Chapter 5

Lizard Woman loosens lips on some Acorn contract hits Treasury Connect links Strong to Mau Mau and Rathke to Mumbai'bama

Stone, Chips' son explained away the turbulence. Ms. Lizard decided to confess. Obama's goons had pushed her brother's Tribune Co. into Chapter 11. They wanted to stop him from releasing the Khalidi video which showed Obama toasting the PLO while Bill Ayers and Bernardine Dohrn applauded. Lizard told them Acorn leaders controlled the MSM to make sure the public doesn't learn about their eugenic agenda, i.e. to depopulate the ghettos of blacks. She said Acorn boss Rathke had been visiting India over the last two years as an Acorn scout to set up the Mumbai hit. She explained how Acorn's secure e-hawala used the Thuraya network in Sharjah directly connected to Paulson's credit pools at the U.S. Treasury and the new command center in Dearborn Street. She tells them the DHS is now subordinated to the upgraded Y2K network recently moved to Dearborn Street. Acorn sisters are linked up to state, municipal and tribal governments across the country and can decide which top officials are to be whacked at the next attempted coup. An FBI Intel feed describes the Wal-Mart and Bharti-AXA credit pool in India which financed the hawaladars' pay off to hit teams used in Mumbai 3-stage amphibious attack on November 27. Powerful image of the hands of a servant of God cradling a child, oblivious to a world in peril, puts them into a mind to pray. More FBI Intel tells them Ann Dunham and son Barack Obama were disbursing hit-team loans from a bogus agricultural program run by the Asian Development Bank in a treasonous partnership with USAID and CIDA in the late '80s. Base for Barry and his Mum was the Hilton International Hotel (now Avari Hotel) in Lahore. The last FBI Intel warned them Maurice Strong had got to Obama's grandfather Hussein Onyango Obama, a Mau Mau leader arrested in 1949. Strong was the first user of hawala to pay for contract killing. He ensured Barack Obama would be trained in Mau Mau methods used for the Odinga genocide of Kikuyus over 50 years later in January 2008. Abel Danger learned Acorn hits were now paid with money laundered through Strong and Al Gore's Treasury Connect(ed) credit pool network and their bogus carbon trades on the Chicago Climate

Exchange. Before Hamish could absorb all these startling facts, a fast talking Tango warned "Crickets, crickets, fadeout and strangle ..."

Stone's rich baritone voice over the PA caused Hoss and Chips to remain seated. The panic on the faces of the 'other four' was replaced with comfort as Stone's words were shared over the passenger address system.

"Ladies and Germs please remain seated; we just crossed under the wake turbulence of an A380 sporting Singapore paint that is 1000 above us, assuming we are really at our assigned altitude".

Ms. Lizard stood and set up a portable chalkboard and opened a case with 3 colored dry markers; red, green and blue. "As you know my brother is a big U.S. real estate investor and has been using MindBox to launder money for worthy revolutionary causes. He also owns the [Tribune](#) Co. which has just been forced into Chapter 11 bankruptcy protection by Obama's goons. They punished my brother because he threatened to release the video of a 2003 going away party for Rashid Khalidi, a former spokesman for the Palestinian Liberation Organization. The video shows Obama toasting Khalidi as he is applauded by Obama's friends, the Weathermen and Acorn leaders Bill Ayers and Bernardine Dohrn. My brother is scared for his life. I have therefore decided to tell you everything I know about the Acorn conspiracy to destroy America. My husband – who I sometimes think of as a bit of a hedge-fund wanger – has managed the Acorn Fund for over 30 years. I run the Acorn International Fund, just down the hall from my wanger. We got the names out of the same Philadelphia telephone directory as Clinton Rubin LLC. What's really ticked off the Weathwerwomen is the Abel Danger claim that we are all connected to a Clinton Rubin murder-for-hire hawala network and the Acorn abortionists who started work in Hyde Park by buying life insurance on pregnant women who got dead on the slab. It happens to be true. Note that George Soros developed an advanced waste management system at his Altgeld Gardens clinic. Acorn can now incinerate evidence of infanticide-for-hire at 5,800 degrees Fahrenheit. Michael Moore was right; it's just a matter of temperature. Michelle O got Lions Gate to release Barney and Moore's propaganda. She is one scary whitey-hating broad. Acorn agents have infiltrated the main stream media. They framed Conrad Black and threw him into jail. They want to make sure the public doesn't learn about Acorn's eugenic agenda, i.e. to depopulate the ghettos of blacks and kill or terrify as many Jew and Christian leaders as they can. Rathke has been visiting India over the last two years as an Acorn scout. He set up the Mumbai hit and the torture of the Jews. The media have peddled it as sourced out of Pakistan but the Thurayas were accessed through a terrified Phil Condit in Chicago. You must also know that Acorn's media outlets have been bought and paid for by 4 dolts who are bent on destroying America....." as Chips interrupted with "Get Bent". <http://www.acorninternational.org/>

