## Chapter 2: Sharjah Gateway to a World Trade in Black Death IDs body and ring linking Rwanda, 9/11 and Kenya genocide to Hyde Park abortion

For early character development, see [http://captainsherlock.com/Chapter\\_25.html](http://captainsherlock.com/Chapter_25.html)

*Pastor Peter – Chips in the story – gets a new destination. Dancer tells him he is going to land at Sharjah. He has to ID a body that washed up near Dubai recently. Possibly a ‘Man Who Never Was’. Body carries a finger ring with a circle of snakes motif and documents linking Y2K Project to AXA/Paribas and the 9/11 Project. Documents link to 8(a) camera crews who recorded the mass killing of traders in the World Trade Center North Tower. After 9/11, world trade was rearranged to support a ‘Black Death’ life-insurance racket through the Sharjah Primary Gateway of the Thuraya network. Chips senses they (?) know that his team knows how they launder money through contract killing of re-insured black families, including men, women and infants and they are trying to place Hillary Clinton into the Secretary of State job to conceal 8(a)/ACORN diaspora death squads working anywhere from Rwanda, Congo and Kenya to the Hyde Park abortion mills. When Nano opened the casket for viewing, Chips saw that this wasn’t a man who never was. They now had a provable link between La Francophonie hit teams to a Le Cercle conspiracy to depopulate African and America’s ghetto communities of English-speaking mainly-Christian blacks. Chips wonders how come the Muslim nation of Kazakhstan was paying money to women to have more babies while the Global Guardians are forcing the US government to pay Christian mothers, more often black*

*mothers, to abort their children. Leaving Sharjah, lightning demonstrated His incredible power while a pair of J79 jet engines took father (Chips) and son (Stone Kohl) directly into the towering cumulus thunderhead and possibly Andrews or General Mitchell Field in Milwaukee on the next leg of the Pilot's mission. At that very moment a second clap of thunder and a bright flash preceded the sudden quiet-ness that stunned Stone.*

.....

As the technology began the descent of the EITAM, Chips looked up at the MDCU and saw that the 'bottom line' was DBX12L. Thinking that didn't remind him much of Istanbul's runway configuration he looked overhead at the triple-mixing ADIRUs and noticed the EITAM's present position was 26-15N and 055-22N, which was a position approximately 60 miles north of Dubai's International Airport; not Istanbul's. He was about to ask Moshe a question when the 'vibrate' function of his BDD11 alerted him to a message of immediate or higher priority. He excused himself from the cockpit and went to read the LED of the AQFB27I in the Comm/Nav suite of the Bonanno Double Decker. It was an 'immediate' from Dancer with copy to Nano al-Umina. "Chips, EITAM, north of Dubai 60 miles, go ahead Dancer".

"Chips, Nano is copied in. Are you aware in the change of destination?"

<http://www.lclark.edu/~krauss/computersf98/culturecapsules/imaiweb/Images/uae.map.gif>

"Dancer, I just noticed that according to the technology we are heading due south from a position about 60 miles North West of Dubai, go ahead".

<http://www.britposters.com/images/the%20man%20who%20never%20was%20320x240.jpg>

<http://www.international.gc.ca/franco/assets/images/franc.jpg>

<http://www.gcn.com/newspics/bmconnell.jpg>

"Yes, you are to land at Sharjah and there in SAIF you will be greeted by Nano who needs you to ID the body that washed up near Dubai recently. It may be a genuine dead whistleblower or a 'Man Who Never Was' to mislead us. Body carries a finger ring with a circle of snakes motif and some documents linking Brucey Baby and his Y2K Project at K Street with Dan Casey, the Information Technology Head at AXA/Paribas for the 9/11 Project. We checked the 8(a) database and found that Casey had helped stage the 9/11 snuff-film action with Thomas Barnett and Clinton-Rubin associates. The Naudet 8(a) camera crews recorded the mass killing of traders and rebels employed by Cantor Fitzgerald, eSpeed and CO2e.com on the top floors of the North Tower. Soros's Waste Management goons took away the evidence. Nadhmi Auchi did the dead-peasant life-insurance trades. Paribas did the same thing with the Thales guys in a contract hit to silence some Taiwanese Navy whistleblower. They have film of the poor guy's skull being smashed in – a warning to anyone else who might want to talk about the sale of the Lafayette frigates to Taiwan with an electronic backdoor to the Chinese PLA. Looks like BNP Paribas and Groupe AXA, its major shareholder, have been financing a 'Black Death' life-insurance racket through the Sharjah Primary Gateway which runs the entire Thuraya network and serves as the mobile satellite system's main digital exchange. The mort had a room reservation next to yours in the Dubai hotel. Looks like Paribas investors are getting nervous; they know that we know how they launder money through contract killing of re-insured black families, including men, women and infants. They are now trying to get Hillary Clinton into the Secretary of State job to cover up the dirty secret; how they hire ACORN diaspora death squads to work anywhere from Rwanda, Congo and Kenya to the Hyde Park abortion mills run by Michelle Obama. Check"

