Chapter 6

Clinton tainted blood in Obama credit pools

Black rank and file and Jews move to neutralize Acorn white elite

Early character development at http://captainsherlock.com/Chapter_25.html

<http://mediamatters.org/static/images/item/fnf-20070822-obama1.jpg>

Stone admired Blue Paint on F4D with Seal of Great State of North Dakota. Dwarf (Canada) and Tango Whiskey (Denver) board Ace 1 to fly in to Chicago over Lake Michigan 'trailed' by two CF18s from Goose. ACORN Sisterhood of Philadelphia discovers African-Americans are being used as dead donors for wealthy mothers at U of C Chicago Lying-In Hospital. Refrigerated transport of organs worldwide. Obamas and Rathke bankers charge \$20,000 to \$100,000 for "withdrawals". Michelle Obama hired old law firm to defend ACORN all-white board against indictment for embezzlement case. FBI has evidence of money laundering with Canadians in Montreal and Colombian druggies linked to Escobar. Sidley Women are fronting for covert ACORN meetings to control Obambi POTUS 44. FBI sends TOPOFF message to Swan and PPP exposes New York Mellon as custodian for Troubled Asset Relief Program and help Madoff launder money through KPMG Son of BOSS and Sidley Austin COBRA tax shelters. Intercept of Dearborn traffic suggest major credit-pool contract out on Madoff with the main 'pay-to-players' being BNP Paribas and AXA. Black legislators turning on Obama and Chicago affiliate of LISC chaired by Citigroup Robert Rubin. Dwarf report reveals May 18th 1999 Blood Trail leads to Paul Martin former board member of the Canadian Development Corporation and its subsidiary Connaught Laboratories. Then on to Lt. Gov. Winthrop Rockefeller and the Clinton Rubin agents who privatized prisons and launched Con Air in 1995 to transport plasma and spread AIDS/Hep C into Africa as part of Obama depopulationist agenda. Dohrn, Rezko and Cari in Chicago and Martin's Power Group out of Montreal, are in control of Inauguree's plan to vitalize the economy. Scrambled threat; Lebanese military missiles on Israeli border. Hawk, Dancer and Moshe suggest option VPOTUS. Chips picks up ONI phone; dials US Naval Observatory for a patch.

.....

Stone was admiring the Blue Paint on the F4D painted with the Seal of the Great State of North Dakota. It also was not wasted on Chips, who had flown that aircraft in 1989 and in fact was featured on a professionally made Christmas card in December, 1989 in that very jet the tail number of which ended in 498. It was unremarkable except for two things: it did not arrive in Fargo with the original issue of F4Ds numbered 64-0937 through 64-0979 and it had a few spare parts. Not spare parts such as the Boeing Uninterruptible Autopilots or QRS11s that were deployed on UA93, UA175, AA11 and AA77 nor like the similar parts on the 96 Baby Boeings reconfigured in Abbotsford, British Columbia. No, this rather ordinary F4D has some "loaner parts" from a Connecticut based Optical company and a North Carolina based corporation that supplied everything from soup to nuts, or more properly S-80 subs to nacelles. The purpose for #498's late arrival in Fargo was not widely known, at least in Fargo. Dwarf in Canada and Tango Whiskey in Denver had participated in the 'upgrades' that made 498 special and that partnership is why Dwarf and Tango were aboard the Ace 1 flying over Lake Michigan on 12-26-08 when November 319SA and the Blue F4 arrived after being 'trailed' across Canada by two CF18s that shadowed them from Goose.

Another admirer of the Blue F4 was Wrigley-Field who pointed at it and commented to SWAN-E and Simon Fitzpatrick "We are in good hands". Lizard woman wondered to herself if this was going to spawn another sermon on the Hands of God by Chips or a Pilot Pastor called Peter. Lizard apparently didn't share the appreciation of life that author and Doctor Nathan Bernardson demonstrated in writing a book where he recognized that his work with National Abortion & Reproductive Rights Action League - NARAL - was contrary to God's wishes and plans.

A Canadian doctor expressed concern that Sarah Palin's decision to give birth to Trig, who has Down's Syndrome, may have negative consequences for women in his nation and elsewhere. How so? Instead of getting abortions 90% of the time, [Dr. Andre Lalonde says](#), more women may discover that they can deal with the challenge of such a child, and refuse abortions. [Quelle horreur!](#)

While I work with my French English Dictionary to determine what 'Quelle Horreur' means I would encourage others to Google Nathan Bernardson + NARAL + Sarah Palin. Even a mother moose cares for her offspring more than the millions of humans who routinely use abortion as a remedy for poor judgment. While Lizard wrestled with her conscience, an embarrassingly funny ring tone brought her back into the here and now.