"Excuse me Chips, is that in reference to the movie Get Smart?" asked the somewhat naive Lizard unaware that Chips had been briefed by the FBI on her money laundering use of Acorn International credit pools with Michelle Obama, Phil Condit and fellow directors of Chicago Council on Global Affairs. Chips already knew that Acorn used Wanger Asset Management and the Rathke brothers to finance non-U.S. companies working on special weapons development with Queen Hornet's 8(a) hit teams. Obama and his mother had been tracked in Pakistan in the '80s, Maurice Strong tracked in Kenya working with the Mau-Mau in the '50s and the Clintons had been tracked in New York and K-Street as radical mobsters setting up Arkancidal 'fragging networks' to overthrow governments, kill leaders and massacre citizens. Chips also knew Lizard had worked with Bernie Madoff and Sidley women to screw the Jewish entertainment moguls in New York, south Florida and the West Coast. [cf. Bernie fooled the Jews with 12% compound returns over the last four years; the Lizard fooled everyone with 1992 start up of Acorn International 6.81% YTD 11.87% 1Yr 11.59% 3Yrs 11.85% 5Yrs 15.94% Life of Fund]

"Negative sugar britches, Get Bent indicates Abel Danger doesn't appreciate an inside out polish heart attack being prosecuted against the 300 million Americans by the Dope from Hope who has a 'gadget bent' according to the divine Ms. Flowers who he attempted to de-flower. And the word on the street is that he is gonna send his marital partner over to Eurasia to continue the oppression of 'little people' in exchange for Uranium and some other minerals just east of the Caspian Sea, but alas I digress, please continue."

"Thanks. As I was saying, our Acorn hedge funds use hawala as a cheap (it costs c. 1% of the amount transferred), efficient, and frictionless alternative to the morbid and corrupt domestic financial institutions. Think Western Union without the hi-tech gear and the exorbitant transfer fees. Hawala transfers money without actually moving it. We used Brucey Baby on 9/11 to send encrypted signal to AXA counterpart overseas with details of al-Qaeda recipient. We have now set up pools of cash at both ends of a transaction to bypass the U.S. Treasury and Congress. After September 11, when the FBI realized we were using hawala to transfer funds to our 8(a)-Acorn hit teams we had to switch to computer based credit-default swaps. Madoff used to run our paper books with Howard Lutnick atop the North Tower where we killed all 680 potential whistleblowers on 9/11. Similar Aon Corp atop South Tower. Michelle O and I used the Twin Towers to suck rich Jews into the mouth of the COBRA and set up asset stripping of the likes of Spielberg. Now we control cybersecurity for POTUS 44 and the Treasury; we don't need Madoff

and we don't need Lutnick and his bloody Rodin Gates of Hell and Hands of God. They were all fakes anyway. We now use MindBox and Treasury Connect online systems as an electronic hawala network to reward drug traffickers, corrupt officials like Strong and the pols in Chicago, organized crime bosses like Big Joey in New York and Vito in Montreal and our 8(a) and al-Qaeda hit teams all over the world. Our secure e-hawala networks are no longer controlled by Arabs, but by Indian and Pakistani expatriates and immigrants in the Gulf where we use the Thuraya network in Sharjah directly linked to Paulson's credit pools at the U.S. Treasury and the new command center in Dearborn Street. Example, we used Dihad Shill a hawaladar in Pakistan as the proxy financier in the attacks on the American embassies in Kenya and Tanzania in 1998 but the hits were really directed by Maurice Strong and his friends in the UN Oil-for-Food program and the Rathke brothers. We now run Acorn hit money through the Chicago Climate Exchange."