"Dancer, if Nano needs me in Dubai, why not land at DBX?"

"Chips, the EITAM may be difficult to explain to some people. Further, Moshe and Ramon are picking up some interesting EM and IR signatures around DBX, and thirdly there is an old friend of yours waiting to get you and Nano back to investigate the Black Death around Hyde Park, Chicago, ASAP as soon as your ID of the mort is completed. You last would have seen her in the summer of 1988 at the 30th Anniversary of the Phantom Airshow in London, Ontario, capeche?"

"Was it the blond 27 year old who had recently left Tomoye due to distrust of heterosexuals endemic in the Gatineau and Washington offices?"

"No, but that is an interesting side-note that you must elaborate on sometime. Think of the 30 F4 Phantoms on the ramp that day. Only one was from outside the USA, can you recall which country it came from?"

"Dancer, you're a little rusty on the Ontario Airshow, there were actually 33 F4 Phantoms including me and aircraft 64-0970 which was Schlenker's jet. The black playboy F4 was there from Pt. Mugu but the only foreign phantom was an Egyptian F4 that had heavy maintenance performed in St. Louis at the McDonnell Plant, which now of course is McDonnell Douglas or in its current permutation; Boeing. And of course hopefully by now Boeing's CEO and Legal Counsel, along with ALPA's PR guy Peter understand that Boeings can be droned and in fact there is a whole fleet of QF4s, droned Phantoms, in New Mexico, capeche? Boeing has been droning things since the Q7, MB47, QB47, PQM102, QF4 and the things that smacked the Twin Towers on 9-11."

"Chips, the old friend waiting for you is painted with an Egyptian paint job but you will quickly determine who owns it. Also, you may recognize the Crew Chief. Moshe indicates Sharjah chocks in 6 minutes, Dancer Out".

"Nano copies, Nano out".

"Chips out".

As Chips backed out of the AQFB27I suite project and moved back to the cockpit he felt the landing gear being dropped on G550 platform known as the EITAM. As he knelt between Moshe and Ramon they pointed at an open hangar that had an F4 Phantom parked in front of it. Ramon also pointed at a console that was well lit up and he mentioned that UAE, US and Iranian Air Forces ground intercept controllers had been watching their progress for the last hour or so after they had aborted the flight to Istanbul

and diverted to Sharjah. Chips noticed the Defensive Systems Operator looked very relaxed.

Having not been to Sharjah since mid-July, 1988 Chips was impressed to see the growth that had taken place in the last 20 years. A plethora of red and white Air Arabia Airbus jets indicated that business was quite good at Sharjah but Chips wondered how good business might be with oil at \$50 a barrel. When Chips had been there in 1988 in response to the downing of an Iranian Airlines Flight 655 it had seemed just a sleepy little airport out in the desert. As the EITAM was parked alongside the apparent Egyptian F4, Chips recognized the Crew Chief assigned to the Phantom and he noticed the "64-0972" painted under the tail-flash. Nice touch, he smiled, knowing that the real 64-0972 from which he downed a PQM102 at Tyndall AFB, Florida in April, 1982, was suspended on a pole at the main gate of the North Dakota ANG Base in Fargo. He really enjoyed the humor of the Israelis, a humor they could only display to others who supported their goal of survival. Knowing Israel was the apple of God's eye Chips was certain Israel would survive.

