Chapter 3

Condi-Clinton's USAID for undead mums and unborn babes India violates Soros CO2, abortion quotas – Punishment due Thanksgiving Day

For early character development, see http://captainsherlock.com/Chapter_25.html

Pastor Peter – Chips in the story – switches destinations. Logistics has Chips and Stone headed towards Andrews AFB over the coast of the outer shore just north of Accomac, Virginia. Heifer greeted them and turned the 3 minute briefing over to Hamish who used these flashcards leaving detail in the packages a) Ann Soetero, Barry Soetero using Women's World Banking and USAID microloans to extort poor mothers to abort babies or recruit sons for 'al-Qaeda' suicides in 1980s b) Clinton-Rubin and Soros pay mothers of 'suicidaires saboteurs' through Paribas bank and Mindbox 8(a) microloans in 1990s. Clients use Auchy / BNP Paribas to pay families of suicide bombers \$15,000, "ordinary" gets \$10,000 and "quality" suicide up to \$25,000. c) USAID's Egypt, Iraq, India etc. field agents use Boeing Iridium / Thuraya satphones to bypass first responders (c.f. 343 insured firefighters ambushed in 9/11 attacks on NYC) d) Clinton-Rubin extort Wal-Mart,

*General Electric, Exelon in Soros's CO2 scam e) Michael Owen warns Indian government and business leaders at 2006 meeting at Taj Lands End Hotel that Soros's CO2-pollutant and family-planning goals are not negotiable f) Condi-Clinton destroy USAID Tobias and Pentagon's shock and awe Ullman; client list of DC Madam sex services; 8(a) hits on Palfrey (fake suicide) and CIA's Carnaby. g) India failing to meet Soros's AIDS, abortion, family-planning quotas. Condi-Clinton plan USAID punishment; suicide mothers paid via KPMG, AXA/BNP Paribas, Mumbai. h) ... As Hamish was about to brief item 'h' he saw the helicopter aircraft commander turn around and he realized the 3 minutes was up. Later, Chips saw the text **h.) Condi-Clinton-Rubin will use USAID micro-loan and satellite-communication networks to hire, coordinate and pay 8(a) Acorn contract killers to execute pre-insured targets in Mumbai raid scheduled for U.S. Thanksgiving Day Thursday, November 26th.** Badger conclude ominously "If you can't stop the Mumbai attacks you will have to follow kickbacks of victim life-insurance policies paid to 8(a) killers through the KPMG virtual war rooms operated by USAID in Canada, Quebec and K-Street Washington. Neutralize these offices and you decapitate the beast. Badger (Qinetiq-MI5) Out." The HMX1 got airborne, made a beeline for Dulles International Airport. Heifer handed Chips a first class boarding pass and the passenger beside him removes a wig and a mask and he realizes his seatmate in 2A was not Heifer at all and he was thankful that he spoke Urdu, Gondi and Farsi.*

.....

As Chips guided the F4 out of the top of the thunderstorm he rolled it inverted and 'sliced back' to his right to rejoin in formation with the EITAM. He spoke to his son about the eerie silence in the Phantom's cockpit. "Stone, it got real quiet because the air conditioning system couldn't handle the rapid increase in moisture inside the thunderstorm so ice formed in the system. However, I have selected 'manual hot and full forward' on the cabin pressure temperature controller and you can expect a sudden increase in airflow and hot air very soon. I will kill the heat once we have the airflow re-established, capeche?"

"No sweat Dad, I thought it was great. And as far as tolerating the 'heat' I'd rather be in a Phantom with you than be a Clinton-Rubin's principal with you in an incorruptible courtroom" responded the soon to be sweaty Stone Kohl. As the surge of air brought forth a pelting of small ice particles and the aforementioned hot air, the pressure and flow stabilized and comfort was restored.

"Ramon, BDA check for 'Pharoah's Phantom please" asked Chips as he put the F4 on the right wing of the EITAM.

"Mission accomplished Chips, Pharoah paint all gone and NX749CF has replaced 64-0970 as the registration". Ramon's comments indicated in its current paint the F4 now looked like the Collins Foundation F4 that operates out of Houston, Texas.

"Did you guys have the courtesy of putting Pastor Peter or Chips on the forward canopy rails?"

"Negative Chips, the front says 'Capt Ritchie' and the back says 'Capt DeBellevue' " responded Ramon from the comfort of the EITAM's right seat. As that message was relayed Hamish leaned forward into the cockpit and waved his Clipper Sherlock Pipe in the right-side cockpit window. Seeing Hamish's stern look Chips backed out into 'fighting wing' formation and turned the F4 over to Stone with the same instructions as before. As Stone took control of the F4 from the aft cockpit an 'immediate' Clipper call was announced on Chip's radar screen.