Pausing for breath, Ms Lizard pulled out her tools, "I will try to explain how and why Brucey Baby's Office of Management and Budget built a 2000 Information Coordination Center for Clinton-Rubin's Acorn commanders. He wanted to create a bogus Y2K panic coordinated from an old Secret Service office 1 1/2 blocks from the White House at the back of the K-Street Sex Club. It was a rehearsal for 9/11. The Center fed information to the Shadow Party – Hillary Clinton, George Soros and Harold Icke. Brucey had set up a global network of virtual war rooms and multiple agency working groups - one for domestic crises, and one for international problems with Lansdowne Technologies in Ottawa. FEMA was to be bypassed on 9/11. Now the DHS is subordinate to the upgraded Y2K network recently moved to Dearborn Street. Mumbai was a test run. Clinton-Rubin sent secure messages through the Y2K Center networks to trigger Acorn contract killing after Hurricane Katrina and more recently Mumbai. The hit teams were paid by MindBox automated recovery of loans from Acorn-controlled hawala credit pools. Dearborn's responsibility is now for the Acorn sister with Sidley Austin and AXA to get status reports from loyal state, municipal, tribal governments across the country. The Sisters have feeds into the Dearborn Y2K Mark II war room; they get to decide which top officials have to be whacked and the timing of the next attempt at a coup. To make it more graphic, I'll use these 3 colors for the three headquarters of evil as deployed by the goon from Hungary. Blue is for the financial headquarters on Park Avenue, Green is for cyber security headquarters at the K Street Sex club, and Red is for....." once again being interrupted by Hamish on the AFFB27-Kilo on the conference table.

"The spilling of innocent blood and I presume that address is 1 Stillborn or 1 Deadborn Ave in Chicago".

"Hamish, you are close, the address is on Dearborn Street"

"Yes that is correct, and any human with a heartbeat is deemed a living creation by a jealous God whose two greatest affronts are the spilling of innocent blood and His being mocked according to a recent radio show of Pastor Ernie's at WRWL Ministries near Cleveland, Ohio".

"Well Hamish, I don't understand the Judeo-Christian Truth but suffice it to say that

Dearborn Street is a center pivot to the global abortion network gaining strength as the Kenya Kid continues his demonstration of how ill informed the voters in America are. Dearborn Street is the orifice through which an enema of America may best be administered. Dearborn Street is where we will be 30 minutes after Hoss sets this ABJ on the ground. There will be three modes of transport so we will split our 7 people with some in the Limo, some in the Puma, one in the Harley Side Car and 7 body doubles in Dumbo...".

"Referring to Arkansas again, Mam?" asked Hoss.

"Negative big guy, referring to a refurbished AC46K Commando which is jointly owned by a dreamy movie studio in California and a private collector near Fargo, North Dakota. It supported the making of a movie near Troy, Montana and has been getting some upgrades at Fort Collins-Loveland airport. One of our IT attorneys paid a certain master craftsman to install some extra systems and our firm will be using the aircraft as part of our ACE program" commented Lizard as Hamish spoke from the AQFB 27 Kilo.

"Is that the American Council on Exercise or Accelerated Copilot Enrichment you allude to?"