The refrain from Marcie Blaine's "Bobby's Girl" was heard by all in the cabin. Lizard muted her cel and saw an IM from the ACORN Sisterhood of Philadelphia; a message also sent to Clinton Rubin LLC – a corporation named by a random search of the Philadelphia phone book – and an office in Dearborn Street, Chicago.

"From ACORN Sisterhood of Philadelphia. All stations alert. FBI suspects Michelle Obama has been forcing staff at University of Chicago Hospitals to steer poor blacks away from Emergency Room to Soros clinic in Altgeld Gardens. Adult and fetal cadavers being used by WMI as source of blood products and organs sold through CR credit-pool network. Obamas have helped build up U of C Midwest Regional Placental Blood Bank. They use credit pool to finance collection of rare blood types from African-American dead donors to boost national database of marrow donors. Products being sold to wealthy mothers at U of C Chicago Lying-In Hospital and/or distributed via refrigerated transport worldwide. Obamas and Rathke bankers are charging recipients \$20,000 to \$100,000 for "withdrawals". Michelle Obama has hired old law firm to defend ACORN all-white board against indictment for embezzlement case. Obama and Biden paid ACORN subsidiary Citizens Services Inc for campaign frauds. Wade Rathke remains ACORN International Inc.'s president (cf. Mumbai attack). RICO indictment imminent. Our weakest spot is FBI has evidence of money laundering with Canadians in Montreal and Colombian druggies linked to Escobar. Sidley is now fronting for covert ACORN meetings to control Obambi POTUS 44. Prepare to remove Rathke and Obamanistas"

While the readers tried to absorb the significance of a black Acorn revolt against its white leadership, the PA blared, "Ladies and Germs, this is Stone speaking from the cockpit and we will be landing in 10 minutes. Due to security concerns our flight will be landing at Midway Field and parking on the tarmac in front of the old Slick Airways hangar. All interested parties are aware and ground transportation, the Puma and the Limo are awaiting us there. The Harley and Side Car were cancelled due to the weather conditions at Midway. At this time we would ask that all electronic devices, except ours, be turned off and put away until Door 1 Left is opened at Slick Airways. Thank you."

As Hoss settled into the left seat of the A319 he asked Stone "Where we at pardner?".

Stone's response indicated that they had just left the hold over Muskegon VOR, 115.2,

and that Dumbo would be joining them at the MDW 040/50 at 11,000 feet and 230 knots. After strapping himself in, Hoss pushed AP1 and told Stone, "Thanks Stone, I've got it. I hope Tango Whiskey is listening to us still." At that time a green diamond blinked three times at the MDW 040/50 fix that Stone had built into the flight plan.

"Tied" was the single word transmission that Hoss spoke over victor. In the headset a click click indicated Tango, Skymaster and Dwarf had their position as well. With Chips sitting on the center jump seat, Lizard came forward and asked "Are you sure the helo is waiting at Slick?"

"I don't chew my cabbage twice, Mam" was the sardonic reply from the laconic Stone.

Seeing the confusion of madame hedge fund, Chips interpreted "My son Stone told you once, he does not repeat himself. Your Puma is aware of our ETA and parking position at Slick." The Blue F4 tightened up in formation to the point where Hoss could feel the presence so Hoss kicked of the autopilot and did some of the pilot stuff that he'd been doing since the late 60s. [Note Hoss couldn't talk about any flying prior to 1972 when he signed on with Northliner Airlines - NCA]. Stone had always wondered what Hoss had done previously but he understood that not all flying is logged in the logbooks, and people like David Ferrie, Barry Seal and his father Chips sometimes do what their country needs to have done.

Hoss explained to Stone "Roughrider obviously sees Dumbo joining on us hence the closer formation." At that point Hoss pointed with his right index figure at the AC46K that was joining in fairly tight formation on the left wing.

"Sensors normal, mission green" came from outside the Airbus, Hoss knew that Tango was pleased with the traffic situation in a 50 mile radius of Dumbo, flight of three. Hoss spoke "Midway approach, 124.05, push".

"Hoss". Click. Click.

"Midway approach, November 319 Sierra Alpha, eleven thousand, information Charlie".

"Roger 319 Sierra Alpha, radar contact, turn left to 180, descend to 4 thousand, radar vectors to ILS 31 right at Midway."

Hoss reduced the power slightly by selecting -1500 on the VSI and Dumbo and Roughrider stayed glued in position. As Chips was acting as a gull-watcher he noticed a message on the right hand 27 Kilo screen from Tango "just snagged an IM from the lady in back, she's ratting you out to ACORN Philly, standby for fix". Chips leaned forward and hit the acknowledge button once knowing that Tango's voice splicer would reverse the call and provide for a happy landing.

"319 Sierra Alpha, turn right to 270, descend to two thousand, five hundred feet slow to

180 and contact Midway tower."

"Roger that approach, 319 Sierra Alpha switching". Click, click.

