

Chapter 30:

Disbarred Teleprompter Twins @ FC-KU Crime Scenes

Marcy-Waco Mirkin-SwineFlu then a Supermax Malik Whacks Fort Hood

(Earlier character development, see http://captainsherlock.com/Chapter_25.html)

http://captainsherlock.com/Chapter_1.html

<http://whatreallyhappened.com/RANCHO/CRASH/BROWN/xray09.gif>

<http://www.bannedmagazine.com/SupermaxPrison5.jpg>

Chips, Jam et. al. unloaded from the back of the AmeriPride laundry truck. Chips arranged to have an email account registered at the leading ISP in Sweden so that the Abel Danger Assets in Stockholm and Malmo could send intel more efficiently to Abel Danger HQ in Fargo. Moxie G. read an immediate Clipper from Dr. Mo Libideaux on something big scheduled for Ft. Hood involving ADT, Air Patrol and some other vermin working for benefit of the Disbarred Teleprompter Twins and Chicago Charlie. Looks like the Twins avoided malpractice report by retiring. Intel links Marcy-Waco to Mirkin-SwineFlu then onto a Supermax Malik and FC-KU crime scenes. Blabbermouth Kamehameha warns Chips, Umbrella, Hamish and Marquis d'Cartier that Goldman Sachs investors have Gordon Campbell's nuts in a 350 vice and have told Campbell and Obama they must deliver in Copenhagen. ADuc gets intel that FC-KU women sent the Fort Hood SWAT teams through ADT Security and the Airpatrol; one gunman is reported as a Major Malik Nadal Hasan, hired through Femme Comp Chantilly, Virginia, and Supermax Florence network after he converted to Islam and sealed his blood oath. QH's Senior Executive Service spins the dead guy as "primary shooter" but he may have been much more .. 'Malik Nidal Hasan or Nidal Hasan attended "training in disaster and [teleprompted?] psychiatry" for a continuity of government exercise with

QH's Charlies and SES Senate and House staffers. The base - the largest military installation in the world - was locked down [read paralyzed] and the ADT – FC-KU public address system sabotaged by teleprompting prisoners in Supermax; thereby keeping the media from reporting on the thousands of Obama protesters at the US Capitol!!”

.....
"Blabbermouth Hamish Clipper Chips, Marquis d'Cartier, Uncle Ray and Umbrella: In as much as Copenhagen is in potential peril regarding the TAC NUC option for Pearl Harbor Day, 2009, suggest we send out this musical warning from Denmark's greatest musical export:"

<http://www.youtube.com/watch?v=V4JEmz4FoJE>

Chips, Jam et. al. were just being unloaded from the back of the AmeriPride laundry truck and so the Routine Clipper from Hamish went unnoticed by all but Marquis d'Cartier at the Duty Desk of Abel Danger North. As he was crafting a hasty reply to Hamish he was thinking that Hamish should keep to connecting dots and let Chips handle the musical references as Marquis knew fully well that ABBA was from Sweden, not Denmark, and that Chips was arranging to have the email account registered at the leading ISP in Sweden 'captainsherlock@vaken.se' so that the Abel Danger Assets in Stockholm and Malmo, where Chips slept on a city park bench in the summer of 1970 while Bread had a monster hit with 'Make It With You', could send intel more efficiently to Abel Danger HQ in Fargo to where many Swedes had immigrated in the last 30 years of the 19th century including such names as Finstrom and Bjorgstrom.

"Blabbermouth TSCHIDA BRIC to Umbrella, Chips, Name Dropper and Hamish: Our mole in UN suggests Brazil-Russia-India-China prosecuting financial war on United States of America in coordination with SLUTS. Oath Keeper in JCS world assures JCS has revoked the alien's authority to launch simultaneous to revocation of QH's passkey to Abel Danger. McConnell International Assymetric Warfare Office online fulltime in Fargo. Forecast favorable", was still in the minds of Chips and Jam as they were making their way through the Hilton laundry facility after having received their 'packages' from the jovial man with the round face who had an interesting lapel pin. Though they were urged to speak as little as possible, even amongst themselves, until executing their 15 minute windows at the Starbucks behind the reception desk, Jam and Chips both had their mind on a mission of another color. A pastel color.

"I'll show you mine if you'll show me yours" cooed Jam as a matronly woman with broad shoulders threw a load of sheets in an industrial washing machine.

Chips flipped his room number up, 1307, to which Jam responded similarly, 1305. The bad news was both rooms faced the elevators so if they desired some quality REM sleep they would be hampered by the revilers getting on, and getting off, the elevators. The good news was the rooms were adjoining which made it easier to exchange intel, dare I suggest 'debriefing'. In their shared exuberance to engage in an enduro they noted their 15 minute windows were 1600 to 1615 for Jam and 1645 to 1700 for Chips. Barring big

changes the enduro was on the back burner although the moisture index was nearing 100% and Mr. Happy was ready to serve. As they entered the elevator at LL they turned directly to a dark skinned maid, adjusted themselves, and showed their keys. The Hilton domestic worker, perhaps a member of the union SERE, pushed buttons 13 and 15 and up they went. Behind the domestic worker was a Bellman with a small ventilated box from Gerbils R Us. Chips noticed the Bellman had a slip of paper with '1515' written in green. Jade green. Just like the face and 'crew member certificate' on Chips' Republic of Kazakhstan ID that allowed him into and out of Hanover, Germany on his mission to liase with Khazars and 'Red Shield' Rothschilds in early July, 2009, think 4th of July some 4 months prior to NW188 overflying Minneapolis, FAA Babbitt's criticism of the entire US pilot population and Senator Dorgan threatening to enact more layers or burdensome regulations on a beleaguered pilot population in an industry intentionally gutted while illegally modified airliners still abound.

[Kazak ID Jade Green.bmp](#)

The elevator made an uncommanded stop at the 12th floor and a man in his 30s joined them in the elevator car, which was neither an Otis nor a United Technologies product so the chance of it having explosives preplaced such as Gorillawoman had allowed in WTC 1, 2, and 7 on 9-11 was remote and therefore her chairing a "Destin Hilton Commission" to issue a false report would not be necessary as was the case when she signed off on a vapid 9/11 Commission report. Another empty go-go cage. Chips noticed the healthy young man in the crisp business suit had a clear plastic hose extending from under his suit coat into his left ear. Jam noticed a slight bulge under his left breast pocket not to be confused with the much larger bulge in Chips' trousers. Chips sensed elevated humidity in the elevator car.