Chips responded "Very good question Hamish, but neither one. Negative. Our ACE, or our pair of ACES are the world's only 2 AC46Ks ever built. They were flown by a pair of WWII pilots name Karl Waldron and Dennis Miller. Waldron was a KIA in Viet-Nam fighting in his third war. A fighter pilot in WWII he became a bomber pilot later on, flew some interesting things in Korea and the AC47D 'Spooky' in Viet Nam. His crew's performance was so lethal the bad guys were waiting for them and hit them on takeoff before the gear was in the well; it was my privilege but sad duty to push his casket out of the Arlington Chapel on a cold winter's day in 1969. Karl was the tactical pilot and Dennis was in effect the POC for the military brass as he had always been a great pilot but a little risky politically so the brass had Dennis fly their fishing trip aircraft into northern Canada on fishing trips. Karl and Dennis worked with and through the Director of Operations at the 4th SAD at Grand Forks AFB, North Dakota. To this day there are still C46s flying out of Gimli, Manitoba, just north of Grand Forks. Buffalo Airways lumbers around arctic Canada in a pair of C46s also." Chip's mind wandered back to Bonnie 2B Grand Tetons introduced at www.captainsherlock.com/Chapter_1.html. "These super modified ACE aircraft will be used to "accelerate conversion of equity ACE" as S-A endeavors to asset strip US Jews to reduce their support of Israel. Of course just like Georgy-boy in World War II Hungary, we will attack Jews with Jews including remote locations such as Mumbai and Palm Beach. One of the operatives will be Schindler in Switzerland but there will be many deployed globally with a major concentration in New York and LA. Schindler and Associates has a list of 10 targets and the 10 will churn as does the money."

"Would I be correct in characterizing the 10 wealthy Jewish targets as 'Schindler's List'?" quipped Hamish.

"Not necessary because it will not be a list on paper. Our man in DC will maintain the list in cyberspace where the ability to see the targets is limited to players on the VPN and after each 3 minute meeting the disc will be wiped clean using Parisien Research Blowfish technology. In addition to this electronic precaution the 7 members will only gather physically aboard the three vessels, the VPN, or Dumbo, the ACE aircraft....." and as Lizard was interrupted a vibrating Clipper Rodin Replica shook behind Wrigley-Field. As Wrigley turned to answer, Hamish spoke from the 27-K as Simon Fitzpatrick reached across the table and grabbed his hand to prevent Wrigley's touching the Rodin replica and as he did a single 4 inch square glossy fell from his hand and landed near the center of the table.

"Don't answer that Rodin Clipper, it is not on our network, let me contact Tango Whiskey and trace it" warned Chips as he noticed the corrupt circle on the Fitzpatrick glossy and commented further "and it looks like Simon and his Chicago District have quite a Christmas wreath for Obama, Rezko, Blago and the usual suspects. Hopefully they will all get coal in the stockings this Christmas."

Simon added dryly "Perhaps he will be more threatened by the legal storm to be unleashed between 13 and 20 January as we have fully penetrated their OODA loop in the glossy I dropped."

A visibly shaken Wrigley Field withdrew his shaking hand realizing that somebody, somewhere might not like the Lizard's loose lips. Wrigley was well aware of how the lady involved with 'Deep Throat' had perished in a Boeing jet attempting to land at Midway airport in 1972 and was he was also aware of the other flying object that was on a collision course with the Baby Boeing just before the crash.

She died in the crash of United Airlines Flight ... Watergate Figure's Dead Wife Had \$10,000 to Invest ... Boeing 737, N9031U, Chicago-Midway Airport. Chicago, Illinois, December 8, 1972.

Wrigley Field was not of a mind to become the next victim of the "Weatherwomen aircraft bombers" who had a string of 36 years of success in the removal of political targets using Boeing + explosives + electronic misguidance and he wondered aloud how many Americans had ever Googled Boeing Uninterruptible Autopilot + QRS11 + lawsuit. He was reasonably assured that a P Juhanen of ALPA headquarters had never made the effort and would probably dismiss it as "an insane Google search".

"Wrigley, I just got an IM from Sherman's Dale, Pennsylvania and a Cumberland Technologies and COVAD have been isolated as the likely senders of the call to Rodin's Replica. Tango Whiskey is working with Vilonia, Arkansas and Swampscott, Mass. to take out the transmitters. TW estimates 3 minutes to 'smoke'" commented Chips as Stone's rich baritone announced "feet dry, ETA beertown 3 hours from now" indicating they had coasted in between Gander and Goose and had only 3 hours left to Milwaukee, the town that Blatz had once made famous.....or was it Schlitz?

"Chips, this Tango Whiskey, what does he mean by 'smoke'?" asked the naive wife of the newspaper man and would-be wanger.