As the EITAM's engines were stopcocked a DHL Van pulled up with Homi and Dyke in the front. From the rear of the van Nano stepped out and was joined by Stone whose assistant Crew Chief was adding external power to the F4. As Swany prepped the Phantom, Nano and Stone led Chips back to the DHL van where a casket was riding. As Nano opened the casket for viewing, Chips nodded his head, pointed to an unusual ring on the right ring finger and a missing portion of the left index finger and gave a thumbs up. This wasn't a man who never was; this was the real McCoy. They now had a link between La Francophonie hit teams to Le Cercle conspiracy to depopulate Africa and America's ghetto communities of English-speaking Christian blacks. Nano nodded and reclosed the casket. Nano and Chips signed a medical form from the Abu Dhabi Medical Examiner and Homi hit the road in the DHL van to carry the BDD11 Double Decker back to the morgue in Abu Dhabi. Moshe motioned for Chips to come back to the EITAM and as he reboarded the G550 platform, Ramon handed him two orange flight suits. As he removed his civilian clothing he noticed Stone was wearing boxer shorts in a green and blue plaid pattern. "How Irish, Stone".

"Scottish, actually", quipped Stone pulling on his orange nomex flight suit to reveal "Smoke, Happy Hooligans" on the name tag. Looking down at his own tag he noticed "Plunger, Happy Hooligans" and realized someone had done their homework. As Nano sat down in the forward cabin of the EITAM, Chips asked him where he was going.

Before Nano could answer, Moshe responded "Nano is going to Andrews with Uncle Ben and us and will be 'hawking' you all the way across". As Ramon handed Chips and Stone a pair of flights plans marked "HC-1122" Nano handed Chips a thick Intel packet from Dancer and Hamish.

Chips responded "Well it's starting to look like a family reunion; the only one missing is Hamish". At that point a Super Puma helo landed next to the F4 and Ramon said "You are now being corrected, Hamish is aboard the Puma with Uncle Ben and they also are bound for Andrews, along with a certain gentleman from Jackson Hole, capeche?"

As the fuel truck was finished refueling the EITAM, Hamish walked in and handed Chips an update to the Dancer/Hamish file as Moshe handed Chips a reminder on paper. The paper said "DBX 295/125-260-Upset 51/zipper" whereupon Chips glanced at his flight plan, HC1122, and noticed his jet was only fueled to 8000# which was in deference to the warm runway temps at Sharjah. It appeared that Upset 51 would be 125 miles west north west of Dubai at 26,000 feet ready to refuel HC1122 during radio silence.

Swany walked up and indicated to Chips and Stone it was rodeo time so a quick handshake all around and the EITAM was buttoned up as the #2 engine came to life. As Swany helped strap Chips and Stone into their seats, Chips had Swany switch their helmets after the EITAM had taxiied away and had the tailpipes pointed at the Phantom. As Stone and Chips checked the intercom system, Stone asked "Why the helmet swap dad?"

"Stone, that way when we rejoin EITAM after the refueling they will think you are in the front seat; you see they know that my helmet is red and yours is blue so when they see the blue helmet in the front cockpit, they will be 'Mind-Boxed' into thinking you are in front, capeche?" As the canopies were dropped the starboard J79 was lighting off followed moments later by the port engine. Swany had given the INS a BATH alignment so Stone said "cleared prim-sync" and Chips flashed the taxi light whereupon Swany pulled the chocks and waved them off. As Stone read the checklist, Chips taxied for takeoff and approaching the hold short watched EITAM perform a very impressive departure. Stone could almost feel 'airshow' coming back into his father's mindset. Just prior to calling tower for takeoff a Clipper came into the IDF Phantom's cockpit from Dancer on a relay from Ramon. "Airspace sanitized, see you at the tanker, EITAM". Stone acknowledged to Dancer knowing Dancer would relay to EITAM.

"Hotel Charlie 1122, cleared for takeoff, climb unrestricted to 260, cleared on course direct Upset".