At the 13th floor, Chips turned to the domestic worker and adjusted himself as the doors opened away from each other. Jam and Chips went to 1305 and 1307 and used their bar code reading keys to gain access. Once their doors had been closed and the security chains engaged, the elevator doors closed and the hotel employees went up towards the 15th floor. Chips noted the door adjoining 1305 was partially open and he opened it fully to discover Jam's was fully open also. He saw that her traveling clothes were already discarded on the bed and that she was in the bathroom. Looking at his watch he saw that the local time was 1525. Returning to his room he checked the small refrigerator to see if it had been stocked as per the Abel Danger protocol. He thought it unusual that it was fully stocked in as much as the trip to Starbucks at 1650 had the potential to change his room assignment. He withdrew a Grolsch wide body beer with porcelain stopper for himself and a split of Merlot for Jam. Chips smiled at the

appearance of Jam and split in a single sentence and wished Dwarf was there to regale him with bawdy tales of his days as a microwave technician in Viet Nam but alas Dwarf and Sluggo were working disguised as Hotel Employees to ensure security for Chips, Jam et. al during Operation EMERALD COAST 2009. As he removed the stopper and took a welcome sip of Holland's finest lager, he noticed a single hightop tennis shoe behind the drawn curtain next to his ocean front balcony. He was just heading that direction when Jam came up quietly from behind him and gave him a status check. The turgidity code and moisture index indicated 'all systems go' but the wrist mounted chronometers suggested 'all systems standby'. He opened the split and poured a glass of Merlot for Jam. As she took it from him wishing she was taking something else, he held his right index finger over his lips and pointed at the single tennis shoe.

Jam took his hand and led him quietly into her room to check for 'shoes' in her room. Jam's alternate name with Abel Danger was 'Shoes of the Fisherman' as she frequently took bad men for their final fishing trip always returning alone....except for the 'shoes of the fishermen'. Although the curtains were drawn, a brief inspection revealed no tennis shoes inside the room or behind the curtain. Opening the sliding door to the ocean front balcony Jam noticed a similar tennis shoe was on the table between the two chairs. It had human remains in it; a foot, ankle and about 6 inches of a shin bone. On the toe of the shoe was LIS in red magic marker. Returning to Chips' room 1307, an inspection of the shoe behind the curtain revealed a similar shoe, also with human remains and about 6 inches of the shin bone. On the toe of this shoe, written in red magic marker were the letters CIA. Chips picked up the shoe and he and Jam went back to the balcony of room 1305 and placed the shoes side by side. Both were left shoes, both appeared to be men's shoes in size 10 1/2 and 8 1/2 if labels can be trusted. Reading the letters in red aloud Jam spoke "CIA LIS, what can it mean?"

Chips opined laconically that for the limp husbands of the sweatogs of FCI and Sidley perhaps they needed a little help to get Mr. Happy ready for duty. However, on a more serious note he checked his Clipper Squirt Gun and noticed approximately 7 messages in queue including two from Dr. Nano al-Umina who had recently been put under contract with 'the company that doesn't exist' to determine which Nano-pyrotechnics had been deployed on 19 April, 1993 without the approval of the Lesbian pedophile who WJC considered 'his worst appointment' of his first administration. Of particular concern to 'the company' was the apparent misidentification of the two weapons as M651-CS. Nano had been called by a Blabbermouth in Baltimore, Md who suggested they were actually the more potent M651-HC variant placed in M651-CS containers just like the Muslims had been placed in the 4 airliners deployed by FCI on 9/11 only to be driven into a drop box protected by USCG and vaporized with the exception of UA93 which was vaporized over Shanksville, PA while Major Dean Eckman watched from his F16ADF in which he had been scrambled from Langley AFB at 0932 in the company of Major B. Derrig and Captain C.Bjorgstrom not to be confused with the F16B in which L/C R. Gibney had provided J. Jacoby of the New York FEMA office a view of the first "mass live snuff film" being put on tape by the Naudet brothers who had been positioned by Thomas Barnett, it appears, while at the same time a FEMA E4B was overflying Washington at low altitude violating P56 airspace and although an FAA map of Prohibited Airspace 56

was available on 1 Nov 09 by 5 Nov 09 that map was taken down from the internet.
Hmmmhhhhh.

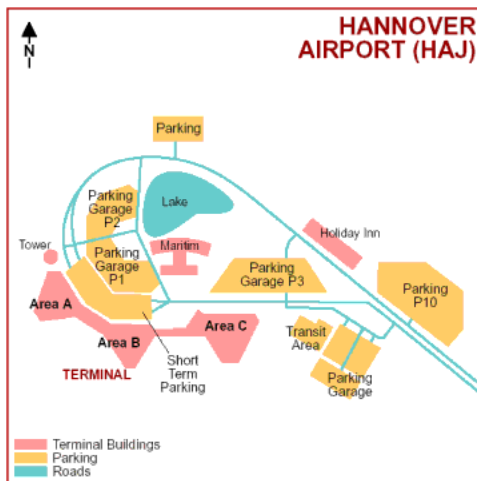

<http://willyloman.files.wordpress.com/2009/08/moshe-1.jpg>
http://www.northwestern.edu/magazine/winter2008/images/sidebar/Cover_Mirkin_Large.jpg
<http://www.sidecarsally.com/images/ukraine.jpg>

"Blabbermouth Nano to Chips, Dropper, Rico and Hamish: "Have been alerted to be in Kiev, Ukraine within 36 hours reference nano-spore powders from Chad Mirkin's Baxter lab at Northwestern to carry the A-H1N1. Enroute stop CIA LIS aka 'The local municipal airport' Will be at The Old Orchard Inn... (Waterville Airport Cooperative Ltd.) is just 15 minutes away and located in Waterville, Kings County, Nova Scotia. This airport has a runway length of 3,500 feet with lights for night landing and can accommodate single, light twin, or small business jets. Jet fuel is 100 LL fuel and the hours of operation are from 8:30 am to 8:00 pm each day. Natalya Antonov meeting me in AMS for forward flight to Kiev. If any ADuc assets to join see you at CIA LIS or Halifax. G550 departing CYHZ in 22 hours. Nano"