"Chips, 30 West, secure, go ahead Dancer".

http://lh6.ggpht.com/_o3IzrakxI8A/RkZGFWd-0qI/AAAAAAAAABYc/_KXAR_2urto/DSCN0034.JPG

"Chips, you will get this from EITAM in printed format in 2 minutes but your mission is changed. Rather than drop EITAM at the marker for Andrews AFB you are to land with Moshe and go to the 4th Special Missions Wing hangar. There Dirtball will take the Phantom to Milwaukee with Stone and you will join Marshal Tucker for a quick trip to Amsterdam. Something big just became known and you and I will be counseling with Badger and Spanner. More details to follow, the AMS briefing will take place at "The Balls" or the "The Bubbles" and will be short, very short. You have a trip to your favorite shopping center in your future as "Operation Kittyhawk" is rolled out." Dancer obviously had much more to say if she was leaving Tel Aviv to have a beer at the Bubbles or Balls in the Schiphol Airport. A very light vibration was felt near Chip's right elbow and he looked down at the Airbus printer the Israelis had put in the AQFB271 C&C suite of the Phantom. Chips could see the routing of the message was 'Moshe-Chips' with 5 CCs.

"Roger that Dancer, message coming now. See you at the Bubbles or Balls, please wear something colorful that doesn't clash with yellow or pink". Dancer understood that the rendezvous would now be at the "Balls" regardless of any future messages indicating "Bubbles".

As Chips looked down at the printer, he saw the green light blink twice indicating a full message had been received and printed. He turned his microphone on the 'hot mic' and mentioned to Stone that he just got a message. As Stone kept the F4 in fighting wing Chips read:

"SEADS has just launched the 'Green Mountain Boys' to join EITAM and Pharoah at 38-30 North and 70 West. Upset 52 is loitering at 35 North and 45 West. Following AR with UPSET push it up to join Green Mountain Boys ASAP. EITAM full power authorized. HMX1 awaits at 4th Special Air Missions ramp. AMRAAM/Sidewinder only. EMCON AR. Do not reply." Chips saw that the message came from Langley AFB, Virginia and SEADS Combat Center simultaneously. He saw that the message was sent to the SOF at Det One, EITAM, himself, Moose and Dancer only. He was confident that UPSET 52 got a similar message regarding the silent refueling. As he finished reading the message he heard a single mic click on UHF and looked over at Moshe who was making a drinking motion with his right hand. Chips checked his fuel status and seeing that he had 5000# more than required he visually responded with an open hand showing 5 digits. EITAM also must have been in good shape fuel wise as the G550 platform accelerated noticeably and started a shallow decent from 39,000 feet. Stone hung in there with EITAM while Chips dialed his Clipper to Hamish and Dancer. The green LEDs blinked twice. "Hamish, Dancer Chips at 42 West".

"Hamish"

"Dancer"

"Unless you both disagree I suggest we swap out Marshall Tucker and replace with Heifer. Badger and Heifer should be in the boarding area at National awaiting the departure to Milwaukee in about 30 minutes. Marshall Tucker may agree to stand in for Heifer at the Free Concert with Clinton Reubens but I think Heifer would be a better fit for the Grolsch event in Amsterdam".

"Hamish concurs".

"Dancer concurs, consider it done. Heifer will be at the 4th SAM waiting for you for the HMX1 lift to Dulles. Dancer, out".

"Hamish out".

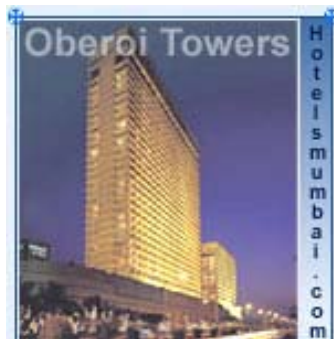

"Chips out". As the green LEDs faded slowly Chips slaved his Phantom's radar screen to EITAMs defensive sensor operators console. He saw UPSET 52 indicated at 135 miles, straight west.

"Ramon, Chips, turn the tanker". Ramon nodded in the right seat of the EITAM and Moshe adjusted course slightly to the right to achieve a 180 degree intercept.

"Stone, hold what you've got, I am getting another printout, this one from Hamish, watch for UPSET as we will be joined in 8 minutes, give me a wakeup call in 6 minutes if I am still reading".

"Roger that, Dad".

Chips waited for the 3 blinking lights to indicate all 3 pages have been successfully printed. He wished that Airbus would have made the print bigger but at least it was a great printer, even if he did have to put on his reading glasses again. He also knew that this Airbus printer didn't 'tattle' to the company dispatch centers such as the airline printers were required to in the interest of aviation safety. He wished that the FAA and USDOJ took airline safety as seriously as Quiet Rockland and HawksCAFE-Abel Danger. But then again, he might as well wish that pigs could fly.