As the three aircraft slowed and descended, Dwarf in Dumbo deployed his trailing antenna and lowered the MAD boom while Tango got an optical feed from a pal at NRO so that he could surveil the arrival corridor and the parking spot. Three minutes from touchdown, all players heard Tango's report "Tango Green" and knew it was not a dance step for people deluded by Gore.

"Dumbo, floater, nose 3 miles" was a calm call from Dwarf in the Commando Solo Ace 1.

Roughrider's voice commented only "engaged" as the Blue F4 accelerated forward and down towards the recently surfaced submersible whose lack of wake indicated it was 'dead in the water'. If Tango and Roughrider didn't get a friendly ID soon it would be dead in the water.

While Roughrider did a hasty fence check and armed the weapons, they saw a white flag being waved from the bridge as Tango Whiskey transmitted "friendly". Roughrider broke of his tracking solution and flew by the vessel at 20 feet above Lake Michigan with Sluggo in the back of the Phantom taking a series of digital photos.

"Elmer Perkins" was transmitted followed by an interrogative, "Was that Perkin Elmer?"

"Negative, negative, Elmer Perkins ID friendly".

http://www.jmarcoz.com/sirens/milwaukee4_wi.jpg

After the flight of three had joined the centerline of 31 Right, Tango and Dwarf transmitted "Green range, Roughrider cleared off" and the Blue F4 turned to the northwest to recover at Milwaukee's Mitchell Airport with the Phantom concealed in the hanger at the tanker unit; across the field from Dumbo's hangar at the C130 base.

"Tango, 3, 2, 1". Simultaneously a tape recording of some of Lizard's choicest comments were broadcast to every Rodin bronze that had been stolen from Cantor Fitzgerald's office pre-9/11. Boardrooms and bedrooms across the evil empire were confused by Lizard's loose lips, and some bent on silencing her. The barrage transmissions also targeted known intelligence listening agents at Tomoye and some of the alphabet agencies, including Alice Springs/Orange Grove, Buckley ANGB and the ACORN facilities atop 1 Wacker Drive in Chicago and the 1024 Elysian Fields Ave offices networked to the UNDEX team which had blown up the New Orleans levees 17 hours after Hurricane Katrina had passed 80 miles to the east of the City.

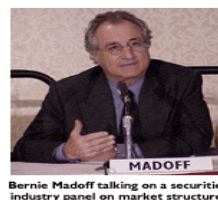

On a six mile final to runway 31R, Skymaster called "Split" and the AC46K turned back towards miracle mile and started jamming Rodins, lurkers and listeners.

Knowing that they were free to talk from that point to touchdown, SWAN-E said "Status briefs, please."

As the listeners, lurkers, and complicit insiders in custody of the real Rodins were jammed with a prophetic message from Priscilla Shoe-Forte, a noted Bible student,

researcher and broadcaster, Wrigley Field spoke first; "SWAN, in our District we are watching Ideal Aerosmith, Goodrich, Raytheon, Honeywell and of course Perkin Elmer. We see they recently provided some 'testing equipment' to Dreamland Aviation and also have a connection to submersibles currently deployed in three of the Great Lakes."

"SWAN, that Honeywell idea is interesting. We in Chicago are looking at the evolving matrix radiating out from Obama to Blagovich to LISC/Chicago to Rubin. By Googling Obama + LISC/Chicago + Rubin + FBI you can see the Chicago District has expanded our dragnet to include a former female mayor of Minneapolis near Honeywell. Here follows live time Intel coming in from an agent who was called back from the Mumbai-Rathke investigation to deal with the Madoff-Mellon fraud."

<http://www.100womeninhedgefunds.org/assets/images/HClintonSManzke2.jpg>

http://dir.professionalpensions.com/directory/logo_18.jpg

http://money.cnn.com/2000/05/29/investing/q_madoff/madoff.gif

"FBI TOPOFF message to Swan and PPP: Clinton Group managing \$ 1.1 billion for domestic and offshore clients, including Mumbai mob leaders, banks, insurance companies, pension funds and public funds. \$5 billion in collateralized debt obligations (CDOs) with Acorn's offshore credit pools. CR gave New York Mellon job as custodian for Troubled Asset Relief Program to game \$700 billion in funds from Emergency Economic Stabilization Act. CR and Mellon helped Madoff launder money through KPMG Son of BOSS and Sidley Austin COBRA tax shelters. CR pulled credit to initiate the Mellon bailout in mid-October and blame Bush after takeover of Brucey Baby and Hornet operation at K-Street Sex Club. Warning APB; Intercept Dearborn traffic suggest major credit-pool contract out on Madoff with the main 'pay-to-players' being BNP Paribas, AXA, Fairfield Firemens and Policemens Retirement Fund, New York State Teacher's Retirement System, Clinton Group, Arkansas Public Employees Retirement System and Illinois State Teachers' Pension fund. Fragmented Intel encrypted in text of [The Change They Believe In: Speech for Harlem Tenants Association ...](#) Black legislators turning on Obama as they see they have been double crossed by Chicago affiliate LISC—the Local Initiatives Support Corporation chaired by Citigroup Robert Rubin and the small white dots around Rathke .."