Chips re-examined the shoes and determined that Nano's physics lab friends in California [CIT] must have quite a sense of humor. The 'human remains' were props made in the lab but the message was loud and clear; Nano had been sent to sample any 'test deployments' of Baxter/Northwestern 'crowd killers' that would be unleashed on the beleaguered anonymous masses in Ukraine just as had been done by Anna Louise Strong in the 1930s. Chips immediately Clipped both Moxie G. and Dr. Mo Libideaux to set up a face-to-face and a possible side trip to The Old Orchard Inn on Fundy Bay, Nova Scotia, not far from Cambridge but not the Cambridge from which Hamish claims to be a graduate of, in the city near Ely, England where the Ely Cathedral is located and pub food is plentiful. Chips was hoping that the Nova Scotia venue could still be utilized in the upcoming movie "Captain Sherlock Solves 9/11" planned for a 11 September, 2011 release although the status was pending. As Chips was preparing to dial up Moxie and Dr. Mo, Jam pointed at her watch and her liability time card. With only 17 minutes before her 'heart of the envelope' time of 1607+30 they both knew it was time for her to cover up her pastel essentials and report to Starbucks. Jam selected white shorts for both of them and Chips laid out two black and lavender Tom Selleck Aloha print shirts wishing it was something else being laid out as in a 105 pound female body that still looked much the same as it had going over the chain link fence enroute to Survival Beach in February, 1965 at Ramey AFB, Puerto Rico. As Jam put her girlish figure into the festive clothing, she blew him a kiss, gave him a quick status check, and left with her Room 1305 key and liability time card in hand. As she left Chips decided to check

Nano's second Clipper in queue as he grabbed another Grolsch wide body and adjusted himself, letting his velcro adjustable pouch out to 'humongous' as the Rodney Baldinger NDSU extend-o-peters were paying rich dividends, not to be confused with Rich McHogeny or the worried Blabbermouth in Baltimore, Maryland 'Bruce McHogeny', capeche?

“Blabbermouth Nano to Betty Crocker, Rico, Hamish, Dr. Mo, Moxie G and Chips, copy Dropper: I was able to hot wire a car from the motor pool thats all I can say about that....and now from Olya: On the ground the scene is only something only Hollywood could conjure, but this is my friend Olya, I spoke to her last night in virtual space.....hi, nano my kitten, my country for this week looked like the scenario of film for us not only epidemic of AH1N1 but also pulmonary plague, I do not almost go for a street 4 days.Schools and institutes are closed. some cities sprinkled from a helicopter some chemistry. No people on the street. Pulmonary plague was dug out by the Ukrainian and American scientists when dug out some graves in our western Ukraine. Im in shok. Look for me in Kiev station. Mama Olya.”

Hannover 11.jpg <http://www.expedia.co.uk/daily/airports/images/haj.gif>

Chips was very comfortable with the broken English message from Olya as he had spent 3 tours in Kazakhstan most recently from 6 February, 2008 to 6 August, 2009 as he worked to uncover the relationship between the Khazars and the Rothschilds. On a side trip to Hanover, Germany in July, 2009 he met with a Khazar at the Hannover airport and the history between the two entities was laid out very clearly. When Chips learned that Rothschild was really Red Shield he knew what strategy must be employed to save the United States of America from triphibious attacks from the BRIC bloc of countries [Brazil-Russia-India-China], the Franco-fairies of FCI and FLQ, as well as the belligerent cow herd at Sidley/Northwestern. The broken English of young Olya could further be excused as she spoke 4 languages at the tender age of 23 and according to Dr. Nano al-Umina she was also fluent in the "only international language ever needed". Whether the eyes conveyed Da-Oui-Si or Yes the look of sweet desire was always obvious to those who had eyes and olfactory fluency; both of which Nano had and utilized when appropriate. Nano left messages IDed as Sturu 62 and Natalya claimed to be Malinka 11.

<http://www.kazakhstanki.com/>

Astronauts rescued as capsule lands off-target - Return to Flight ride back from space when their Soyuz capsule lands more than 260 miles off course. ... MOSCOW - A Russian space capsule touched down in Kazakhstan after ... of the U.S. space shuttle ...

Nano and Olya communicated openly in Russian and German at the above website that Chips had turned Nano onto while Nano was visiting in Astana, Kazakhstan after the caper where the Russian spacecraft landed 260 miles from the intended point of touchdown just as 18 months later a Northwest Airlines A320 would be reported to have overflowed the airport at KMSP, [NWA Flight 188/21 October, 2009 KSAN-KMSP] which led to concern that the Boeing Uninterruptible Autopilot technology might now be deployed in Airbus and Embraer commercial jets, a subject Babbitt, Dorgan and DOJ may review after the Super Bowl.

Of course it was also reported on 9-11 that American 77 flew into the Pentagon which was proven false by the 3 missing frames of the FBI surveillance video tape that captured a Raytheon AGM being launched from a Raytheon owned A-3 Sky Warrior that had been super modified at Ft. Collins, Colorado. False reports of aviation incidents had been profuse in the years following FCI/Sidley's ripoff of patents allowing for jet aircraft to become reinsurance profit generators [RPGs] not to be confused with rocket propelled grenades which are generally deployed against enemy combatants instead of innocent victims such as the majority of 'non-target collateral victims' aboard United 553(**), Korean 007, Egypt 990, TWA 800, AA 11 and 77, US 175 and 93, Adam Air 574, Kenya 507, Colgan 3407 and Air France 447. Senator Byron Dorgan, D-ND, chaired meetings on 10 and 17 June, 2009 that could have solved these cases of murder had he been allowed to do so. Sadly, as reported by Barbara Hollingsworth of the DC Examiner Senator Dorgan did not allow 4 whistleblower pilots to testify and yet after NW 188 was 'lost in space' for 90 minutes this Senator suggested legislation barring electronic devices from airline cockpits, not aware that today's airliner cock-pits are 'electronic devices'. If Senator Dorgan wished to enhance the safety of the traveling public he would ensure Civil Case 1:08-1600 RMC was not vacated on 11-20-09 however that would probably conflict with USDOJ's fascination with the Williams Wall of the Minnesota Vikings so air safety will be put on the back burner until the Vikes defeat Baltimore in the Super Bowl.

**Was Dorothy Wetzel Hunt, the late wife of convicted Watergate conspirator, E. Howard Hunt, murdered? Was the plane on which she was traveling--along with other key Watergate characters--sabotaged? If so, why? And by whom? ...

[B KGB enroute Istanbul.jpg](#)

As Chips checked his PDA he noted that Nano's arrival in Amsterdam as well as Kiev would be 02 Nov 09. It was 31 years earlier to the day, 02 Nov 78 that Chips had begun his first airline job at North Central Airlines, employee #75434, in Minneapolis after being hired by Capt Rhett Thompson because Rhett had seen something 'interesting' in Chips' resume. It was exactly 31 years prior to that, on 2 Nov 1947 that Howard Hughes' Spruce Goose got airborne for the one and only time attaining an MSL altitude of 70 feet. Chips thought it might be great to commemorate the 2 Nov 09 date with a quick trip to Kiev and a rekindling of his relationship with the KGB agent from Astana, Kazakhstan whom he'd worked with for 18 months while appearing to be an A320 Captain for Air Astana, the national airline of Kazakhstan. That 'apparent' job came to a hasty end after Chips had offered Senator Byron Dorgan, D-ND, some truthful safety related aviation data that was also included in Civil Case 1:08-1600-RMC that was set to be vacated on 20 November, 2009 as Chip's attorney of record was temporarily disbarred. What a shock, a Washington DC attorney being disciplined for, perhaps, filing the 9-11 solving lawsuit captioned above. Makes one wonder what Michelle Obama or her junior plaything might have done to get disbarred in the Land of Lincoln which prior to 1930 had some honest attorneys none of which ever worked for S-A.