<http://www.hotelsmumbai.com/images/new/oberoi-towers/oberoi-tower.jpg>

Chips, destination swap complete. We have "Sidley Austined" a message from GD and GCGA indicating that the 'usual suspects' are extorting either prospective winner of next month's election, most likely the fist-saluting abortionist. Regardless the outcome of the election, we have intercepted some notes regarding a diversion in India, more details at the Balls. Seems like the Condi-Clinton women running the Office of Population and Reproductive Health wish to make a statement regarding 'payback' for nations not in line with CO2 cutbacks or population edicts. Seems your sister's boss is in the cross hairs and is being forced to sell. USAID and / or Clinton Rubins potential suitors. Full briefing tomorrow at the Balls but mull over Soros's Project Phoenix, Oberoi Tower and Operation Kittyhawk. I will meet you in the HMX1 vehicle with a full printed briefing and Dancer has already provided a second copy to Heifer who is now enroute to KADW and the 4th SAM, Hamish. As Chips was mentally googling Project Phoenix, Oberoi Tower and Operation Kittyhawk he made an assumption. He was about ready to send his response to Hamish when he heard Moshe's voice over UHF "turn the tanker, fence check, emitters". As Ramon, Chips and the DSO aboard EITAM shutdown unnecessary emitters and safed the weapons, EITAM went directly to the boom as Stone flew to the right observation position.

Chips saw a brief spray from the AR boom as contact was made. Within 5 minutes Ramon gave the boomer a visual signal and the EITAM backed out and went up to the

left observation position as Stone offered the jet back to his Dad. "Go ahead Stone, you can do it I will just stay on hot mic and talk you through. But as you descend to precontact, turn your mirrors down so you don't get confused looking backwards while flying forwards...it is a common rookie mistake. I will lean left so you can look over my right shoulder." Chips could see Stone's ungloved hand lowering the mirrors and he could hear his breathing become more rapid. "Turn off you hot-mic Stone, your breathing will just make you nervous". Silence followed a click.

As Stone moved to pre-contact for his first time, he and his father both saw the AR lights blink twice. Stone moved slowly forward until the lights blinked a single. Stone stabilized the F4 and felt a thud as the boom made contact with the AR door 'jaws'. As the jaws gripped the boom, Chips gave an 'override' signal to the boomer and pointed over his left shoulder at Stone indicating to the boomer that the pilot in the aft cockpit was flying. Chips watched the fuel gauge and when they had received sufficient fuel he signaled to the boomer to disconnect. As the boom was withdrawn and stowed Chips said "Nice work Stone, I've closed the AR door and fuel is transferring so just go below and outside EITAM and join on his left wing". As the F4 repositioned in close fingertip on the left wing Chips could see Stone hang his mask on one clip and smile. He deserved to smile, he'd done a good job on his first ever hookup.

A message appeared in Chips radar screen "can we kiss off UPSET". Chips responded to Moshe, in the EITAM left seat. As the EITAM accelerated straight ahead of the tanker, Stone relaxed into fighting wing and an unknown transmitter said "Shalom and happy hunting". Two clicks of a UHF mic was the only response.

As the two ship achieved their 'run for the border' airspeed Stone said "I must be tired, the airplane seems a little mushy".

"It's not you or the jet Stone, look at the IMN". Stone looked down at the Indicated Mach number and saw it jumping all over in the range .93 to .96. "Moshe has that thing right up against the mach and as boundary air separates from various parts of or airfoils the jet will buck around a little. You're doing great so just back off a little, get loose and relax. I see another Dancer-gram is coming on the printer so keep EITAM in sight and call me if you need help." A pair of clicks on his mic indicated that Stone was figuring out how to communicate without communicating. Chips saws the end of message lights and picked up the printout from Dancer to Hamish and himself.

<http://politicalpartypoop.com/wp-content/uploads/2008/04/1ayers005.jpg>

http://farm1.static.flickr.com/249/454831949_7bd2c84cc3.jpg

“Mossad is picking up the Sidley Austin drumbeat now in their offices in the Metro as well as some field agents in a place with great chicken curry. Seems USAID and the Condi-Clintonistas are getting fairly sure of themselves and offices at 345 Park Avenue (KPMG-Bristol Squibb) and in One South Dearborn Street (Sidley Women linked to Michelle Obama and Bernardine Dohrn and AXA) in downtown Chicago are getting a little 'chatty'. US Congressional control of USAID foreign currency accounting has collapsed and that operations are being authorized for "local hiring and reduced reconciliations". The timing of this loosening of control indicates escalation now possible by Thanksgiving, when U.S. counter-intelligence services will be distracted from any USAID raid on by the biblical admonition *'Give thanks to the LORD, call on his name; make known among the nations what he has done'* Dancer out.”