Chips responded by lighting the burners of the J79s and responded "Roger" as the light F4 was reaching NWLO speed and rotating. A vertical check turn and a smooth rotation to 60 degrees nose up as the airspeed was accelerating through 350 knots. As his fuel gauge hit 5500# Chips transmitted on EITAM's discrete freq, "turn the tanker". At that point Upset 51 left the anchor at DBX 295/125 and heading 115 degrees at .84 mach to put the Phantom on the boom faster. With tanker and receiver heading straight towards each other with 1600 mph closure, Chips told Stone "watch for the tanker to start a left turn at 11 miles". Level at 260 he turned on the auto pilot and mentioned to Stone "I've got to do a little reading; you can watch the autopilot fly or kick it off, your choice".

As the autopilot was kicked off, the Phantom PIOed briefly and then settled on a bee line for the air refueling rendezvous. As Chips scanned briefly the update to the Dancer/Hamish file he wrote down key words on his kneeboard scratchpad: PBA, MDA, HC-X2, AXA, FAF, IDF, FMfm, SBA, Gamble and Sanger, UCH, Clinton Reubens. He was becoming a 'quick study' on the abortion plans of HC when "turn the tanker" coming over the UHF caused him put down his pencil and look out the windshield. He saw a KC135 in a left turn at 26 degrees left, 13 miles and said to Stone "Nice job Stone, I've got the jet. Turn off any spooky emitters you may have fired up and lower your seat". He looked at this IDF console and could see EITAM had shutdown their IAI Phalcon so he knew they were 'visual' with Upset 51 also. As Chips maneuvered the F4 into pre-contact position, the boom was coming down and a double flash of the AR lights encouraged Chips to open the AR door and move into contact position. Stabilizing in contact, he felt the hookup complete on the first 'stab'. He looked at the AR indicator and his fuel quantity indicator and he saw that he was taking fuel as the totalizer passed 4000#. Because HC1122 was a 'three bagger' he knew they'd be on the boom a while so he started talking to Stone on Hot Mic.

"Stone, do you see what I see?"

"Dad, do you mean the boomer?"

"Exactly, this Milwaukee guard unit must have some smooth recruiters" responded Chips as a female young enough to be a college cheerleader was so good and so comfortable she had indicated visually 'override' meaning Chips didn't have to work as hard as the 3 bagger hung on the boom taking on approximately 18,000# of fuel or a little more, as the power was constantly coming up as the gross weight was increasing. After a few minutes the lady boomer made a sipping signal and Chips saw that all tanks were full. He nodded in a 'yes' motion and she dipped her head twice and disconnected the boom on the third nod. As the boom was stowed she gave a thumbs up and pointed up and to Chip's right. Looking up at the right wing he saw the EITAM and as she waved bye-bye, Chips positioned the F4 to the right of the Israeli jet, in echelon, and clicked his mic twice. The EITAM increased power, turned 10 degrees to the right and started climbing to FL340 to allow the fat F4 to burn down the three external tanks. As the KC135 turned to recover at PSAB, the co-pilot said "Hey Plunger, Scotty G says hi".

"Thanks Upset, tell Scotty to come back to visit in Fargo soon, Narc and Plunger will buy him dinner". Narc had been an F4 WSO in Fargo from 1977 to 1990 prior to his reassignment, by DEA, to Lahore, Pakistan where he distinguished himself by putting the cuffs on Ramzi Yousef, the alleged mastermind of the 1993 WTC bombing that AG Mukasey attributed to a 'blind sheikh'.

The EITAMs rudder cycled back and forth and Chips clicked his Mic so Ramon would know they'd drop back a bit and relax. "Stone, you've got the jet, keep him in sight, don't hit him and I have to make a Clipper call on "2". As Stone wiggled the stick to indicate he had the aircraft, Chips selected 311.0 on the Clipper UHF.

"Dancer Hamish, Chips, how copy?"