<http://adweek.blogs.com/.a/6a00d8341c51c053ef01157099d0e3970c-450wi>

As Chips was considering the trip to Kiev and the calls to Moxie G and Dr. Mo, he heard Jam opening his door to Room 1307. Thinking he was losing his mind he checked his breast pocket and found both his keys still in his PDA wallet.

"Chips, I met with Natalya and Marley at Starbucks and the jovial man with the round face gave me an update intel brief for 'the girls'. It looks like Uncle Ray and Hamish are considering splitting Abel Danger along gender lines to mimic FCI's tactic of having the women backfill positions of responsibility when the complicit or guilty spouses are incarcerated at the Super Max in Colorado which appears to be the University of Terrorism operating for benefit of Chicago Charlie and of course Chicago Charlie is just a front for the United Nations and the New World Order Queers. I see that Hamish and Uncle Ray will be briefing us at a dinner at McGuire's Irish Pub in downtown Destin tonight around 8, suggest you take a virtual tour and locate exits, the Moosehead and the 1929 GMC truck. Sluggo and Dwarf will be in the cab of the truck and Homi will be posing as a mannequin near the 1935 Peugeot."

<http://www.mcguiresirishpub.com/DestinVT/index.html>

"We are to arrive alone and mingle by the 1929 GMC truck in the gift shop. The Company that doesn't exist will be represented by Uncle Ray, SOFIA Malstrom will be represented by James Crosby, and Umbrellaman has suggested he or Tschida BRIC will be there for the SES takedown of Madam Speaker's proxy. Tschida BRIC has agreed to change her name to Shita Brick so that the London Fogs with crew cuts can catch on. Navy Intel will be monitoring from the Moosehead camera behind the Irish lounge singer. We are all to be 'wired' and Marquis d'Cartier and Tango will enable recording continuously within line-of-sight with the Moose's nostrils. The link above has the Moose, the 1929 GMC, photos of all Abel Danger players and our getaway 1935 Peugeot in the video-briefing. I need a drink and an enduro but as your liability time is fast approaching let's just have a drink on the balcony of our room."

"Jam, you said our room, is that what you meant my splendid little cumquat?"

"Yes and I am sorry I failed to mention that all Abel Danger assets will be doubling up due to security concerns. I think we should pat each other down for those same security concerns. The vacated rooms will be back filled by tandems of Beth El shooters. Both 1305 and 1309 will have a pair of shooters while you and I are assigned 1307. Also, according to the latest briefing the 14th floor may, or may not, have a client assigned. There is a four person detail from Secret Service floating around, three hims and a her. They were very confused by your Presidential Limo which is longer and thicker than his."

Client transportation Ramey v. OCTOPUS, October 24 2009.jpg

"That explains the staid looking gentleman with the clear hose leading to his left ear" observed Mr. Suddenly Turgid.

Chips handed Jam a quart-sized Dark N Stormy as he had a double Captain Sherlock Martini for himself. As the signature Abel Danger knock came at the door Jam added "better pour a Ramey Rimshot....Name Dropper and Moxie are stopping by for a quick face to face". Chips answered the door and showed the other two assets in as Jam handed a Ramey Rimshot to Dropper and asked Moxie G. what she'd like to drink, if anything.

Moxie G. was reading an immediate Clipper from Dr. Mo Libideaux, an alternative medicine professional who formerly practiced at Ft. Hood, Texas. After a second brief read-through she commented to Jam, Chips and Name Dropper: "Dr. Mo was enroute via Twin Comanche N7624Y when she was alerted to increased KU band activity over and

around Ft. Hood. She is airborne, returning to Austin, Texas and will report her findings. Looks like something big is scheduled for Ft. Hood involving ADT, Air Patrol and some other vermin working for benefit of the Disbarred Teleprompter Twins and Chicago Charlie. Regarding a drink I'll have the usual, make it a double."

Jam reached to the back of the fridge and retrieved a pre-mixed 12 ounce Screaming Orgasm and handed it to Moxie. As the foursome sat on the balcony they observed the Beth El shooters placing Jam's luggage and clothes in Room 1307 prior to their closing and bolting the adjoining door. Chips got a quick glimpse of pastel Tangelo as Jam shifted both her posture and his target.

"Screaming Orgasm (CaptainSherlock's LPR drinks): Ingredients: 6 oz Ukrainian Vodka; 1 1/2 oz Bailey's irish cream; 1/2 oz Kahlua, slice of pastel Tangelo. Mixing instructions: Pour first vodka, then Bailey's, then Kahlua into a cocktail glass over crushed ice ... www.captainsherlock.com/lpr-drink/1307"

[Chips and Chinese SWAT team.jpg](#)

"Chips and Jam, CDC advises that the nano technology dial-a-dose feature of the H1N1 is being test marketed in the Ukraine as well as in Urumqui, China beginning in about 48 hours.....we believe that the China release will be suppressed by the media, as China works with Russia, India and Brazil to scuttle the US economy, but the Ukraine event will promulgated to increase global fear of a pandemic which would drive up demand for a vaccine therein driving up profits at Baxter, Sidley, FCI and Global

Initiatives with random names like Gore or Clinton, both taken from a 1938 Philadelphia phone book....." as Moxie was interrupted by Name Dropper who posed a question.

"The three most obvious abuses of the Nobel Peace Prize in history include Mr. Hot-Air, Soros' organ grinder monkey, and which other President [legit or alien] of the US?"

"Woodrow Wilson was rewarded for creating the Federal Reserve for European Banks in 1913, creating the IRS for benefit of those same European interests and also for not joining in World War I which is iffy as he later, in 1917, did just that. Wilson disproved Jam's mantra that 'all woodies are good woodies' as Wilson, Hot-Air, Gadget Bent and the Peanut man from Georgia all had two things in common, neither of which are good for America, in 1913, 1979 or 2009, capeche?"

As Chips gave a gerrymandering answer to a simple question he drained his Captain Sherlock Martini knowing full well that by 12-7-2009 anyone googling or BINGing [Captain Sherlock Martini + Ramey Rimshot + Merlot + Screaming Orgasm + traitors in the white house] would be directed to this action packed, dare I suggest gripping, chapter which is to be pre-released in detail on the 4 Nov 09 Rayedio show marking the first anniversary of Uncle Ray's www.rumormillnews.com radio .