"If one were to add the following names to the search: Jarrett, Daley, Belton and GMAC the picture becomes clearer and clearer" reported Simon Fitzpatrick – or was it Patrick Fitzsimon?

"Thanks Fitz, over to Ms. Lizard please".

"Yes, I agree that Belton-GMAC-ACORN makes for an interesting dynamic but one must not lose sight of Wade Rathke, Phil Condit and the presumptive Inauguree's wife" responded Lizard unaware that Tango Whiskey was simultaneously recording, splicing, enhancing and transmitting her comments real time to the real Rodins.

Following the recaps from Wrigley Field, Simon Fitzpatrick and Loose Lips, SWAN-E reported that at the J. Edgar Hoover Building in Washington, the FBI focus was shifting towards Holder, Reno, Marcy, Leahy, Comey and Rich. He was about ready to comment on their next arrest warrant for the Chicago District when in from the PA came the announcement "Commando Solo zipper". SWAN-E stopped in mid-statement knowing that Priscilla Shoe-Forte's prophecy sermon has been finished and the barrage jamming was over. Almost simultaneously they could feel the Airbus being rolled onto runway 31R. Chips was impressed with how they made the first turnoff simply because they were so light and the auto brakes had been selected medium by Hoss, who was certainly not landing his first jet at Chicago Midway. With the private Airbus, N319SA, parked in front of the old Slick Always Hanger, SWAN-E asked Chips if the 'Commander Solo' broadcast came from a military Hercules. Chips answered honestly, "Not exactly" and turned to open door 1 Left. As agents came to help the legal four with their baggage Chips finished the answer to the Director.

"It is Commando Solo, not Commander Solo, and no sir; it is not aboard a military Hercules."

"But Chips, I just googled [solo + broadcast + aircraft + propaganda] and Commando Solo came up indicated it was aboard an EC130; can you explain the confusion to me?"

"Sir Commando Solo is the Hercules operation of the military. The Commando Solo we allude to is a civilian psyops operation on a smaller and older aircraft, privately owned, and the aircraft model was called the Commando. It is called Commando Solo because these 2 privately owned C46 variants have been modified at Ft. Collins/Loveland to become a single pilot aircraft to allow a sensor operator in the right seat, looking forward. I see your black Crown Vic is idling behind the Puma; could myself and Stone help you with your bags sir?"

As Hoss filled up the cockpit door, and then some, SWAN-E said, "No thanks, I travel light, thank you fellas for the safe crossing from Soesterberg. We in DC are counting on continued support from Abel Danger UC as January 13 draws near. And God knows Patrick in Chicago can use your support also. So long".

The Puma lifted off returning Lizard to her office tower. SWAN-E and Patrick Fitzsimon got in the back of the black Crown Vic and Wrigley Field was provided transportation to the airline terminal to catch a pair of Delta Airbus flights to Minneapolis and on to Fargo. After the last official car had cleared the area, a 1996 LT1 Fleetwood pulled up driven by a Clinton Reubens. As Hoss, Stone and Chips put their duffels in the trunk, Stone indicated to Clinton that Stone would be driving. Stone put the Air Force two-star plates and flags on, turned on the red lights behind the grill and contacted ground

control to gain permission to run Hoss over to the terminal where he would catch the same Airbus to Minneapolis as Wrigley Field but then split off to a Delta DC9 heading to Rapid City. At about the same time Roughrider was meeting Dumbo, the AC46K was taxied to the C130 ramp at Mitchell.

After Roughrider had gained access to Tango's crew car, a blue Mercury Fulminate, with Colorado plates, Skymaster, Tango and Dwarf exited the Commando. Roughrider handed them each a Grolsch beer and said "I've briefed the transient alert folks, Ace 1 will be fueled then put away for the night. We need to hot foot it up to the Red Carpet Inn for a Clipper conference with Chips, Hamish and Priscilla.

The four men boarded the Mercury Fulminate and Roughrider drove off behind an Air Police vehicle arranged to get them across the runway. After they had crossed safely, he silently held up a piece of paper with a hand written note. "Red Carpet renamed and compromised; we will all split at the memorial at the 128th Air Refueling Wing Headquarters. 4 taxis, 4 routes, all ending Wyndam Room 911." Dwarf, Skymaster and Tango mentally jotted down Wyndam. The room number was such that a mental note sufficed for all.

http://upload.wikimedia.org/wikipedia/en/thumb/7/79/128th_Air_Refueling_Wing.png/200px-128th_Air_Refueling_Wing.png

Once they arrived at the monument, the four quickly got into the 4 waiting cabs and took individual rides and routes to the rendezvous at the Milwaukee Airport Wyndam. It was just after dark that the four men checked in at the hotel as individuals and awaited their clipper calls in their rooms. At 1900 hours their calls came in the form of a collective IM and simply said "9-11, 1915, Fish".