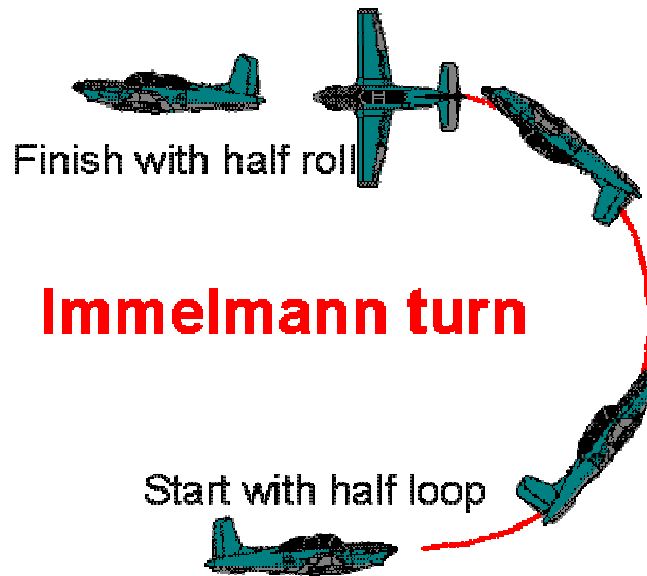

While digesting the implication of the brief message, he transmitted receipt to both Dancer and Hamish. He looked at the triple mixed GPS position and saw the two ship formation was approaching 68 degrees west. At the same time he heard the DSO transmit 'crickets' from the Defensive Console. Once again Chips slaved his radar to the EITAM DSO display and saw a two ship formation about 120 miles on the nose. He watched their radar tracks and determined they were in a north south CAP at FL370. Looking at the Honeywell Nav-set he saw that Stone had the F4 at precisely 31,000 feet. "Stone, in about 11 minutes expect to set a pair of F16s joining of the left side of EITAM. Before that happens make sure we are on the right side in close fingertip." Another pair of clicks indicated Stone was enjoying himself. Chips' clipper call light flashed and Chips responded "Chips, 68-15 West, make it brief".

For Chips to ask Dancer to make it brief was akin to asking the IDF to be ineffective but Dancer tried. "Chips, copy Hamish, Dirtball at 4th SAM, Heifer at 4th SAM, Spanner recalled to Amsterdam, Dancer boarding KLM in 4 hours. All set for Amsterdam, 4th SAM, and Milwaukee. Dancer, out".

"Hamish copies, out".

"Chips good copy, out".

"Dad, check nose high for two contrails".

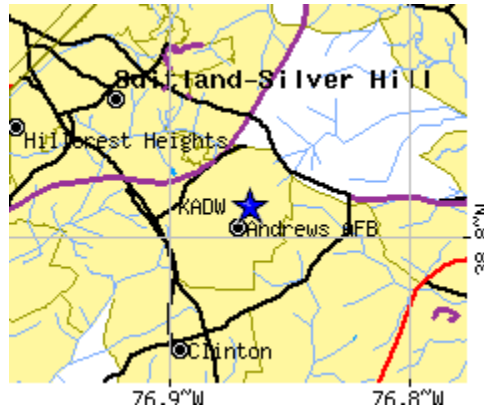

<http://img385.imageshack.us/img385/3874/mmelmannturncp9.gif>

"I see 'em Stone, watch for the contrails to vanish as they go inverted and begin their inverted Immelmans."

As Stone watched the Green Mountain Boys convert on EITAM flight he saw they crossed flight paths with each other and then joined in Tac spread with the leader to Moshe's left and Dash 2 6000 feet to the right of Pharaoh's Phantom. "Why the cross turns Dad?"

"Just a good habit, they were checking each other's six o'clock position, they must have a reason to believe someone else is out and about today. "

As Stone flew formation he heard a new voice on UHF say "Andrews Charlie". Stone saw that Ramon's head and his father's head each looked down at their briefing guides. As Chip's head came up he said "Andrews Charlie is the third option for the arrival at Andrews. Due to good weather and low traffic saturation we will be entering the overhead for Runway 01R and it looks like the Initial Point for the visual overhead pattern is at 1700 feet over 'Clinton'.

"Just a wild guess, but is there any chance that town is a twin city? You know a random pair of names from the Maryland phone book such as Clinton Rubins".