"That's a little classified Mam but think back to the smoking of Bhutto and you'll get the picture. Tango Whiskey has just IMed a reading assignment for you. He suggests you Google Bhutto + HAARP + Martin X33 and while you are thinking about that here is an FBI update on what we have learned recently about your Acorn colleague Rathke.

“Wade Rathke Chief Organizer of ACORN International, Founder and Chief Organizer of ACORN (1970-2008), and Founder and Chief Organizer of Local 100, Service Employees International Union and his brother Dale Rathke have been ripping off the ACORN and SEIU rank and file for nearly 40 years. ACORN launders money for voter fraud in Presidential Primaries; they used it in Project Vote for all three - Clinton, McCain and Obama - campaigns in 2008. They control hundreds of crony congress people and senators with bribes and fear. ACORN operates 75 non-profits out of 1024 Elysian Fields Avenue, New Orleans, LA. Acorn launders money through Teamster’s pension. ACORN and Wal-Mart work together; they have 300,000 armed and equipped families in more than 100 cities and 8,240 HUBZones across the U.S. Rathke has been visiting India to set up the Thanksgiving attacks. He has put together coalitions of union radicals and mass-based organizations to destroy Foreign Direct Investment and force the Indians to switch to Treasury Connect control of global credit by Obama’s goons. ACORN International has infiltrated Canada, Peru, Mexico, Argentina, Dominican Republic, India, Kenya, Ecuador, Indonesia, Korea and Philippine. Acorn has surveillance and sabotage teams from squatter communities in Latin America and diverse cities of India, including Mumbai, New Delhi, and Bangalore. Acorn has waste pickers in Delhi and hawkers in Mumbai. Wade works with Acorn in Louisiana, Texas and Arkansas using the WARN project with Wal-Mart wholesaler networks moving weapons into Florida, California, India and Mexico. Wal-Mart and Bharti-AXA credit pools in India are financed through Mumbai’s bama satellite and [telecommunications](#) links with [Wal-Mart](#) 1985-1992 director Hillary Clinton. They pay their way after the hits with victim life and property insurance laundered by hawala through the AXA dead-peasant life insurance. That’s how the Acorn Sisterhood in Chicago paid off the 9/11 hit teams and Mumbai 3-stage amphibious attack on November 27”

Visibly shaken by the detailed profile developed on her Acorn colleague, the Lizard asked timidly, "Did Ms. Bhutto like Irish beer Chips, is that what Tango is suggesting with the Harp comment?"

"Negative Mam, Harp's Lager has only one A. The Haarp that angels don't play has two. Tango is suggesting that the source of that Clipper Call to the Rodin Replica has been IDed by our guys and the offending transmitters will be smoked as was Bhutto when she tried to take Pakistan in a direction not popular with the PFers who took out the Norfolk Hotel in Kenya, capeche?"

"Chips, this Tango Whiskey, who is he and how does he work?"

"He is a Brother and he works with his hands....heart and head also...but mostly HIS HANDS."

"Chips, if Tango Whiskey works with HIS HANDS what is the specific nature of his work?"

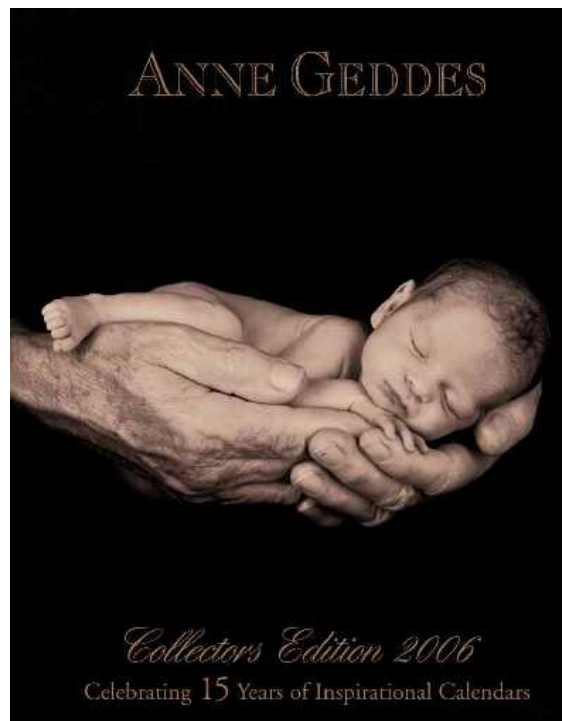

<http://www.compassnt.com/Hands%20-%20God%20&%20Adam.jpg>

"He is a craftsman who works for a carpenter efforting to comply with Matthew 25:40" replied Chips.