At precisely 1900 they arrived in sequence at Room 911 and noticing the door open a

crack they entered to join Fish, Wally and an AQFB27-Kilo with a frozen image of Hamish. As Tango, Dwarf, Roughrider and Skymaster sat down a door to the adjoining room 909 opened and a very tall gentleman walked in. Fish introduced Sluggo to the others and then he introduced Wally to Sluggo. It was Wally who'd been at the helm of the S-80 submarine prototype where Fish had been waving the white flag. Wally was a Chicago businessman, not to be confused with a Chicago school teacher, and had worked with NDSU's polymers department in improving the S-80 sub design. In addition to NDSU, another Red River Valley defense contractor, Ideal Aerosmith, is believed to have built test equipment for the Inertial Guidance package for the S-80. Wally had been sought out to ensure the metal provided by Alcoa was not 'infested' like the B787 sub assemblies coming into the US from China or the Embraer and Bombardier airborne weapons plugging up America's ATC system. Wally and Fish had their common friend JT3 listening into the meeting through a wire in Wally's boutonnière.

Fish opened the meeting with "Gentlemen, we all know why we are here. Hamish will be briefing us over the 27 Kilo at 1930 from his outpost on Dearborn Street, Chicago where Sluggo will be joining Chips and Clinton Reuben immediately after this briefing. Sluggo will be going down to the windy city in a refrigerator truck belonging to Tony's Pizza as we have gained a friend in Tony's delivery service. If any of you are thirsty grab anything you like from the cooler in the bathroom and be back prior to 1930. While Fish was finishing the pre-brief Wally was booting the 27-Kilo and sound checking the Bose speakers. In Chicago Hamish was quartered in another Tony's Pizza delivery vehicle a block from where Chips and Clinton Reuben were set to hold a prayer vigil at 8 pm.

At just before 1930 the 3-D image of Hamish's head regained real time motion and at precisely 1930 coordinated universal time Hamish addressed those in Room 911, Chips and Clinton on the street through their IPOD earpieces as well as Dancer in Geneva and Moshe in Tel Aviv.

"Gentlemen, I will make this brief while each of you are receiving envelopes with briefing bullet points preceded by a report dated May 18th 1999 from Dwarf's agents in Canada. Back in 1999, Dwarf gave a great summary of the perps' world before the Y2K and 9/11. Tango, Dwarf and Sluggo have downloaded and pored over the comments made by Lizard woman in Sidley's Airbus. We have cross referenced Tony's info which has caused his sentencing date to be moved back and triple referenced it with the Blago wiretaps. Wally tells us that 'the new kid in town' is sufficiently satisfied that all three are singing the same tune and that Kid Kenya seems to be the only common denominator. It is known that the 'new kid in town' has been offered a cushy job in DC if he will not be so aggressive in cleaning up crime in his new 'home town'. I will now take a sip of mineral water while you each open your envelopes to look at the Dwarf Report; then I will read the bullet statements and take questions, if any. It is interesting to note that 4 of our members in Room 911 worked together previously at the Astoria Hotel in Saigon."

The envelopes were all opened when Hamish resumed, "So here is the Dwarf Report and our Wacker Drive friend's 8 bullets on the Inauguree's plan to vitalize the economy"

http://www.bradblog.com/Images/AcornRaidInLasVegas_100708.jpg

<http://www.adminplan.northwestern.edu/board/images/BOT%200607%20pics/Trienens.jpg>

<http://www.lookupalliance.com/images-news-04-election/bloodboy.jpg>

“Dwarf report p.m. May 18th 1999: Arsonist just firebombed Dr. Michael Galster’s medical clinic. Galster is Pine Bluff, Arkansas prosthetist who wrote Blood Trail under pseudonym Michael Sullivan. Building destroyed with all contents. Burglar just broke into Montreal offices of the Canadian Hemophilia Society (CHS). ADUC tracking three computers stolen and all documents on "tainted blood" scandal. We have archived links between Paul Martin former board member of the Canadian Development Corporation and its subsidiary Connaught Laboratories. Connaught traded in AIDS-contaminated blood across Canada. Martin authorized Canadian Development Corporation and Connaught to buy, fractionate and sell contaminated plasma from Arkansas Blood Components (ABC); credit pool supports life insurance fraud on recipients. ABC is subsidiary of Health Management Associates run by Clinton Rose Law firm with Leonard Dunn, former Pine Bluff banker and chief of staff to Lt. Gov. Winthrop Rockefeller, and Richard Mays, a Little Rock attorney and judge. ADUC network has records show Connaught buying contaminated blood from ABC/HMA through 1984 and 1985. Dead-peasant and vet life insurance frauds run through Canadian Privy Council and Clinton Rubin associates at U.S. Department of Veterans Affairs. Clinton Rubin agents privatized prisons and launched Con Air in 1995; aim to transport plasma and spread AIDS and Hep C infections into Africa as part of Obama depopulationist agenda. Multiple copies of files on following crimes accessed through USIS, Tomoye and Tides archives. CR allowed pre-insured black prisoners to bleed to death, altered records, cross contaminated plasma, tracked victims to maximize AXA Life insurance profits and destroyed medical records. Hillary Clinton ran operation ‘til 1993 then handed off to Obamas in Chicago after Foster was whacked in Fort Marcy Park by an out-of-town killer from Little Rock. Howard Trienens – Sidley partner – fired Michelle Obama in 1993. He tried to stop Acorn plans for global blood trade through private-prison, abortion-clinic and credit-pool networks set up by Dohrn, Rezko and Cari in Chicago and Martin’s Power Group out of Montreal.”