"Good headwork, Stone, but according to the briefing chart it is simply Clinton, and is south and west of intersecting highways. When we get to that point Andrews Charlie indicates we should be in echelon left with us in the lead, EITAM as dash 2 on the left and then Lethal Lady as #3 and Lady 2 as dash-last. The Lethal Lady is aircraft 83-1165 and has more time than any other F16, around 7000 hours. It will be fun to see who's driving. If you hear me say Doobie don't think of Willy Nelson or Skunk Baxter, capeche?"

"I understand dad".

At that point Lethal Lady visually passed the lead to EITAM as Lady 2 joined to Lethal Lady's left. Chips, of course, was thinking of two other lethal ladies who were in the cross hairs of Mossad and Abel Danger. Ramon, in the right seat of EITAM, passed the lead to Chips. Chips understood this was the time to come up on "Huntress control", 318.0, as they crossed the ADIZ. As he placed 318.0 in the UHF he told Stone on hot mic "I've got the jet" as he wiggled the stick. With his palm facing Ramon he 'pushed' the EITAM out into 'fighting wing' as he contacted Huntress on 318.0.

"Showtime check."

As EITAM, and the F16s responded "2,3,4" Chips mentioned to Stone "Showtime was Randy Cunningham and Driscoll's call sign in Vietnam, I thought it sounds better than 'Coors'" which was not wasted on Stone as he realized where Steve Ritchie found employment after the Air Force.

"Huntress, Showtime, 318.0, flight level 310 with 4, squawking 4321".

"Cleared direct to Clinton, maintain flight level 220 until feet dry, maintain 350 until Clinton, cleared single freq approach Andrews Charlie, switch to 349.4, monitor guard, welcome EITAM".

"Showtime, roger all, switch 349.4"

Three clicking mics responded and Showtime flight was now being watched by more than just Huntress and FAA radars. EITAM's DSO was picking up the signature of a NATO AWACS and a pair of CF18 radars. Chips checked the flight in as he started descending as they flew over the coast of the outer shore just north of Accomac, Virginia.

"Showtime".

"2, 3, 4" came the responses in three different voices, two sounding New England-ish and one sounding 'middle eastern'. Chips knew that Ramon was handling the radios as Moshe had learned to sound very western while working in Washington with 'Ben'.

"Andrews, Showtime, flight of 4, Andrews Charlie, code in Dash 2".

"Showtime, cleared Andrews Charlie, monitor guard, Clinton 30 right at 10 miles. Andrews monitoring" came the response from the Andrews command post, indicating that all of Andrews C was in effect and no more communications were necessary prior to landing. As Chips made a sweeping right turn to put Clinton on the nose at 5 miles, Stone noticed the flight was tightening up at his father rolled out on a 010 course, descended to 1700 feet MSL, and had the airspeed set at 450 knots. As Stone looked down the left wingline he saw the windshield of the EITAM and both F16 helmets forming a perfect line. Stone wondered what Moshe might have flown before that made him so 'steady'. Loose lips sink ships. As Stone pondered that question he heard a second flight checking in with the Command Post. "Andrews, Roach 05, point Clinton".

"Roger Roach 05, Andrews Charlie, Showtime and 'the code' in the overhead now.

As the unusual flight of four arrived overhead the 'numbers' of 01R at Andrews, Chips raised 5 fingers and broke hard to the right, adding power to maintain airspeed in the 4 G turn to downwind. The other aircraft took 5 second intervals and broke, with the F16s not pulling very hard as the EITAM wasn't stressed for the hard turns like the Phantom and Falcons were. Moshe did a very nice job, however and rolled out directly behind the F4 on downwind, with a pair of F16s at perfect intervals behind him. As Chips rolled into the groove he saw a green flash from the tower indicating he was cleared to land. As all 4 jets rolled out staggered on the centerline, a follow-me truck led the Phantom and the EITAM to the left and the 4th SAM while a second vehicle quietly led the F16s to the transient alert parking. As Chips turned towards his marshaller at the 4th SAM he saw HMX1 was idling as a Huey Cobra gunship hovered not far away. As the engines were shut down and canopies raised, aircrew stairs were hooked over the canopy rails and Chips and Stone egressed from the Phantom, after having exchanged helmets a second time. As Chips and Stone headed towards the EITAM Hamish followed while a Vice Presidential limousine approached the EITAM surrounded my men in sunglasses. Stone and Chips shook hands as Hamish and Chips were boarding the HMX1 helo. Heifer greeted them at the door and signaled '3' to the HAC in the right seat of the chopper indicating a 3 minute briefing would be sufficient. Hamish and Chips each got the full text as Heifer turned the verbal briefing over to Hamish.