Jam interrupted and pointed at the TM recently taken out of queue from Nano.

"Blabbermouth Nano Clipper to Moxie, Dropper and Jam: according to Olya the test deployment has begun in the Ukraine and the tri-lateral delivery modes have all 3 been utilized: airborne distribution, mail-post-flyer insertion as well as the classified method. I am enroute to Cambridge, Nova Scotia at present and will be departing Halifax for Amsterdam in about 22 hours. There are 6 seats up for grabs on the 550 Gulfstream if anyone wishes to visit Kiev and meet with the 'good guys' from Hannover, Astana, Tehran and Istanbul. Our woman from Urumqui, Qin Hai, is also trying to make the meeting."

Name Dropper reminded them "Shita Brick" suggested the timeline would be hurried as the annointed one has lost his nuclear football and Factions 1 and 2 are hoping to regain control of the NUC codes prior to 7 December's meeting in Copenhagen which Janet A in Australia blogs about very capably. Conversely, loyal oath keepers in DoD and Treasury have dialed it up a notch or two also and all armories are ready for the preemptive operation penciled in for 11-11-09 if necessary. Hannibal, Missouri currently has the hammer but the torch will be passed every 12 hours to keep the disbarred teleprompter twins confused and off their timing. Operation POON TANG indicates first rotation of Armory Duty will visit Vermont and Texas. As you'll recall when the Vermont ANG operated EB57s their squadron call sign was POON, their last squadron commander was 'Farmer' [John Scott] and they transitioned next to F4D and F16 [Dubie?] aircraft and of course the Texas ANG is TANG. First 96 hours of POON TANG will see duty NCOs at Westminster, Colchester, Waterbury and West Rutland, Vermont followed by Texarkana, Eagle Pass, Beaumont and again Beaumont, Texas. Our Marine contact at Neches Marine has volunteered for double duty, much like the pouch of Chips' Oscar de La Renta Slingshot Rumpaster in pastel Tangelo. Watch for

failed diplomacy from the Arkancide Ace as Korea, Kazakhstan, Sweden, Germany and Iran are poised to call her bluff. Note that the SOFIA aircraft has both US and German flags. Any attempt to complete the financial transaction with China will trigger a release of the first round of Cue balls according to the current briefing sheet with targets 1-4 being Nanny Pilota, L B Beanen...." Name Dropper was interrupted by Chips who looked at his watch and realized his liability time was fast approaching.

Name Dropper told Chips to relax as "I have handled it with Natalya and Marley, here is your briefing sheet and you probably are aware that you and Jam will be here in 1307 until 'switch' is announced. The switch will redirect Abel Danger to the 'sister cities'."

"Thanks Dropper, I hate to rush a Martini" responded Our Man Chips who was always affable and never flappable as he adjusted himself as he was regaled with another glimpse of Pastel Tangelo while trying to recall if Kiev, Ukraine's sister cities were Chicago and Baltimore home of Baxter and Piloti-mafia.

"Blabbermouth Bravo Mike to Chips, Umbrella and Nano, copy Tango: If I can get a 'kitchen pass' like Queen Hornet I would be willing to disrupt the flow of encrypted PKI during the upcoming Copenhagen Tac Nuc vulnerability window and let you know of a contingency OP Plan involving the biggest military base in the world, think Texas"

Dropper signaled to Jam that he needed a refill and as Jam filled not only Dropper's Ramey Rimshot but also Moxie's Screaming Orgasm and her own drink, Chips drained the first of his Captain Sherlock Martini's and ate the first of 2 stuffed queen olives giving Jam a sideways glance indicating he had other things on his mind. Jam decided she should take the conversation in a different direction as Moxie G. apparently was picking up what Chips was laying down and appeared to know where his head was at or in more proper English where both heads were at.

"Chips, several missions ago you referred to the Alien Occupant as 'The Fool on the Hill'; I wonder if time has mellowed you any and if perhaps you have another song that might be more fitting for POTUS(?) 44 who is, after all, the first unemployable and disbarred British subject of Muslim faith in an 'arranged' marriage to ever penetrate the POTUS gang."

"Yes my comely love muffin I have reconsidered and in light of the fact that his DNA says Chicago-Davis, his piece of paper says Kenya, his school registration at the time of his college student foreign aid request says Indonesia/Muslim and enquiring minds say 'who's your daddy', I think a 1965 song by the Beatles is more fitting for The Teleprompted One, Here, listen to track F4 on my Clipper Squirt Gun and see if you don't agree that until he proves otherwise, not only to the US Military, US Department of the Treasury and Dr. Orly Taitz, but to 'we the people', he is, indeed, the Nowhere Man."

http://www.youtube.com/watch?v=hY8paOcA_F8

As they were listening to the 1965 Monster Hit from the Quarrymen aka The Silver Beetles aka The Beatles, Dropper's Clipper Purple Sac took an immediate Clipper from Mr. Ed at CSI Fargo, headquarters of the 72nd C4ISR Wing 15 miles southeast of the Predator UAV base in Fargo.

“Blabbermouth Mr. Ed Clipper Name Dropper, copy Chips, Umbrella, Hamish: Chips; go through this and give me a profile on Leigh Buchanan Bienen. Is this the dog that didn't bark? If so, suggest she and 'Nanny' are targets 1/2. She's focused on Chicago murders from 1870 to 1930 but stopped when Alinsky started working with Capone on the murder-for-hire model where everyone got compromised as in Femme Comp and Anna Louise Strong (100 million dead on her bisexual watch). She also hasn't touched how Sidley Austin appears to have set up the tontine death squads for James Hyde at the Olympics starting 1908 in London. Four "Mysterious" Citizens of the United States that Served On the International Olympic Committee During the Period 1900-1917: Theodore Stanton; James Hazen Hyde; Allison Vincent Armour and Evert Jansen Wendell John A. Lucas. Could this be the woman behind Dohrn and SCUM's nearly perfect murders? They are both obsessed with rape and homicide. WORK IN PROGRESS: Homicide in Chicago, 1870 – 1930, a web site which has received 250,000 unique visitors in one year, as of April 2006. Book on Florence Kelley in Chicago, 1891 – 1899. Gilbert Geis and Leigh Bienen, Crimes of the Century, (Northeastern University Press, 1998). Jurors and Rape: A Study in Psychology and the Law, (H. Feild, co-author), Lexington Press, D.C. Heath & Co., 1980; Did Anna Loise Strong have three ways with Madame Mao and some of the peasant girls tortured and killed by Mao? Someone put up Maurice Strong and O's grandfather to the Mau Mau oath taking schtick in Kenya in 1952/53. Could have been Anna Louise - then we link back to University of Chicago where we have alumni Leigh and Henry Bienen. And have a look at Leigh Buchanan Bienen, author of "Crimes of the Century" here. She wrote about inter alia the murder of Bobby Franks by Leopold and Loeb. Leopold and Loeb; it's always Chicago's homicidal elite in pursuit of the perfect crime. They whacked BF because they thought they could do the perfect murder; why wouldn't Bienen and Dohrn at NU Faculty of Law have done 9/11 for the same reason? She wrote Incest Laws, "Encyclopedia of Criminology & Deviant Behavior, published in November 2000, (pp. 177-181). L. Bienen, A. Ostriker, and J. Ostriker, "Sex Discrimination in the Universities: Faculty Problems and No Solution," Women's Rights Law Reporter, March, 1975, reprinted in Glazer and Waehrer, editors, Women in a Man-Made World, Rand McNally, 1976. Fiction: The Left-Handed Marriage, Ontario Review Press, June 2001 (a short fiction). After the 1979 Code of Criminal Justice went into effect, I represented a group of sex offenders incarcerated for treatment under a special sex offender sentence. These offenders had a new resentencing remedy created for them by the 1979 Code. A colleague and I collected data on the sentences of over 100 inmates then incarcerated at the Adult Diagnostic and Treatment Center in Avenel, N.J. Fall, 2002- "Murder and Its Consequences," Northwestern University School of Law. November 2002 Chicago Humanities Festival, "Brains & Beauty," Panel: Crazy Brains, Insane Murderers, November 6, 2002...we believe she is working with 'Hanging Chad' Merkin”