A few sips later, Hamish read out the Inauguree's plan to vitalize the economy

“a) middle class tax cuts of \$ 675-775 Billion

b) mortgage forgiveness for any mortgage written on property in the US serviced by banks outside the US.

c) indexing down of mortgage balances to recognize current property value

- d) *shutting down the Federal Reserve*
- e) *empanelling a 2nd 9/11 commission with focus on "everhard, frycook, and Gorilla Woman"*
- f) *removal of any 4 star, state adjutant general, or state assistant adjutant general who will not swear an oath to be loyal to Inauguree*
- g) *redeploy money from servicing of foreign mortgages to discretionary purchases of 'big 3 autos' by American taxpayers*
- h) *KC67 contract to Boeing"*

Hamish then faxed a rider with a comment over the PA, "And from our 'folks' at Sidley and 345 Park Ave, we ask you and your agents to investigate these names or combinations of names"

- a) *Vince Foster + Wade Rathke + tainted Canadian blood*
- b) *Disbarred attorney Michelle + Phil Condit + 1993 + Richard Daley + Bank One*
- c) *Dale Rathke + Louisiana + ACORN*
- d) *Wal-Mart + Clinton + India + James Jones*
- e) *Koskinen + Y2K + Clinton*
- f) *Hawala + India + Maurice Strong + Mau Mau*
- g) *Sidley + ACORN + McDonald Detwiler + AXA*
- h) *Forster + Zell + ACORN*
- i) *Marcy + Vince Foster + tainted blood + Clinton*
- j) *Georgetown + Master of Foreign Service + Credit pool*
- k) *Whistleblower + Ron Brown + Whack + Vince Foster + tainted blood + Rose Law*

"I apologize for the brief nature of this information, but Chips on the street wishes to utilize the 27 Kilo at this time. Hamish out."

With Chip's image replacing Hamish's in the 27-Kilo, Tango pressed 'record' as Chips opened up. "Lay Pastor Sluggo, Lay Pastor Clinton Reuben and myself, Lay Pastor Peter the Pilot will be meeting in 10 minutes with disenfranchised and threatened black folks who have been lied to regarding their audacious behavior expecting to gain hope. However, the dynamic with Blabby Blago and Talkative Tony has put the 'new kid in town' in the driver's seat and now our Patrick Fitzsimon is pulling the strings instead of the Hungarian Jew. It has been made clear to the 'string puppet' that his new 9/11 commission needs to lean heavily on the research of Abel Danger UC and focus on names like Eberhart and Fry. Further, the assembly of states adjutant generals have also communicated with 'the kid' and told him how to act if he doesn't want to face a coup such as Thailand recently experienced. The two loyal JCS members concur. Tomorrow will be a big day as 'Sidley' has contracted for a 2 hour 'pleasure flight' aboard Dumbo, seems they have 8 folks who need some privacy. While Pastors Peter, Sluggo and Clinton minister to the little people in accordance with Matthew 25:40, Tango, Skymaster and Dwarf will provide 'first class service' to the party of 8 aboard Dumbo. Dumbo needs to be at 'Slick-Midway' in time for a 1500 takeoff and 1700 recovery. Any questions?"

As there were no questions, Chips concluded his portion of the briefing by suggesting

that everyone get a good night's sleep and that they'd have another Clipper 27-Kilo at 1000 the following day. Signing off, his image and voice were replaced by the audio track of Alan Parson's Project performing "Eye in the Sky" which was exactly what Dumbo would be at 1500 the following day. As well as ear, nose, finger, and SNIPHer in the sky. The meeting adjourned, a Tony's Pizza reefer truck sat idling in the back lot of the Milwaukee Airport Wyndam. Tony has 'pizza sleeper cels' all over the US, but this particular truck was from the Chicago operation that was about ready to deliver a 'supreme', with extra cheese, to Simon Fitzpatrick at DOJ. When Sluggo approached the Pizza truck, he noticed some interesting antenna's arrayed on top of the refrigerated van body. He also saw a 58 year old driver and what appeared to be a Shepherd-wolf cross. As Sluggo approached the Tony's truck, a side door opened on the van body, not the cab, and a smiling Hamish urged him to crawl in.