"I have abbreviated with these flashcards; however it is all explained in great detail in the packages we all have. The eight, key briefing points are as follows:

- a) Ann Soetero, Barry Soetero using Women's World Banking and USAID microloans to extort poor mothers to abort babies or recruit sons for 'al-Qaeda' suicides in 1980s
- b) Clinton-Rubin and Soros pay mothers of 'suicidaires saboteurs' through Paribas bank and Mindbox 8(a) microloans in 1990s. Saddam uses Auchu/BNP Paribas to pay families of suicide bombers \$15,000, "ordinary" gets \$10,000 and "quality" suicide up to \$25,000.
- c) USAID's Egypt, Iraq, India etc. field agents use Boeing Iridium / Thuraya satphones to bypass first responders (c.f. 343 insured firefighters ambushed in 9/11 attacks on NYC)
- d) Clinton-Rubin extort Wal-Mart, General Electric, Exelon in Soros's CO2 scam
- e) Michael Owen warns Indian government and business leaders at 2006 meeting at Taj Lands End Hotel that Soros's CO2-pollutant and family-planning goals are not negotiable
- f) Condi-Clinton destroy USAID Tobias and Pentagon's shock and awe Ullman; client list of DC Madam sex services; 8(a) hits on Palfrey (fake suicide) and CIA's Carnaby.
- g) India failing to meet Soros's AIDS, abortion, family-planning quotas. Condi-Clinton plan USAID punishment; suicide mothers paid via KPMG, AXA/BNP Paribas, Mumbai.

While Hamish read out the flash cards, Chips was speed reading the detailed text ..

"Obama's mother, Stanley Ann Dunham Soetoro used micro-loans to develop [USAID](#) hit teams in Jakarta for radical women and in Pakistan for the [Asian Development Bank \(ADB\)](#) to build the al-Qaeda network with her son Barry Soetero. Soetoro worked in New York for [Women's World Banking](#). Condi-Clinton provable link between Francophonie hit teams and Le Cercle – Rockefeller / Auchu / Soros – conspiracy to depopulate Indian, African and America's ghetto communities of English-speaking mainly-Christian browns and blacks and mothers and children. Remember that in 1978, Congress directed the SBA to presume African Americans, Hispanics, and Native Americans were "socially disadvantaged." Clinton-Rubin later added Asian and Arab – al-Qaeda Americans, as a 'al-Qaeda' recruiting pool of dark-skinned immigrant groups. Clinton Rubin encouraged minority entrepreneurs to partner with white-owned businesses ("get yourself a black and get on board" One front, Wedtech, implicated members of Congress, White House aides, SBA officials, civil rights leaders and Clinton Rubin cronies in "an elaborate soap opera of crime" Clinton Whitewater scandal began with an illegal SBA-backed 8(a) loan to Susan McDougall, a millionaire who qualified as "disadvantaged" because she lived in the underprivileged state of Arkansas. Lester Crown of General Dynamics and Chicgo Council on Global Affairs - a front for the Office and Population and Reproductive Health housed in the Global Health Bureau in Washington – has partnered with two radical Condi-Clintonista women, esp. future First Lady Hyde Park abortionist Michelle Obama and the past First Lady White House abortion promoter, Hillary Clinton. Soros, Obama and Condi-Clinton are coordinating effort of USAID and the Clinton-Rubin MindBox Acorn program to finance pro-abortion agenda of the United Nations Population Fund. Iraq used Auchu's BNP Paribas to pay families of suicide bombers \$15,000, whereas "ordinary" martyrs got \$10,000, later upped the price for a

"quality" suicide operation to \$25,000. Clipper chatter indicates a coordinated Phoenix attack on Mumbai. USAID used microcredit to pay Acorn enforcers to abort pregnancies and spread HIV/AIDS to kill mothers and children with Clintonistas' tainted prison blood. Congressional control of USAID foreign currency assets and liabilities has collapsed. Condi-Clintons use local bank balances to hire hit teams and hide transaction information in Phoenix by not completing required reconciliations. General Dynamics using Infocom Technology, SBA-HUBZone certified small business and Brucey Baby's electronic signatures and encryption security to conceal MindBox loans for Condi-Clinton 8(a) hit teams in Egypt and the Thuraya 3 footprint for planned Mumbai attack. Contract number DAGG80-00-0-0046 with US Army Missile Defense Command (AMDC). 80 Ward St, 2nd Floor PO Box 3092 Paterson, NJ 07509 Tel: (973)247 0400. USAID field workers in Egypt, Iraq and India using Iridium and Thuraya phones to bypass telecommunications of first responders – same techniques on 9/11. Soros and Clinton-Rubin threat to national defense in the sovereign state. Condi-Clinton's USAID and Obamas want to punish Indian government for failing to reach abortion rates demanded by USAID. Clinton-Rubin 8(a) / ACORN is extorting General Electric, Wal-Mart, Duke Energy, and Exelon. Michael Owen, U.S. Consul General at Taj Lands End Hotel, Mumbai November 02, 2006 after Green Business Summit 2005 in Hyderabad warned Indian government officials they had to work with U.S. Agency for International Development (USAID), the CII-Green Business Center (GBC) and the World Resources Institute (WRI) to join the forty Fortune 500 companies and support mandatory federal regulation of greenhouse gases and Condi-Clinton's racketeering links to the Chicago Climate Exchange. Condi-Clintons destroyed Randall Tobias in the high-priced call-girl ring, run by the so-called D.C. Madam. Tobias father of Clipper chip, later director of U.S. foreign assistance and administrator for USAID and Development coordinator of global AIDS relief. Condi-Clinton also destroyed Ullman who was about to blow whistle on Soros use of 8(a) military "shock and awe" techniques on 9/11. Clinton Rubin LLC acquired McConnell International in October to secure Soros access to Department of Homeland Security, Department of Treasury and USAID microloans needed to launch SBA's 8(a) indigenous and diaspora hit teams at all targeted countries deemed to fail in family planning such as India."