"The King will reply, 'I tell you the truth, whatever you did for one of the least of these brothers of mine, you did for me.'"

"Not to rain on your pious parade Chips but if what you say is correct and HANDS are plural your photograph does not support your hypothesis" commented the Lizard woman still suffering in the darkness of II Corinthians 4:4.

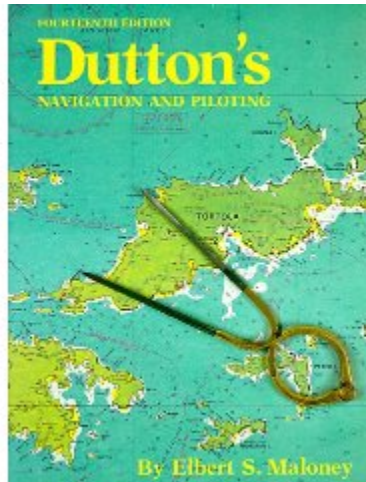

<http://images2.fishpond.co.nz/0740753665.jpg>

"Well then, Lady Lizard, perhaps you'd like to see HIS HANDS when he doesn't have one of them knocking on the door your heart, Hamish, please put photo #2 on the 27 Kilo for Lizard". At that moment Hamish's 3-D image was replaced by a photo taken of the hands of a servant of God cradling a child, oblivious to a world in peril. If something does not occur soon, the peril might be to millions more unborn children threatened by the Merkin-ed Monsters of Midway."

As Lizard sat still feeling rebuked, as well she should, a somber Hoss suggested, "We need to Pray".

"Heavenly Father, as you continue knocking on the hardened hearts in America please extend to us your abundant mercy and bountiful grace and help those called by Your name to merit Your promise of II Chronicles 7:14. Please encourage those aboard this Airbus to come to know that You are in control, and that your Love and Mercy will be with us as You promised in the final sentence of the book of Matthew. In Jesus' name, Amen."

Hoss' prayer moved the 4 legal professionals at the table and Stone called on the PA "you guys in the back need to come up front in a hurry, you won't believe what is visible to the North." As the four legal professionals approached the flight deck, Hoss and Chips knew what was being revealed to the 4 who had placed their confidence in themselves, their legal profession, and the Merkin-ed Monsters of Midway who would lead millions to their innocent death contrary to God's instructions. After glancing out the right side of the Airbus and seeing His awesome display, Chips and Hoss knelt and prayed a prayer of Thanksgiving. And this Thanksgiving was a daily event in their lives, not an annual event involving turkey, football and pumpkin pie, capeche? While the USDOJ, misled by an 11% minority of misfits, perverts justice and focuses on the NFL; Christian Patriots across the depth and breadth of North America are partnering with God to manifest His love for the little people.

http://ecx.images-amazon.com/images/I/61MTACSQG4L._SL500_AA240_.jpg

When the four pilgrims to the cockpit returned, they returned changed. A sense of Peace and calm was evident on their faces; most notably Lizard's as she spoke to Chips "The list of modified Boeings is with Madoff's 7 binders in the lipstick building. A second copy is on page 69 of the Dutton's in the cockpit of Amelia's sailboat "Toro" and a third secure copy is in Condit's old office near Wacker Drive. I can get you into Condit's old office as soon as we get to Chicago.." as she was interrupted by Tango Whisky via the 27-Kilo. The 3-D image of Tango's head was revealed in the 27 Kilo as he spoke.

"Thanks Lizard but I just poached them. Seems there is a lady at Boeing that knows who did what to whom on 9/11 and she has allowed me access to Boeing's dirty little secrets. I have tail numbers of the 96 baby Boeings done in Abbotsford, BC and some other interesting tidbits too. Think of DD." As Chips' mind went back to illegal Boeing procurements that scuttled the B767 tanker opportunity, he whispered "that witch".