Name Dropper looked up at Chips and asked "Haven't we seen another Merkin or two in the past?"

<http://media-cdn.tripadvisor.com/media/photo-s/01/24/aa/a5/hog-hunting-florida-style.jpg>

"Right you are Dropper, as anyone with a rudimentary command of the English language already knows, a merkin is a hair-piece, of sorts, for naughty women. One of the OCTOpussies is referred to as Lavendar Merkin as she was at Wellesley with Thunder Thighs. Lavendar is a Boston finance wench today. At this very conference in Florida we will be training some gators to snatch the sows, pardon my using sow and snatch in the same breath, and restore justice to the American population. We covered that 23 missions ago as is chronicled in Chapter 7 of the most accurate 97 chapter explanation of the crimes of 9-11 ever written.....and you ain't see nothing yet":

<http://www.youtube.com/watch?v=Jnd8ArBkKtA>

"Over to you Chips or Field; you are a Marine, you will ... Sasquatch, Gorilla Woman, Thunder Thighs, Lavender Merkin, Miss ... Fish is committed to landing at Midway and we have a VOR ... www.captainsherlock.com/Olympic-Debt/Chapter-7.html"

Dropper recalled vividly Chapter 7 as his 'day job' required him to monitor intel for the 72nd C4ISR Wing from the Duke FIELD office near Eglin AFB where there are static displays of B52, F4, A4 and an F15A painted up to appear to be an F15C within a 'six pack drive'. Here pussies, pussies, pussies.

"Blabbermouth Padre Clipper Chips, Hamish, Umbrella, SWAN: Chips, for perhaps three decades Bienen and/or his wife may have served SCUM/CIA's Special Activities Division as de facto bosses of assassinations and propaganda. He mentored and tried to

corrupt or recruit Michelle Obama while she was writing her 1985 thesis "Princeton-Educated Blacks and the Black Community" under her maiden name, Michelle LaVaughn Robinson; the same for now-General David Petraeus when he wrote his 1987 thesis "The American military and the lessons of Vietnam : a study of military influence and the use of force in the post-Vietnam era".

Chips, Dropper, Hamish and Mr. Ed had all been tasked to determine the depth of the relationship, if any, between Princeton perverts and Georgetown gaggers in light of the fact that both of the teleprompter twins had been coerced to surrender their attorney credentials just as Chips' attorney of record of Civil Case 1:08-1600 (RMC) had been forced to do. It was hoped that Patreus, McChystal and McConnell would all be in a position to serve on Pearl Harbor Day, 2009, in Copenhagen where Chips' last "visit of record" occurred in July, 1970 aboard the USS Guadalcanal, LPH-7.

ARDC Individual Attorney Record of Public Registration and Public Disciplinary and Disability Information as of November 2, 2009 at 12:25:40 PM:

Chips, Dropper, Hamish, Marquis d'Cartier and Nano were all in agreement with Uncle Ray from 'the company that doesn't exist that the letters above, written in red, were highly significant and should cause a permanent schism to develop between the Disbarred Teleprompter Twins of Chicago Charlies and the loyal oath keepers in DoD including P-man, Mc-C and Our Man Chips who received a brand new USUS ID card on 14 October, 2009 before resuming 'pay status' and departing for Destin, Tyndall AFB, Duke FIELD and other 'points of interest' on 20 October, 2009. The US Secret Service can attest to the Presidential Limo being in Destin on 23 and 24 October sporting a RAMEY 1 Puerto Rico license plate on the front and Minnesota plate 262 AZY on the rear.

Chips and Dropper had just finished their cocktails and were thinking about heading out to McGuire's when an immediate Clipper came into all Clipper phones from Nano who was handling both the Baxter-Nano and Reno-Nano issues for Uncle Ray and the 'company that doesn't exist' and did not exist when the Beale SR71s hauled some interesting persons in the back seats in 1979. Nano had confided in Chips that he saw a 'wedgie' developing between Reno-Gorillawoman-Queen Hornet with Gorillawoman being the "odd non-man out" as Reno was clueless and QH had been unwilling and unwitting. Bruce McHogeny [BM from Baltimore?] was in perfect harmony with that observation.

“Blabbermouth Nano Clipper to Chips, Hamish, Umbrella and Uncle Ray: Chips, we have evidence to suggest that Henry Bienen former president of Northwestern University and alleged boss of the CIA's Special Activities Division, has been using patented nano-weapons such as sabotage spore powders, to conceal contract hits. Victims die from apparently-random complications after the swine-flu virus has been carried deep into their lungs. Bienen's cronies at Northwestern used different grades of sabotage spore powders to carry the anthrax bacillus after 9/11 and the swine flu virus in recent attacks to different depths in the lungs; the deaths of targeted victims were then synchronized with but camouflaged by, the sickness and subsequent recovery of others. Same deal with the late 2001 anthrax letters attack on the United States. We have done reconstructive