h) As Hamish was about to brief Chips on item 'h', he saw the helicopter aircraft commander turn around and he realized the 3 minutes was up

Stone arrived at the helo door just as Hamish was leaving with a sense of urgency. In his left hand he clutched a handwritten message from MI6 that Heifer had delivered for her husband Badger who was in Milwaukee waiting to board a flight to Minneapolis and on to Amsterdam. As the downwash from the rotors of HMX1s helo blew horizontally, Hamish grimaced as he showed the message to Stone. At that moment the boom-boom of the Green Mountain Boys departing Andrews to return to Langley AFB's Alert Det One took their breath away.

When they had recovered their breath, the note, written in longhand, with some faxed images, gave Hamish the summary briefing in red and then the detail of h. followed.

http://www.state.gov/cms_images/2006_01_19_rice_usaid-05_600.jpg

<http://dreamjobs.in/images/Bharti%20AXA%20life.gif>

http://www.daijiworld.com/images1/firing_112708_mum-21.jpg

h. Condi-Clinton-Rubin will use USAID micro-loan and satellite-communication networks to hire, coordinate and pay 8(a) Acorn contract killer to execute pre-insured targets in Mumbai raid scheduled for Thanksgiving Day Thursday, November 26th.

*Targets include hotels, hospital, train station, movie theater and other buildings in Mumbai. Focus on Americans, Britons and Orthodox Jews at Chabad Lubavitch, particularly fathers, mothers and children. Plan attack from the sea about 9 p.m.; mother boat laden with explosives. Reminder: Secretary of State Condoleezza Rice United States Agency for International Development (USAID) speech July 14, 2008 “9/11 Commission called for United States to use of all elements of national power: diplomacy, intelligence, **covert action**, law enforcement, economic policy, foreign aid, public policy, and homeland defense”. Reminder: Pentagon shut Able Danger project down before Bush Administration took power in 2001. Defense Intelligence Agency using project's data-mining technology to investigate other national security threats in addition to al-Qaeda cells detected inside the U.S. Able Danger shut down after China analysis which tagged Rice and her associations at Stanford to Chinese leaders. Able Danger also named other former government official including Clinton Rubin LLC associates in K Street. Reminder: USAID low interest micro-loans to small businesses in late 1980s; 1.3 million such loans worth a total of \$600 million to more than 240,000 borrowers - mostly desperate women – many radical lesbians and Marxists. Double number of borrowers to 600,000 by 2007 and triple the value of active loans to \$160 million for radical feminists to overthrow the United States. USAID offices moved to Baghdad. USAID agents use Iridium and Thuraya phones exclusively to bypass telecommunications of first responders, international assistance community, and Iraqi political apparatus. Liinks back to Michelle Obama and Boeing and General Dynamics C4 at Chicago Council on Global Affairs. DoD head up its ass, thinks this is just a military issue. Reminder: USAID acquisition folks now partner ‘Queen Hornet’s’ U.S. Small Business Administration to expedite award of 8(a) contracts to kill. SBA and POTUS 43 unwittingly delegated hit authority to USAID Contracting Officers and Executive Officers including Condoleezza Rice on 04/16/2007 and Hillary to come. Warning: Mumbai’s Maharashtra Anti-Terrorism Squad (ATS) chief, Hemant Karkare, is a priority target to be shot by insider. Karkare has become Condi-Clinton enemy number 1 because he has solved serial bomb blasts in Thane, Vashi and Panvel and the September 29 blast in Malegaon. Karkare suspects USAID is running 8(a) spoliation teams in India a la Soros’s Waste*