Hoss suggested that everyone have dinner and catch some Zs as he and Chips grabbed their lunch boxes and headed forward to join Stone in the slave's quarters. As they turned to leave the conference table, Chips turned instinctively and challenged Tango's image in the 27-K "what's the first line Tango" knowing that only one human in the world would be able to answer the challenge correctly. From inside the 27 Kilo, TW's mouth lip synched "Tin Soldiers and Nixon coming, we're finally on our own".

"Chips, is that really Tango?" asked Hoss. "Listen to this and you tell me" said Chips as his clipper IPOD selected song F4.

*Tin soldiers and Nixon's comin'.
We're finally on our own.
This summer I hear the drummin'.
Four dead in Ohio.*

Hoss remembered the CSN song and realized that F4 stood for neither an F4 twister or an F4 Phantom but rather for "Four Dead in Ohio". Hoss and Chips then settled into the

cockpit and opened up their lunch boxes. In Hoss's lunch box was a small AQFB27-Kilo and in Chips' lunch box was a pair of Bose speakers and what appeared to be a USB with one receptacle for the AQFB end and a split allowing simultaneously sharing between the speakers and 'any other monitor'. Hoss leaned forward and connected it to the lower ECAM display of the ABJ.

At that point a split screen video with Hamish on the left half and Tango Whisky on the right 'went live'. Hoss indicated that they would hear the cockpit thru any or all of 3 cockpit voice recorders.

Tango spoke first. "Loveland-Ft Collins got ship #2 finished last night so we have authorized the rollout of ACE #1 from the C130 hangar on the west side of the north south taxiway at Mitchell Field. 'Skymaster' is out preflighting it now as we plan for a 30 minute local prior to your arrival. Suffice it to say that warbird buffs will be amazed to see the Super Guppy props hanging in front of the Allison T56s on this baby. "

Hoss interrupted "Which T56s model are hanging there".

Tango responded, "The T56-A425, of course, and we added 2 APUs to handle the power of my F4E WCS and radar as well as the APS 137 ISAR that Dwarf installed from the missing CP140 that Roach snatched us from the 5th Wing at Goose. Dwarf had worked on the original application during the OUTLAW HUNTER project involving Dennis, Karl, Chips and myself. You may recall a book entitled "Hunter's Wingmen"well, you can now connect the dots. OUTLAW HUNTER was as lethal as 'Sweepy Time Gal' or the 'Sweet Talkin' Woman' were in their time, and while the short haircuts race off to Google Chips + Sweet Talkin Woman + F4, let me save your armchair sleuths a little time." www.usdoj.gr/ch01a.html

As the video of Tango went silent Hamish's side of the screen became audible.

"Chips, Susan in Sidley suggests that Patrick Fitzsimon, or is it Simon Fitzpatrick, is acting on our Intel, to wit herebelow is a recent clipper message from FBI in Mumbai".

"Thanks for Abel Danger leads. FBI forensic examination of call records of satellite and cellular phones used by Mumbai attackers and Chicago and Pakistan-based handlers confirms that one of the numbers logged on the satellite phone the terrorists used while navigating their way to Mumbai belonged to Lashkar terrorist Abu Al Qama. FBI checked out Abel Danger report on Sharjah where Thuraya is headquartered to find Qama passing instructions to the attackers from Pakistani soil while they were carrying out the massacres in Taj and Trident hotels. FBI determined Lashkar network was built by Obama's mother in Pakistan when she worked as a consultant for Asian Development Bank. Ann Dunham used microloan job as cover traveling between Lahore to Gujranwala, occasionally with Barack Obama, for program which began in 1987 and ended in 1992. Dunham was disbursing loans from a bogus agricultural program from the Asian Development Bank in a treasonous partnership with USAID and CIDA. She set

up radical community organizers as hawaladars or mobile credit officers for local hit teams. Command base was Hilton International Hotel (now Avari Hotel) in Lahore.