analysis of the sabotage spore powder (SSP) contained in the lethal letters, and its structure; the aerial dispersibility varies with the powdery texture of the material used. This gives us retrospective technical intelligence that points to the SSP's provenance; Henry Bienen and agents with Northwestern University and Femme Comp Inc. The swine flu is infecting cells deep in lungs; patients with A(H1N1) virus suffer worse symptoms compared to those with run-of-the-mill seasonal flu. Seasonal strains attach themselves almost exclusively to cells found in the nose, throat and upper airway, producing a some of influenza's signature symptoms: runny nose, scratchy throat, a dry cough; the new swine flu sticks to a greater range of receptors and can also breach cells deep in the lungs. The seasonal strains only lock onto the kind of receptors found in the upper respiratory track; swine flu virus able to latch onto receptors found deep inside the lungs, albeit more weakly. The adhesion results in a more severe lung infection. Feizi spelt out the risk of what could happen if natural selection encourages viral strains that favor this deep-lung penetration. We find a 100-fold increase, compared to seasonal flu, in the number of swine flu deaths in Mauritius and New Caledonia attributed directly to the virus itself rather than secondary bacterial infections or underlying conditions both are members of La Francophonie. Looks like Bienen is targeting isolated islands first to get a feel for how hard they want it to run around the world. Most deaths were caused by acute respiratory disease syndrome (ARDS), which requires intensive-care treatment for an average of three weeks. Only 50 percent of ARDS patients survive."

Chips, Dropper, Jam and Moxie G. noticed that 'rodeo time' was fast approaching and that they needed to think about 4 independent methods of transport to get them to McGuire's for Uncle Ray's 8 PM 'mother of all meetings' as another 'immediate' Clipper came in, this one from Clinton Reuben in the office of the Adjutant General of the Illinois National Guard where he worked closely with fellow Abel Danger Asset Carol Stream.

"Blabbermouth Clinton Reuben Clipper Chips, Umbrella, Hamish: Chips, Bienen worked closely with Northwestern Board of Trustees and his wife, Leigh Buchanan Bienen whose career as a writer and legal scholar continued at the School of Law in a joint venture with terrorist leader Bernardine Dohrn. Both Bienens have enjoyed roles as board members of leading local theaters, heavy into murder mysteries. He worked closely with Larry Dumas, who was provost for most of the Bienen presidency and been at Northwestern since 1970, when he was hired as an assistant professor of biochemistry. When Bienen arrived at Northwestern, he got into sterilization biology and neurotoxins. He launched Northwestern's International Institute for Nanotechnology to work with materials on the level of a nanometer, or one-billionth of a meter that could be used as SSP. Bienen built the \$34 million Patrick G. and Shirley W. Ryan Hall (formerly the Center for Nanofabrication and Molecular Self-Assembly). Remember Patrick Ryan hired Bienen as NU President and he chaired Aon Corp. when the bodies of 175 Aon employees were vaporized by nano-thermites on 9/11 after which hundreds of people died from deep-lung diseases allegedly caused by sabotage spore powders developed at Northwestern's Institute for Nanotechnology. Bienen began his academic career traditionally as a scholar and professor; he was a student at University of Chicago when he switched from Soviet to African studies. By 1972 he was the chair of the politics

department at Princeton”

Jam and Moxie pointed to the clock on the wall, not to be confused with the Cock of the Walk, and exited Room 1307 enroute to the elevator. Dropper and Chips went to the balcony to await the privately owned Eurocopter that would be dropping a rope ladder at 1935 local. As they finished their drinks and had curiously strong original Altoids mints, Jam and Moxie G. were adjusting themselves for the HERE represented domestics on staff at the Destin Hilton who controlled the ups and downs of the non-Otis, non-UT, non-Gorillawoman elevators. The elevator was just reaching the Lower Level, LL, and Jam was crawling into a cart loaded with AmeriPride uniforms for her secure ride to McGuire's as Moxie G. was hopping on the back of a Black Harley FLH financed by Warren Buffett prior to his multi-billion dollar offer to buy the Burlington Northern railroad to take focus on his 9-11-01 meeting which afforded 300+ Goldman Sachs bankers to be 'out of town' for the FCI enabled attack on America fraudulently portrayed by the sold-out media as an 'al Qaeda attack according to the Abel Danger Asset at Kamehameha School in Honolulu who had a husband who was with Goldman Sachs prior to her activism to save America, and their subsequent divorce. She and little J-O-E would be going away.

<http://www.youtube.com/watch?v=ZQs3jZbxFTQ>

As Jam rode in the AmeriPride truck down US 98 west towards McGuire's, Moxie G. wished that Homi had not worn a fake pony tail for the ride down US10 heading west on the back door route to McGuire's. As Chips followed Name Dropper up the rope ladder he was wishing that it was Jam in a skirt but he knew that sometimes we didn't always get what we desire. Like the Olympics for 2016. Or like the 350ppm deal in Copenhagen on Pearl Harbor Day, 2009. Or like an excusal from the gallows for Treason for the PFers, Sidley Sows and USDOJ-Pride folks who may, or may not, be willing to 'harbor them'. As Dropper climbed in the Eurocopter, Hoss leaned out the right window and pointed at a Cigarette boat making 30 knots on a due-west course just south of the shore break. Chips gave Hoss a thumbs up whereupon the chopper descended to 'drag and drop' Chips into the boat for a high speed run to the mothership just off shore Joe's Crab Shack. Chips looked at his \$10 WalMart and noticed the time, 1955. As his Clipper went off with a rare "FLASH" message from Uncle Ray, he knew what was waiting. Upon checking the TM he saw the anticipated 'switch'.

“Blabbermouth Uncle Ray to all Abel Danger Assets "Switch-switch-switch, do not respond, execute POON TANG”.

<http://www.joescrabshack.com/>

At the 'execute' all courses reversed. The triphibious 'switch' caused all Abel Danger to change from male to female authorities, original destinations to alternate destinations and casual attire to uniforms for those who served and were willing to serve through the end of the Copenhagen Caper which would be prevented or responded to by DoD and Abel Danger. As Nano's jet turned from a direct course to Nova Scotia to new destination

Baltimore and the EF111Js were being prepared to shutdown Chicago Charlie electronically, those destined for McGuire's now proceeded to Joe's Crab Shack where Uncle Ray would 'share the love' at Fuqua time not to be confused with the 'tattle tale technology' called FQOA data that caused the crew of NWA Flight 188 to lose their airman certificates as proven below:

[airbus.jpeg](#)

As Chips was being delivered to the Crab Shack he was thinking of the lunacy of the FAA and DoT in their selection of which aviation incidents to address and which to suppress [9-11 Civil Case 3:07-cv-24, Civil Case 3:07-cv-49, Civil Case 1:08-1600 (RMC)] and he compared the transgressions of Captain Cheney of F188 to two recent 'commanders in chief'; lower case letters intentional:

*There once was a girl named Lewinsky
Who played on a flute like Stravinsky
'Twas "Hail to the Chief"
On this flute made of beef
That stole the front page from Kaczynski.*

*Said Clinton to young Ms. Lewinsky,
We don't want to leave clues like Kaczynski,
Since you made such a mess,
Use the hem of your dress
And please wipe that stuff off your chinsky.*

*Lewinsky and Clinton have shown
What Kaczynski must surely have known,
That an intern is better
Than a bomb in a letter,
When deciding how best to be blown.*

As the Cigarette boat was beached off the shore from Joe's Crab Shack, Chips missed several incoming Clippers as he raced to be at Uncle Ray's right hand as the recently 'switched' briefing was to start imminently.