"Dancer"

"Hamish"

"Hamish, I sped read the addendum and I think I have a rudimentary understanding of the big picture. I'm recording on the second hack. Hack, hack. My feeling is that PBA is your signal for Partial Birth Abortion. The MDA strikes me as McDonald Dettwiler and Associates who operates the MindBox facility for Paribas clients, including Auchi, to capitalize on the partial birth abortion epidemic that is affecting the black community at three times the impact on the non-black community, effectively like a scythe cutting down 25% of the natural reproduction potential of the black community. I am somewhat puzzled at HC-2X but we can get back to that at the end. AXA is most likely the re-insurance providers who leaders Claude Bebear and Henry Castries were 'interviewed' by the French government for some 'irregularities' in the insurance business there in France. FAF is probably not 'final approach fix' but more likely the French American Foundation which WJC, HC, Generals Jim Jones and Wesley Clarke had dabbled with. Question is, is there a link to Lafarge and FAF? I believe IDF indicates the Mossad and IDF are helping Abel Danger watch the FAF to see how they might be manipulating Fannie Mae, SBA and Freddie Mac. Sanger and Gamble I presume is the Sanger woman who helped create Planned Parenthood and Gamble must be the bonehead from Proctor and Gamble who in 1939 suggested:

*"In November 1939, Clarence Gamble (of Procter & Gamble) wrote a memorandum entitled "Suggestions for the Negro Project" in which he suggested black leaders "be placed in positions where it would appear they were in charge" .. Yet Sanger's reply reflects Gamble's ambivalence about having blacks in authoritative positions: I note that you doubt it worthwhile to employ a full-time Negro physician. It seems to me from my experience ... that, while the colored Negroes have great respect for white doctors, they can get closer to their own members and more or less lay their cards on the table, which means their ignorance, superstitions and doubts. They do not do this with white people and if we can train the Negro doctor at the clinic, he can go among them with enthusiasm and ... knowledge, which ... will have far-reaching results among the colored people .. Sanger knew blacks were religious people—and how useful ministers*

*would be to her project. She wrote in the same letter: The minister's work is also important and he should be trained, perhaps by the Federation as to our ideals and the goal that we hope to reach. We do not want word to go out that we want to exterminate the Negro population, and the minister is the man who can straighten out that idea if it ever occurs to any of their more rebellious members"*

<http://www.blackgenocide.org/negro03.html>

"Assuming I have much of it correct could you please explain HC-2X as well as the final clue, UCH?"

"Chips, we will go item by item. HC-2X is Hillary. She would be wise to pursue the Secretary of State position because that way she would have 2 chances to become VPOTUS or POTUS. If, assuming the Abortion Party wins, the supposed VP were to become unable to serve such as a Vince Foster moment, the President would appoint a new VPOTUS, perhaps HC. If the Global Guardians couldn't get the real VP to drink the James Jones kool-aid, then as Secretary of State she'd be 3rd in line to succeed Mr. Biden who has sufficient medical downside already that a case of Arkancide may befall him. As you know, the succession of power from the President on down is:

- 1) VP
- 2) Speaker of the House
- 3) President pro tempore of the Senate
- 4) Secretary of State

"Obviously, the Speaker of the House and the President pro-tem would not want to become Arkancide bait by standing in Hillary's way, capeche?"

"Chips, UCH is for University of Chicago's Hospital which paid Michelle Obama \$350K to become Auntie Thomasina to you know whose Uncle Tom.

"Okay Hamish, I understand all except Clinton Rubins, is that in reference to the random selection of two surnames from a Philadelphia phone book as reported?"

"Negative Chips, that was a reminder that a lot of our Intel is coming from Clinton Reubens, the Army Guard intel chief at the Illinois Army Guard Headquarters. Clinton is married to the sister of your flight attendant's mother, remember? He and his Muslim wife have 5 children, live near Hyde Park, and he is anxious to meet you for a face to face regarding Sidley Austin, Boeing and some other "offices of interest" within a Crown Vic ride to Cook County Jail".

"Hamish, thanks for the briefing, I think I understand it. I spoke with a fellow just two days ago, on September 30th, at the Line Brew Restaurant in Astana, Kazakhstan and he mentioned some supporting intel items. Apparently in the November issue of "Exclusive" magazine, published in Kazakhstan, there will be a story written by Rasul Jumaly with the title "Elections in USA: Too Serious Task To Trust It To Americans". How is it that half a world away folks in Kazakhstan understand who elects presidents in

the USA and at the same time the population of America doesn't realize their elections are 'controlled' ? And I might add that I find it odd that the nation of Kazakhstan is paying money to women to have more babies while the Global Guardians are forcing the US government to pay mothers, more often black mothers, to abort their children."