Susan also mentioned the FBI and DOJ suddenly feel pressured to act on our Intel so I would not be surprised to see Mr. Connell of Ohio and Mssr. Villehuchet of New York taken out in the next 10 days. Connell of Ohio and Villehuchet of New York are both participant and victim of the crimes of the century in America and when the tentacles are traced back to BO's OODA Loop the plans of the Hungarian Jew and his hopeless helpers will be foiled by Christmas Eve. One need only consider the background of Villehuchet and Connell to see that they are 'toast'. I cannot remember much of the super-frogs background, I think it involves BNP, UN Oil-for-food, AXA and Clinton Rubin but I do know that Rove and Bush don't need to have Connell singing the blues so I predict a silent night for this pair."

"Chips, in studying the capabilities of ACE 1 and 2, Skymaster had mentioned CAT46, does this flying Dumbo have some type of Autoland system greater than the CAT III C that you use in your 'day job'?"

"Negative Hamish, CAT can mean a lot of things to aviators. Most notably 'cat-house'. However CAT is also clear air turbulence, civil air transport, the forerunner of Air America. In our Allison-enhanced AC46Ks, CAT46 refers to 'clandestine agent transfer, series 46' and this agent transfer does not relate to the fire suppression system installed on this Airbus Business Jet. We need to wrap this clipper video and have Dwarf, Tango and Skymaster go out and fine tune Tango's nose radar and Dwarf's slung radar. Any more questions Hamish before we 'disc wipe' this session?"

"Yes one. You mention Gimli, Manitoba, where have I heard of this airport before and where is it from Fargo?"

"You probably heard about the Gimli Glider, a B767 that ran out of fuel because some boneheads in Canada couldn't convert gallons to imperial gallons or metric weight to normal weight" responded the omni-informed Chips. "The abandoned runways are used as a race track for autos and are just north of the 49th parallel about 140 miles north of Fargo."

"When you allude to Canadian boneheads do you mean Mo Strong who went to Kenya for David Rockefeller in 1953 or the more updated Demorais Delta-Sierras of "Hunter's Wingmen" fame?"

“Neither Hamish, these Canadian boneheads got fired from the aircraft fueling service in Montreal, went to Law School and now are in charge of IT patenting with Sidley in Chicago, capeche? But since you mention Strong here is an FBI report on the link between him, Obama’s grandfather and the Mau Mau killers of the ‘50s and the murders of the women and kids in the church earlier this year where they killed would be escapers with bows and arrows”

“Maurice Strong worked with the United Nations as a junior officer in 1947, when he was eighteen, and returned in 1970 to lead the Conference on the Human Environment in Geneva, after which he became the executive director of the UN's environmental program. In 1951 Strong married, and in 1952 sold his home and wound up in Nairobi

to work with CalTex developing the Mau Mau payments network for killing white farmers and loyal Kikuyu. He double crossed Jomo Kenyatta who sensed that the Kenya African Union was being infiltrated by Marxists paid by Strong and his Rockefeller bosses. Kenyatta wanted harmony between black, white or brown; he despised Mau Mau bribery and corruption. Kenyatta promised that the K.A.U. would not use fists or weapons. He believed the British Government would sort out the land problem in Kenya peacefully. Strong sabotaged those efforts and began a secret communication with Obama's grandfather Hussein Onyango Obama a Mau Mau leader arrested in 1949. Strong was the first modern user of hawala to pay for contract killing. Strong worked on Onyango and focused his rage against the British to help educate Barack Obama into the Mau Mau methods used on the Odinga genocide of the Kikuyus over 50 years later in January 2008. Everything was paid for as we now know, by laundering carbon trades through the CCX and Maurice Strong and Al Gore's Chicago credit pools"

Before Hamish could digest all these facts, a fast talking Tango warned "Crickets, crickets, fadeout and strangle.... belay my last, this is Tango Whiskey, have IDed the radar sampling the Airbus, you have an old friend joining in formation Chips. He is closing from dead 6 and a little high. I've sampled the turbines and they indicate J-79-GE-15 but the radar signature had me worried until my AQFB-27 India made the connection. If you take a look out the right side now you should see Happy Duane or Dirtball, not sure who's driving. Tango Whiskey, standing by."