"Blabbermouth Tango Whiskey Clipper to Umbrella, Uncle Ray, Chips, Nano and Hamish: "Abel Danger Colorado Springs believes Femme Comp Inc. procured C4 net-centric @ technologies from certain Canadian privy councilors for use in the 9/11 attacks which were allegedly executed by 'al-Qaeda' special weapons and tactics teams based in or out of the Supermax prison/University of Terror in Colorado".

"Blabbermouth Bravo Mike (Baltimore) to Chips, Hamish, Umbrella, Tango: "Our Blabbermouth agents in Baltimore-Washington have evidence that Femme Comp is derived from 'Femme Compromise' i.e. the term used in La Francophonie to describe a compromised woman who is a widow of a mob boss or a wife of a husband in prison and has been authorized to shake down companies in extortion rackets and/or direct drug trafficking. Suggest you focus of Nanny Piloti's relationship to Baltimore-Mafia and monitor KU levels within 25 miles of Ft. Hood, Texas between now and Veterans Day. capeche?"

"Blabbermouth Bravo Mike (Baltimore) to Umbrella and Uncle Ray: ""The secret files of Ron Brown by Charles Smith © 2000 WorldNetDaily.com Wen Ho Lee is charged with removing classified material from a secure area. Despite Lee's guilty plea to a widely public and much touted case, a former Clinton appointee connected to Al Gore has admitted to far worse and walked -- without being charged or even questioned. In 1996, the former Commerce employee walked into a secure area, put classified files in a box, and then walked out the door. That former employee was Ira Sockowitz, then special general counsel at Commerce. Without authorization, he took 136 files, over 2,000 pages of highly classified materials, and simply walked away. The Sockowitz files include secret reports on cryptography from the NSA, a secret report on Russia from the CIA, secret cables from France, secret documents on U.S.-Russian space launches, even materials on U.S. efforts to purchase weapon's grade uranium from Russia. Sockowitz also had the complete biographies on foreign political leaders in Bosnia, Croatia, India, Turkey, and Russia. Chips has recently visited all these locales. Please get me a 'kitchen pass' like the one Queen Hornet appears to have gotten from her Lil Bro."

"Blabbermouth SWAN to Umbrella, Uncle Ray and Chips: "SES is preventing me from moving on Civil Case 3:07-cv-49. Per opinion of Mr. Ed I concur with Name Dropper's 'hit parade': Gorillawoman, LBB, AMEC, FCI and"

An ill-timed surging wave disrupted the signal to Chip's Clipper as he waded ashore at the Crab Shack not unlike the ill-timed divergence of Hurricane Katrina away from the pre-rigged levees that were blown early in the morning of the Franco-phonie and FCI multiple murders in New Orleans as the Arkancide Ace and Lafarge Barge navigator grinned like Cheshire Cats. It appeared that the 'show that must go on' would be canceled prior to Pearl Harbor Day, 2009 or Chips' real life name wasn't [redacted].

In addition to the incomplete transmission from SWAN to Umbrella, et. al., an immediate Clipper from Hawaii also bounced and would be late in reaching Chips' Clipper Squirt Gun:

http://blog.thismagazine.ca/archives/P__mugshot-gordon-campbell%20copy.jpg
<http://www.seeklogo.com/images/S/Scream-logo-797376756D-seeklogo.com.gif>
<http://minnesotansforglobalwarming.com/m4gw/2009/05/02/CapnTrade.jpg>
<http://media.canada.com/282673bf-1acf-417f-ac0c-192ad0df93e0/frontfamilygrieves.jpg>

“Blabbermouth Kamehameha Clipper Chips, Umbrella, Hamish and Marquis d'Cartier: Goldman Sachs investors have Gordon Campbell's nuts in a 350 vice; they've exposed him to snuff films from the Pickton pig farm, the contract hit of Wendy Ladner Beaudry and the threat of synchronized FC-KU bombing at Vancouver 2010. Maurice Strong, Al Gore and David Blood want a low carbon cap to support global genocide; 350 ppm justifies murder of rebels, credit-default fraud on B.C. pension funds and FC-KU depopulation of enemy states. Michel Beaudry knows they hit Wendy to keep her brother and Gordie on the 350 page. Pelosi mere et fils did the AirPatrol of Wendy crimes scene out of Baxter Place, Burnaby. RCMP has a tip line at 1-877-543-9217 or mhowell@vancourier.com Barack 'Teleprompter' Obama watched 1982 video documentary No Place to Hide: The Strategy and Tactics of Terrorism. He, Ayers and Dohrn want to overthrow the U.S. government with help of Cubans, Chinese, Russians, and North Vietnamese. They plan to "re-educate" Americans in camps like the communists did in Vietnam, Cambodia, Laos. They wanted to eliminate 25 million people in the centers; now closer to 350 million. Gore, Strong and Paulson have selected the 350 cap and have told Campbell and Obama they must deliver in Copenhagen. FC-KU women sent the Fort Hood SWAT teams through ADT Security and the Airpatrol – it was just a warm up to see how well they can take down a base with Mahmassani's crowd dynamics and the ADT mass notification kit. Fort Hood shooters identified as "soldiers."; one gunman is Major Malik Nadal Hasan, hired through Femme Comp Chantilly, Virginia, and Supermax Florence network after he converted to Islam and sealed his blood oath. QH's Senior Executive Service officers are spinning the dead guy as "primary shooter". Looks like Malik Nidal Hasan or Nidal Hasan attended “training in disaster and preventive [teleprompted] psychiatry” for a continuity of government exercise with QH's Charlies and SES Senate and House staffers, Department of

Homeland Security officials, Defense Department officials, and reporters for the London Times. Mahmassani's agents did the emergency siren sheperd shit with ADT mass not. S.E.S. officials told the base population of nearly 34,000 to take cover as they hunted for the gunmen. The base - the largest military installation in the world - was locked down [read paralyzed] and the ADT – FC-KU public address system sabotaged by teleprompting prisoners in Supermax thereby keeping the media from reporting on the thousands of Obama protesters at the US Capitol!!”

<http://www.youtube.com/watch?v=O6gEkfwozhE>