Management Inc in U.S. for the Altgeld Gardens abortion clinics. Condi-Clinton commanders plan to blow up Karkare's residence with wife and kids inside. Taj Hotel GM Karambir Kang and his wife and their two children will also be targets for Condi-Clinton 8(a) SWAT Teams. They are false flagging attack with threats relayed through the Indian Muhajedeen. Qinetiq-MI5 agents think USAID will screw up the Mumbai attack because Condi-Clinton will use a different partition of Queen Hornet's Oracle 8(a) – al-Qaeda – database i.e. they will use SWAT teams from the U.K.'s East Indian community. The Mumbai attack signature will be different and therefore obviously not what the sheeple have been taught to expect from Al Qaeda. There will be no suicide bombers, no fingerprints of Lashkar-e-Taiba and no or little hostage taking. Remember al Qaeda always does suicide attacks and the Brits want to fight it out. Attacks will be tactical, sophisticated and coordinated and Condi-Clinton USAID and Chairman Moe's 1968 CIDA. Qinetiq-MI5 agents say that Ulfa, Kashmir and Naxalite militants – all paid by USAID – are using Thuraya satellite phones. Watch out for a hijacked fishing boat with satellite phones & gps and cell phone with foreign SIM. Check out dead-peasant life insurance laundered by KPMG through Bharti AXA General Insurance at following addresses "Mumbai : Bharti AXA General Insurance Co. Ltd., 2nd Floor, Botawala Chambers, PM Mehta Road, Fort, Mumbai-400 001 Bharti AXA General Insurance Co. Ltd., 7th floor, vasudev towers, opp wochardt hospital, Bhandup west, Mumbai-400080 Bharti AXA General Insurance Co. Ltd., Funrepublic, plot no.844/4, Shah Industrial estate, New link Road, Adheri(w) Mumbai-400053." Note that Secretary Rice and Clinton-Rubin LLC have built a global network of USAID field workers and 8(a) proxy hit teams to attack insured targets in the United States, Pakistan, Afghanistan, Iraq and India. Note AT&T Wireless and Maritime Telecommunications Network have integrated communications on mother ship combining MTN's internet cafés, wi-fi, shipboard newspapers, and AT&T's experience in delivering wi-fi and cellular phone services to consumer, business, terrorist and pirate travelers. They want to disrupt work of Anti-Terrorist Squad (ATS) in the Malegaon bomb blast case at the Forensic Science Laboratory (FSL) in Mumbai and divert investigators away from use of Tomoye virtual war rooms computers, Wi-Fi technology. You will need to 'neutralize' USAID's 8(a) virtual war rooms used by Condoleezza Rice and Clinton Rubin LLC at the addresses above. Your sister is inside the U.S. Immigration and Customs Enforcement (ICE), agency of the Department of Homeland Security, where she is associated with dual use criminal networks and terrorist organizations structured to exploit vulnerabilities in Anglosphere immigration systems, financial networks, border and federal facilities to attack United States. You must get into ICE Office of Detention and Removal Operations (DRO) Office of Investigations (OI) Office of Federal Protective Service (FPS) Office of Intelligence Office of International Affairs (OIA). USAID is recruiting criminals 'processed' by Clinton Rubin through KPMG and the MindBox 8(a) micro-loan recovery system by corrupt or terrified officials at ICE. Re USAID 1997, Barents successor in interest to KPMG was pretending not to pursue USAID auditing contracts if owned or controlled by KPMG in the U.S. but KPMG in India is free to arrange escrowed contract hits for USAID out of Mumbai, Pune, Delhi, Kolkata, Chennai, Bangalore and Hyderabad. They can fix up arbitrated victim life insurance through KPMG, 4th Floor, Kpmg House Kamal Mill Compound, Delisle Road, Mumbai, Maharashtra 400013, India +91 22 24913030. If you can't stop the Mumbai attacks you will have to follow kickbacks

of victim life-insurance policies paid to 8(a) killers through the KPMG virtual war rooms operated by USAID, Macdonald Dettwiler & Associates (MindBox / Radarsat – 13800 Commerce Parkway, Richmond, B.C., Canada); Power Corp. (Bharti AXA / BNP Paribas WTC – 751 Victoria Square, Montreal, Quebec) and Clinton Rubin LLC (1301 K Street #450 Washington, D.C.). Neutralize these offices and you decapitate the beast. Badger (Qinetiq-MI5) Out”

The Marine crew of HMX1 got airborne and headed to the southwest of Andrews and made a beeline for Dulles International Airport. As Heifer handed Chips a first class boarding pass he noticed that he was assigned seat 2B for the KLM flight from IAD to AMS. He saw her boarding pass on the seat next to her left knee as she removed a wig and a mask. As he refocused on the boarding pass name he realized that the seatmate in 2A was not Heifer at all and he was thankful that he spoke Urdu, Gondi and Farsi.