"Chips, I would remind you of the tenets of the 'Banker's Manifesto of 1892 including false 2 party system and poor public education, not to mention the facility for banks and judges to foreclose fraudulently on homes".

"Hamish, you are singing to the choir on that one. Remember I did a Chapter 20 with Judge O'Brien of the Minnesota Bankruptcy Court on May 27, 2003 where precisely that scenario was demonstrated. A corrupt bank using a corrupt pair of corrupt – pardon the redundancy – attorneys coerced the Judge in forcing me off my family farm....."

"Chips must be a bad connection. I heard you say Chapter 20, did you mean Chapter 12, Bankruptcy of Family Farmers".

"Negative Hamish, I meant Chapter 20. That is were the extorted Courts deny a Chapter 13 plan so the banks are protected and then turn around and 'suggest' the taxpayer file a Chapter 7 plan so that the filer reduces his debt, but the mortgage banker's don't get adjusted into a lower interest rate. In my case the Denial of the Chapter 13 was a Fraud and the Judge knew it at the time and he also knew I knew it at the time. He was nervous."

*THE BANKERS' MANIFESTO OF 1934 Capital must protect itself in every way, through combination and through legislation. Debts must be collected and loans and mortgages foreclosed as soon as possible. When through a process of law, the common people have lost their homes, they will be more tractable and more easily governed by the strong arm of the law applied by the central power of wealth, under control of leading financiers. People without homes will not quarrel with their leaders. This is well known among our principle men now engaged in forming an IMPERIALISM of capital to govern the world. By dividing the people we can get them to expend their energies in fighting over questions of no importance to us except as teachers of the common herd. Thus by discrete action we can secure for ourselves what has been generally planned and successfully accomplished.*

"Chips, apparently you missed the part of their plan where 'people without homes will not quarrel with their leaders".

"Hamish, unfortunately the Manifesto goes on to suggest that when their plans are so far advanced that they can 'go public' as in put the USA into Martial Law or into a new governance such as the widely rumored NWO that 'we, the people', will be powerless to save ourselves. They, with the Election of 2008, have overplayed their hand. While Fannie Mae has been foreclosing on poor people and killing their babies off, they have failed to consider God's view of them as expressed in Jeremiah 5:26-31 ..

*“26 Among my people are wicked men who lie in wait like men who snare birds and like those who set traps to catch men. 27 As a cage is full of birds, so are their houses full of deceit: therefore they are become great, and waxen rich. 28 They are waxen fat, they shine: yea, they overpass in deeds of wickedness: they plead not the cause, the cause of the fatherless, that they should prosper; and the right of the needy do they not judge. 29 Shall I not punish them for these things? declares the LORD, and shall I not avenge myself on a nation such as this?” 30 A wonderful and horrible thing is come to pass in the land; 31 The prophets prophesy falsely, and the priests bear rule by their means; and my people love to have it so: and what will ye do in the end thereof?”*

"While the Global Guardians think all of us 'sheeple' are asleep at the switch and not ready to quarrel, God himself may be about ready to reveal his own hand in this".

At that very moment a pair of lightening bolts was clearly visible as they discharged His incredible power with a sound that was audible even to Chips and Stone who were sitting astride a pair of J79 jet engines. Looking at the thundercloud not 10 miles north of their track, Chips transmitted "Carwash" to EITAM and, having turned off his transponder lit the afterburners and climbed directly into the towering cumulus thunderhead, knowing there would be no airliners inside the storm.

"Nice move Dad, why are we doing this?" asked Stone from the back seat as heavy rain pelted the F4 in a way that would make the uninitiated nervous".

"Stone, when we were at Sharjah, the jet was painted in Egyptian motif. The briefing card had a "carwash" note down towards the bottom, look at your kneeboard. This heavy rain is just what the Doctor ordered to remove the 'water soluble' outer layer of paint and reveal the real paint beneath it. After all, whether we land at Andrews or General Mitchell Field in Milwaukee, we will get a lot less attention if we don't look "Arabesque". Remember, a majority of Americans still think the Muslims did 9/11 and they never knew Yassar Arafat was not a Palestinian, capeche?"

At that very moment a second clap of thunder and a bright flash preceded the sudden quiet-ness that stunned Stone.