Once Sluggo was inside and the delivery door closed, he introduced himself to Hamish who he recognized from the image inside the 27-kilo. Hamish encouraged Sluggo to sit on a sofa that was next to a desk upon which was another 27-kilo. "We are getting a briefing soon over the 27-kilo, but while we wait, give me a little of your history, Sluggo".

"Sure Hamish, glad to oblige. I have been listening to HawksCAFE on shows such as Jack Stogwell in Moab, Utah, Pastor Ernie in Cleveland and previously Michael Beatniks from Austin, Texas. I am one of the "Hotel Astoria Four" having worked in Saigon alongside Dwarf, Tango and Chips. I was the 7th son of a Christian pastor from the Fertile, Minnesota area .."

Sluggo was interrupted by Chips on the 27-Kilo who pointed out to Hamish "Sorry to be eavesdropping and interrupting but Fertile is near Climax and legend has it that an automobile accident once spawned this headline on the Grand Forks Herald, 'Fertile Woman Dies in Climax'".

As Hamish went backwards and forwards in his mind, Sluggo whipped his bull neck around and blushed slightly. "When my folks had me they were all out of boys names so they called a Jewish Mohel who had a talk show in Philadelphia and asked for a suggestion as to a suitable name for a 7th son. The Mohel determined they were not of the Jewish faith and therefore wouldn't give them a good name like David, Ramon or Moshe but rather he looked in a Philadelphia phone book and in the classified he saw an ad for Perkin Elmer Optical Co. so he suggested the name Elmer. At that time Perkin Elmer was the leading producer of monacles in Philadelphia. The original Perkin Elmer fashioned the monacle that Teddy Roosevelt wore at San Juan Hill and later in Medora, North Dakota. At one point an F16 belonging to the 119th Fighter Wing of the North Dakota ANG had a painting of Teddy and his monacle on the side of an F16ADF similar to the 4 F16s deployed over Washington, New York and Pennsylvania on 9/11. The company went on to produce more optical equipment for the defense industry and inspired the 1982 hit by the Alan Parsons Project "Eye in the Sky". Well, my parents thought Elmer was a great first name because our family surname was Perkins so they interpreted this as a communiqué from God through the Mohel."

While Elmer, or Sluggo as he preferred to be called, rested his tongue Hamish replied "What a wild coincidence. The man we are meeting tonight in Chicago, Clinton Reubens was the sole child of a teenage mother in the south side of Chicago. She was not sure who the father was so she called the DJ of a soul music station in Philadelphia and asked the DJ for a first name and a last name that would sound good for a young Afro-American male. The DJ apparently thought it was a crank call so he opened a Philadelphia phone book and looked in the yellow pages for defense attorneys. The smallest ad in the yellow pages was for Clinton Rubin Law Firm and the DJ relayed this to Clinton's mother. She was eating a reuben sandwich with extra sauerkraut at the time so she named her boy Clinton Reubens and helped herself to four more reuben sandwiches. Clinton's mother married a sailor from Glenview Naval Air Station and they moved to Annapolis when Clinton was just 3. To this day Clinton's mother still works at the Rams Head Tavern in Crownsville, Maryland and it is she who made the recipes for both the Elroy's Reuben and the Parson's Reuben on the Rams Head menus.

Bites

"I seriously love you guys" - Pat McGee

Roasted Red Pepper Hummus 7.95
Hummus seasoned with roasted red peppers and herbs, served with fresh vegetables and pita points.

Crab Dip 10.95
A delicate blend of cream cheese, lump crabmeat and jalapeños. Served bubbling hot with a toasted baguette and pita wedges.

Turkey Wrap 10.95
Thinly sliced turkey wrapped in a flour tortilla with diced tomato, bacon, avocado, chipotle ranch and Swiss cheese. Served with Kettle Chips.

Roast Beef Wrap 10.95
Thinly sliced roast beef stuffed in a sub roll with Provolone cheese and sautéed onions, then grilled in our Panini grill. Served with Au Jus and Kettle Chips.

Crab Cake Sandwich 12.95
A local favorite. Our 5oz. broiled super lump crab cake served on a toasted Kaiser roll with lettuce, a slice of tomato, tartar sauce & a lemon wedge.

Sliders 9.95
A basket of mini burgers complete with sliced pickles, shaved red onions and American cheese served with ketchup, mustard and Kettle chips.

