather's middle name was and how that tied into the MOB RULE in the political ANUS OF AMERICA, Chicago.

“Blabbermouth Hotlips/Rico Clipper Chips, Hamish, Uncle Ray, Queen Hornet: Northern Trust hooked Barack Obama’s Family and became his mortgage banker for the June 2005 purchase of his Hyde Park townhouse. Northern Trust hooked the Woods Family when the Woods Charitable Fund was established in 1941 and Frank Woods, Jr. (who did not use the "junior"), worked in Chicago after finishing college. In 2001 the board of directors included Obama, William [Kill your parents!!!!] Ayers , the former Weather Underground radical terrorist. The Woods Fund had started using Northern Trust investment services a couple of years earlier. There is also a direct Obama-Ayers connection where Thomas G. Ayers served on the Finance Committee of the General Dynamics Corp. board of directors with Lester Crown with Northern Trust acting as trustee of General Dynamics Salaried Savings Plan and the Hourly Savings Plan overseen by the Committee which made a killing on 9/11 in Chicago, Chicago”

It wasn't 15 minutes into the rollover when Jam came up with another favorite bed-time favorite. As she backed out of the 'air refueling' she barked three times sounding very much like a teacup poodle in passionate pastel pink, rose pink. Chips understood what she wanted and after a low growl he did his version of 'Old Mother Hubbard' meaning that 'when she bent over, old Rover drove her, and gave her a bone of his own. Soon Jam was panting and the race was on. Because Jam felt a twinge of guilt at having violated their own rule of no more than 3 hours per enduro during the mattress thrasher to doggie style switch she had put her Clipper Pastel Easel on 'video wide screen' and had been keeping an eye out for in bound clippers while Chips had been keeping the one-eyed monster in it's safe harbor. At the 3 hour and 44 minute mark Jam saw a priority clipper coming in. At the same time Chips had doubled his stroke indicating that the voyage was almost over so to keep from issuing her customary end of voyage scream that could wake the dead or cause the glacially slow USDOJ to spring into action, she put a rolled tube sock in her mouth, a sock with a Minnesota Vikings logo on it and a hand written #69. Chips completely forgot about Jared Allen, the world's greatest sack artist including 2 on 10/18 against Joe Flacco of BM's Ravens and thinking Jam was suggesting a follow-on exercise he called 'switch' after the previous mission had arrived in fruition simultaneously proving that Chips was indeed the world's greatest sack artist.

“Blabbermouth Marquis d'Cartier Clipper Name Dropper, Jam, Chips, Hamish: Chips remember SCREAM pay-per-view horror and alleged snuff-film channel was launched in a joint venture with Goldman Sachs, Canwest and Corus on September 7, 2001; same day that Jeffrey Immelt became chairman of the board of General Electric and four days before the 'al-Qaeda' attack on the United States killed two GE employees, cost GE's insurance business \$600 million and generated content for a pig-farm passport to Northern Trust families' invested in the Obama cap-and-trade scam. Northern Trust families invested in Cap & Trade are going to get very rich; a few more Katrina style dyke explosions and some swine flu genocides to trigger the cat bonds. Of course everything relies on the ability of Obama's passport holders to silence the investigative reporters laid off by the Zell Family at the Tribune Company and the Aspers at Canwest. Shouldn't be too hard when they are reminded of the handiwork of the Piggy Palace Butcher near Obambi's birth place in Vancouver. Incidentally Scream was re branded as 'Dusk' on September 9, 2009; less emphasis on "[Al] gore" and more on BDSM and O for lesbian and bisexual women following an online threat to cut the balls off the Joint Chiefs and silence the lambs by the Femme Comp girls and Valerie Jarrett's AIDES in the White House.”

Blabbermouth Sable was still monitoring the clipper traffic in Farsi, Urdu, Arabic and English while here stablemate bookend Uncle Ray was watching the data in English, French, Mandarin Chinese and Korean. As Sable and Uncle Ray were independently focusing on the Canadian passports as they pertain to Chinese goons imported for operations such as the upcoming Valentine's Day Massacre at Whistler BC during the 2010 Winter Olympics which will public knowledge as soon as RCMP identifies who the 76 foreigners were on the OCEAN LADY intercepted 18 October as Brett Favre threw no interceptions, they were both 'hit' by a brief transmission from Agent Kim Chee from Jacksonville, Florida who was driving a super trick and piss-wicked black Dodge Ram pickup and selling windows.

“Blabbermouth Kim Chee Clipper: Chips, it looks like Obama’s pig farm passports are sold online via SCREAM pay-per-view TV network set up by Femme Comp Inc; a proportion of the snuff film profits are going into abusive tax shelters set up for terrified family clients of Northern Trust. Bit of history here; in 1882, John D. Rockefeller established the first traditional family office to manage his family’s extensive assets and philanthropic activities and Northern Trust subsequently developed a Passport for Wealth Management was developed to meet the evolving needs of ultra-high-net-worth individuals and their families. Passport for Wealth Management is really a smart way of ambushing a family into “Silence of the Lambs” through a tontine life insurance scam where “Dreams from My Father” relatives have a motive to kill each other if they expose the pig farm passport racket. We can now link the Alien Patent Custodian in Chicago with Lusitania, Titanic and Spanish Flu, Swine Flu and Warm World Government scams. Suggest all resources now target Chicago and Obama’s Wages of SiNN – Sidley Austin, Northwestern University and Northern Trust. BKC Out. ”

Sable and Uncle Ray were connecting the dots based on Agent Kim Chee's brief update as the phone rang in Room 1969 at the Westin Inn at Annapolis, Maryland.

"Hello" responded Chips as Jam went to work low, below the radar so to speak.

"Sorry to disturb you Sir but a Mr. Bigg just left a message. He said to tell you that Homi and Stone would be by in one hour to "Fly You Down to Memphis". Once again, sorry to disturb you and the Mrs."

"No bother at all, she was just doing the New York Times crossword and I am doing a wicked Sudoku. We will both be ready for Mr. Bigg's plan, thank you".

As Jam 'came aboard' and started impersonating the blonde model on the overhead bicycle at the Amsterdam Sex Museum she asked "I need a five letter word for 'narcissist wimp' do you have any ideas?"

"Is there an O in it my tasty morsel?"

"Yes, in fact the word starts with an O."

"Think of a fat ugly woman in Chicago."

"Oprah?"

"Not exactly, so let's double our stroke and finish this off. Homi and Stone will be here in 55 minutes and then it's just a matter of calling she home as in 'Chicago is'."