From the AQFB 27-kilo came this response from Chips. "That truly is amazing. My best friend called me on my cel ending in 1910 about 15 minutes ago and told me that a DJ on the EIB network filling in for Rush Limbaugh had just been on a rant encouraging conservative republicans to act fast or standby to watch the USA fail, by design, at the hands of those who pull the strings of Kid Kenya. My friend, Selmer was driving from Detroit Lakes to the Minneapolis airport and lost his signal to AM 1100 out of Fargo. He then dialed in KSTP 1500 in the Twin Cities and picked up 'the rest of the story' being told by the DJ whose name he thought was Jason Lewis."

"[The Big Question](#) » [Blog Archive](#) » [A reply to critics, including ...](#) "I love the fact that we have Rush and Jason Lewis calling a spade a spade. I understand it is wrong and

unpopular in this pc world. I love the fact that they drive you dems" .. "Jason apparently is willing to call a spade, a spade..."

Chips interrupted again with an apology and a question "Do you think he or the station have the nerve to interview Chips and Hamish on air sometime. Michael Medved hasn't had the backbone to do it so far."

"Chips, I am not sure anyone on major media radio can afford to talk to you guys, seems their 'advertising dollars' dry up in a hurry" responded Sluggo while he held up a 3 x 5 card with a media personality's name on it. The 3 x 5 was put in view of the fake Rodin next to the 27 Kilo and Chips could clearly read "GLENN BECK".

Interactively from inside the 27 Kilo Chips asked, "Glenn Beck, is he the guy from Wapeton, North Dakota that used to build P51 Mustangs with Odegaard?"

"No Chips, that was Gerry Beck, rest his soul. Glenn Beck is a gutsy interviewer who may be willing to have you on sometime for an interview. By the way, how is it you knew Gerry Beck Chips" asked Sluggo.

"Well, my best friend's father, Paul O. Bye, had been a Hump pilot in the CBI Theater during WWII. He left active duty after the war but continued to fly at the Happy Hooligans, where Chips and Roughrider flew the Phantoms and Falcons. His father had a light aircraft and between the guard, WWII and light aircraft he knew everyone within 100 miles of Fargo who could operate a stick and rudder....."

"I bet he didn't know the 2 pilots of the North Dakota ANG C54 which tried to move a mountain in Alaska in 1969" interrupted Sluggo.

"Sure he did, everyone around Fargo knew the names Don Flesland and "Jimmy" Stewart In fact my best friend's father, as well as my best friend, knew every 'flying doctor' or flying attorney or judge within 100 miles of Fargo. Aviation is a small community....." as Chips stopped talking briefly as a Clipper 'immediate' call came into his clipper squirt gun he finished with a brief good-bye. "Sluggo and Hamish, an immediate clipper is coming in from Moshe and Dancer, signing off the 27 Kilo at this time and going to clipper, Chips out".

Chips focused on his clipper squirt gun and saw that Fish, Hamish, himself and Skymaster were all 'in the loop'. He selected 'green'. "Chips, Dancer with Moshe, we have some very sensitive information regarding Gaza and 'human shield'. Please call back on Clipper at exactly 2200 your time from Chicago. Also for this one call please get 'the new kid in town' and SWAN-E in the loop no matter what you have to spend, or who you have to burn. This is huge. Dancer out."

"Moshe out".

At the same time that Dancer abroad and Moshe in the EITAM signed off, a joint communiqué was received at the Fargo headquarters of HawksCAFE as well as on the AQFB27-Kilo that Hamish and Sluggo were watching, as well as Chips' clipper squirt gun. For the first time ever in Abel Danger UC or HawksCAFE this message was FLASH priority.

[Message precedence - Wikipedia, the free encyclopedia FLASH messages are to be handled as fast as humanly possible, ahead of all other ... PRIORITY precedence messages are processed, transmitted, and delivered in the order received see .. http://en.wikipedia.org/wiki/Message_precedence]

A sober Chips read the scrambled message:

"Chips, real time threat, Lebanese military missiles (15-20) on Israeli border. Gaza human shield advocates rattling sabres. Iran lighting up radars. "The Colonel" calling for all out defensive strikes from IDF. Israel is THREATENED, NOT THREATENING. Syrians behind Lebanese missiles. Clinton-Rubin behind Syria Egypt fighting Palestinians at Rafah border. CAIR worthy of study. Muslim Brotherhood publicly supporting '3 axis threat' however Egypt and other Arab nations unwilling to join attack on Israel. Public opinion as spun and reported by media in Frankfurt, Geneva and other European cities is driving government response. If you have a chance check Bible prophecy of Grant Jeffries/Hilton Sutton regarding END TIMES at Amazon.com: The New Temple and the Second Coming: The Prophecy That .. Grant Jefferies always researches his topics well Matthew 11 tells us that as we see the ... The Bible Prophecy community <http://www.amazon.com/New-Temple-Second-Coming-Generation/dp/1400071070>"

If you and Hawk agree with Dancer and Moshe suggest option VPOTUS, Dancer out.

Chips immediately picked up his ONI phone and dialed the US Naval Observatory for a phone patch.
